FIG. 1 is the prespective view of the tip for a grinding wheel of the invention;

FIG. 2 is a front view thereof;

FIG. 3 is a rear view thereof;

FIG. 4 is a left side view thereof (the right side view thereof is a mirror image of this);

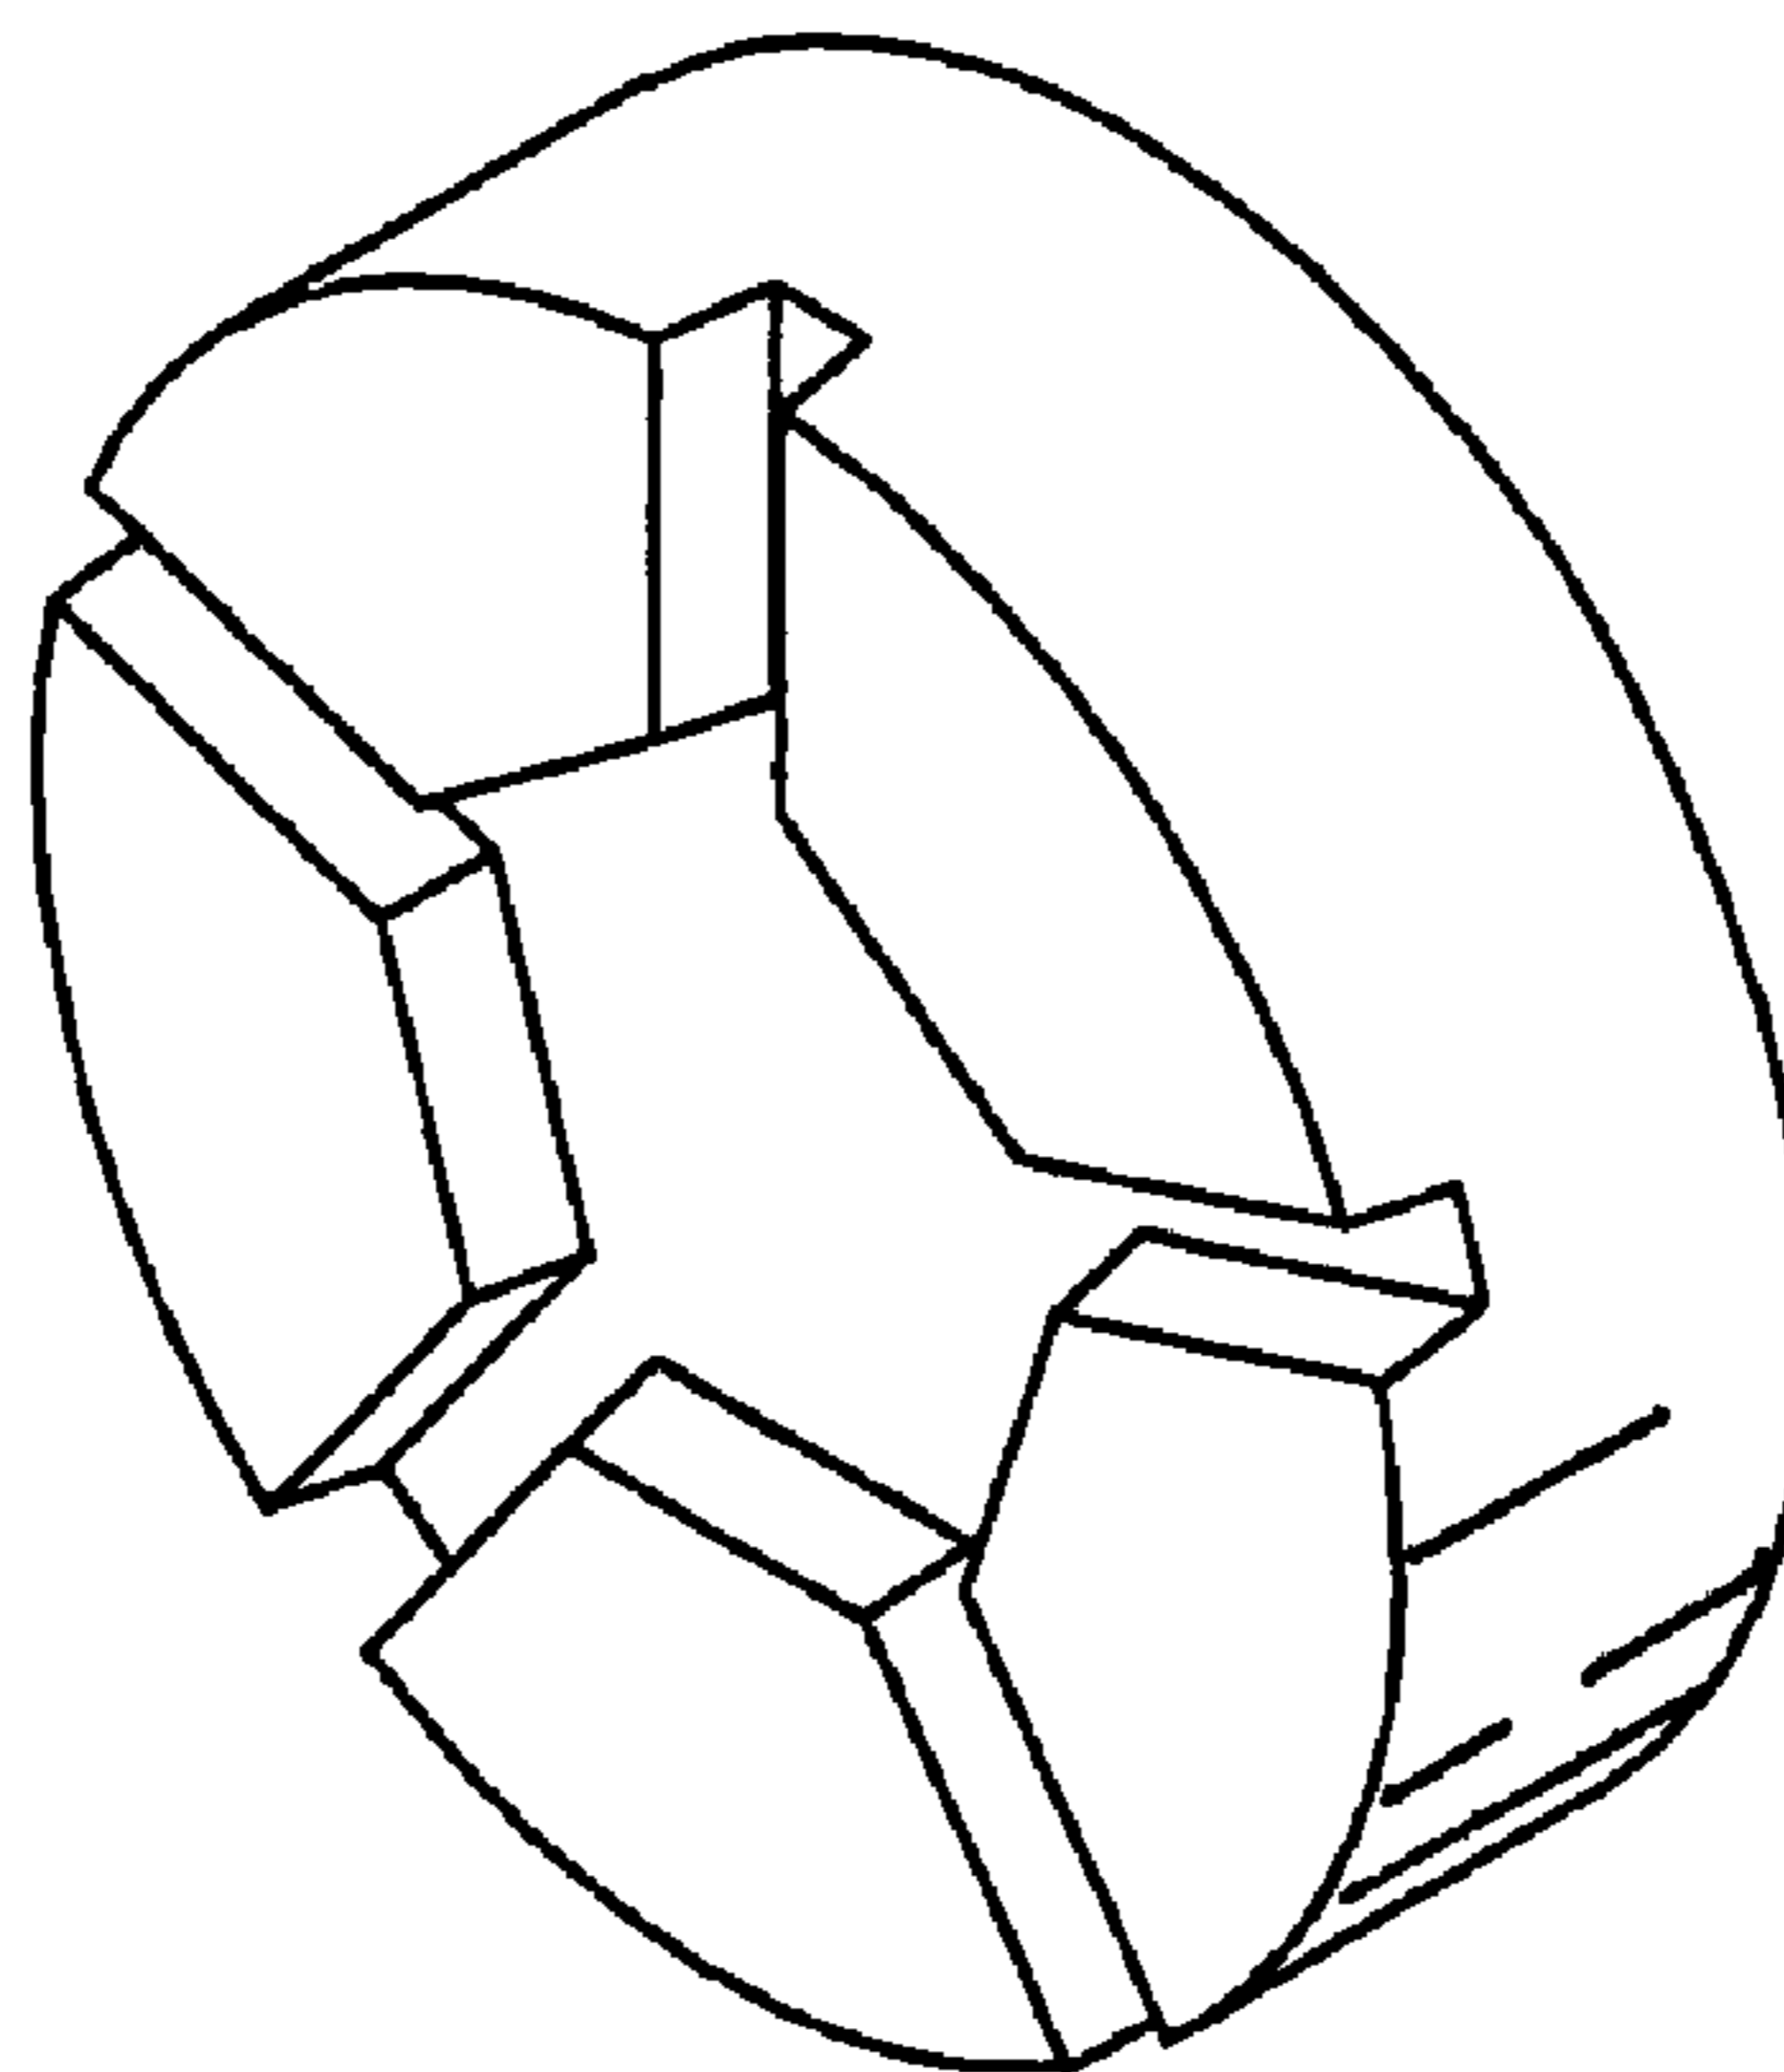

FIG. 5 is a top plan view thereof; and

FIG. 6 is a bottom plan view thereof; and,

FIG. 7 is a perspective view of the invention attached to the shank of a grinding wheel with a plurality of tips rendered in broken line. The broken line extension leading from the claimed design to the shank shows the placement of the claimed design upon the broken line shank.

The broken line showing of environmental structure, directional placement, and replications of the claimed design are for illustrative purposes only and form no part of the claimed design.
