(57) **CLAIM**

The ornamental design for a trivet, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a trivet showing our new design;

FIG. 2 is a right side elevational view thereof;

FIG. 3 is a top plan view thereof; and,

FIG. 4 is a left side elevational view thereof.

The portion of the peripheral member that is shown broken away indicates that no particular space between the two ends, but not to be wider than the space shown in the drawings, is claimed.

The cross-hatching does not indicate a type of material, but only identifies the section break.
