(57) **CLAIM**

The ornamental design for a rear surface of a cleaning
article, as shown and described.

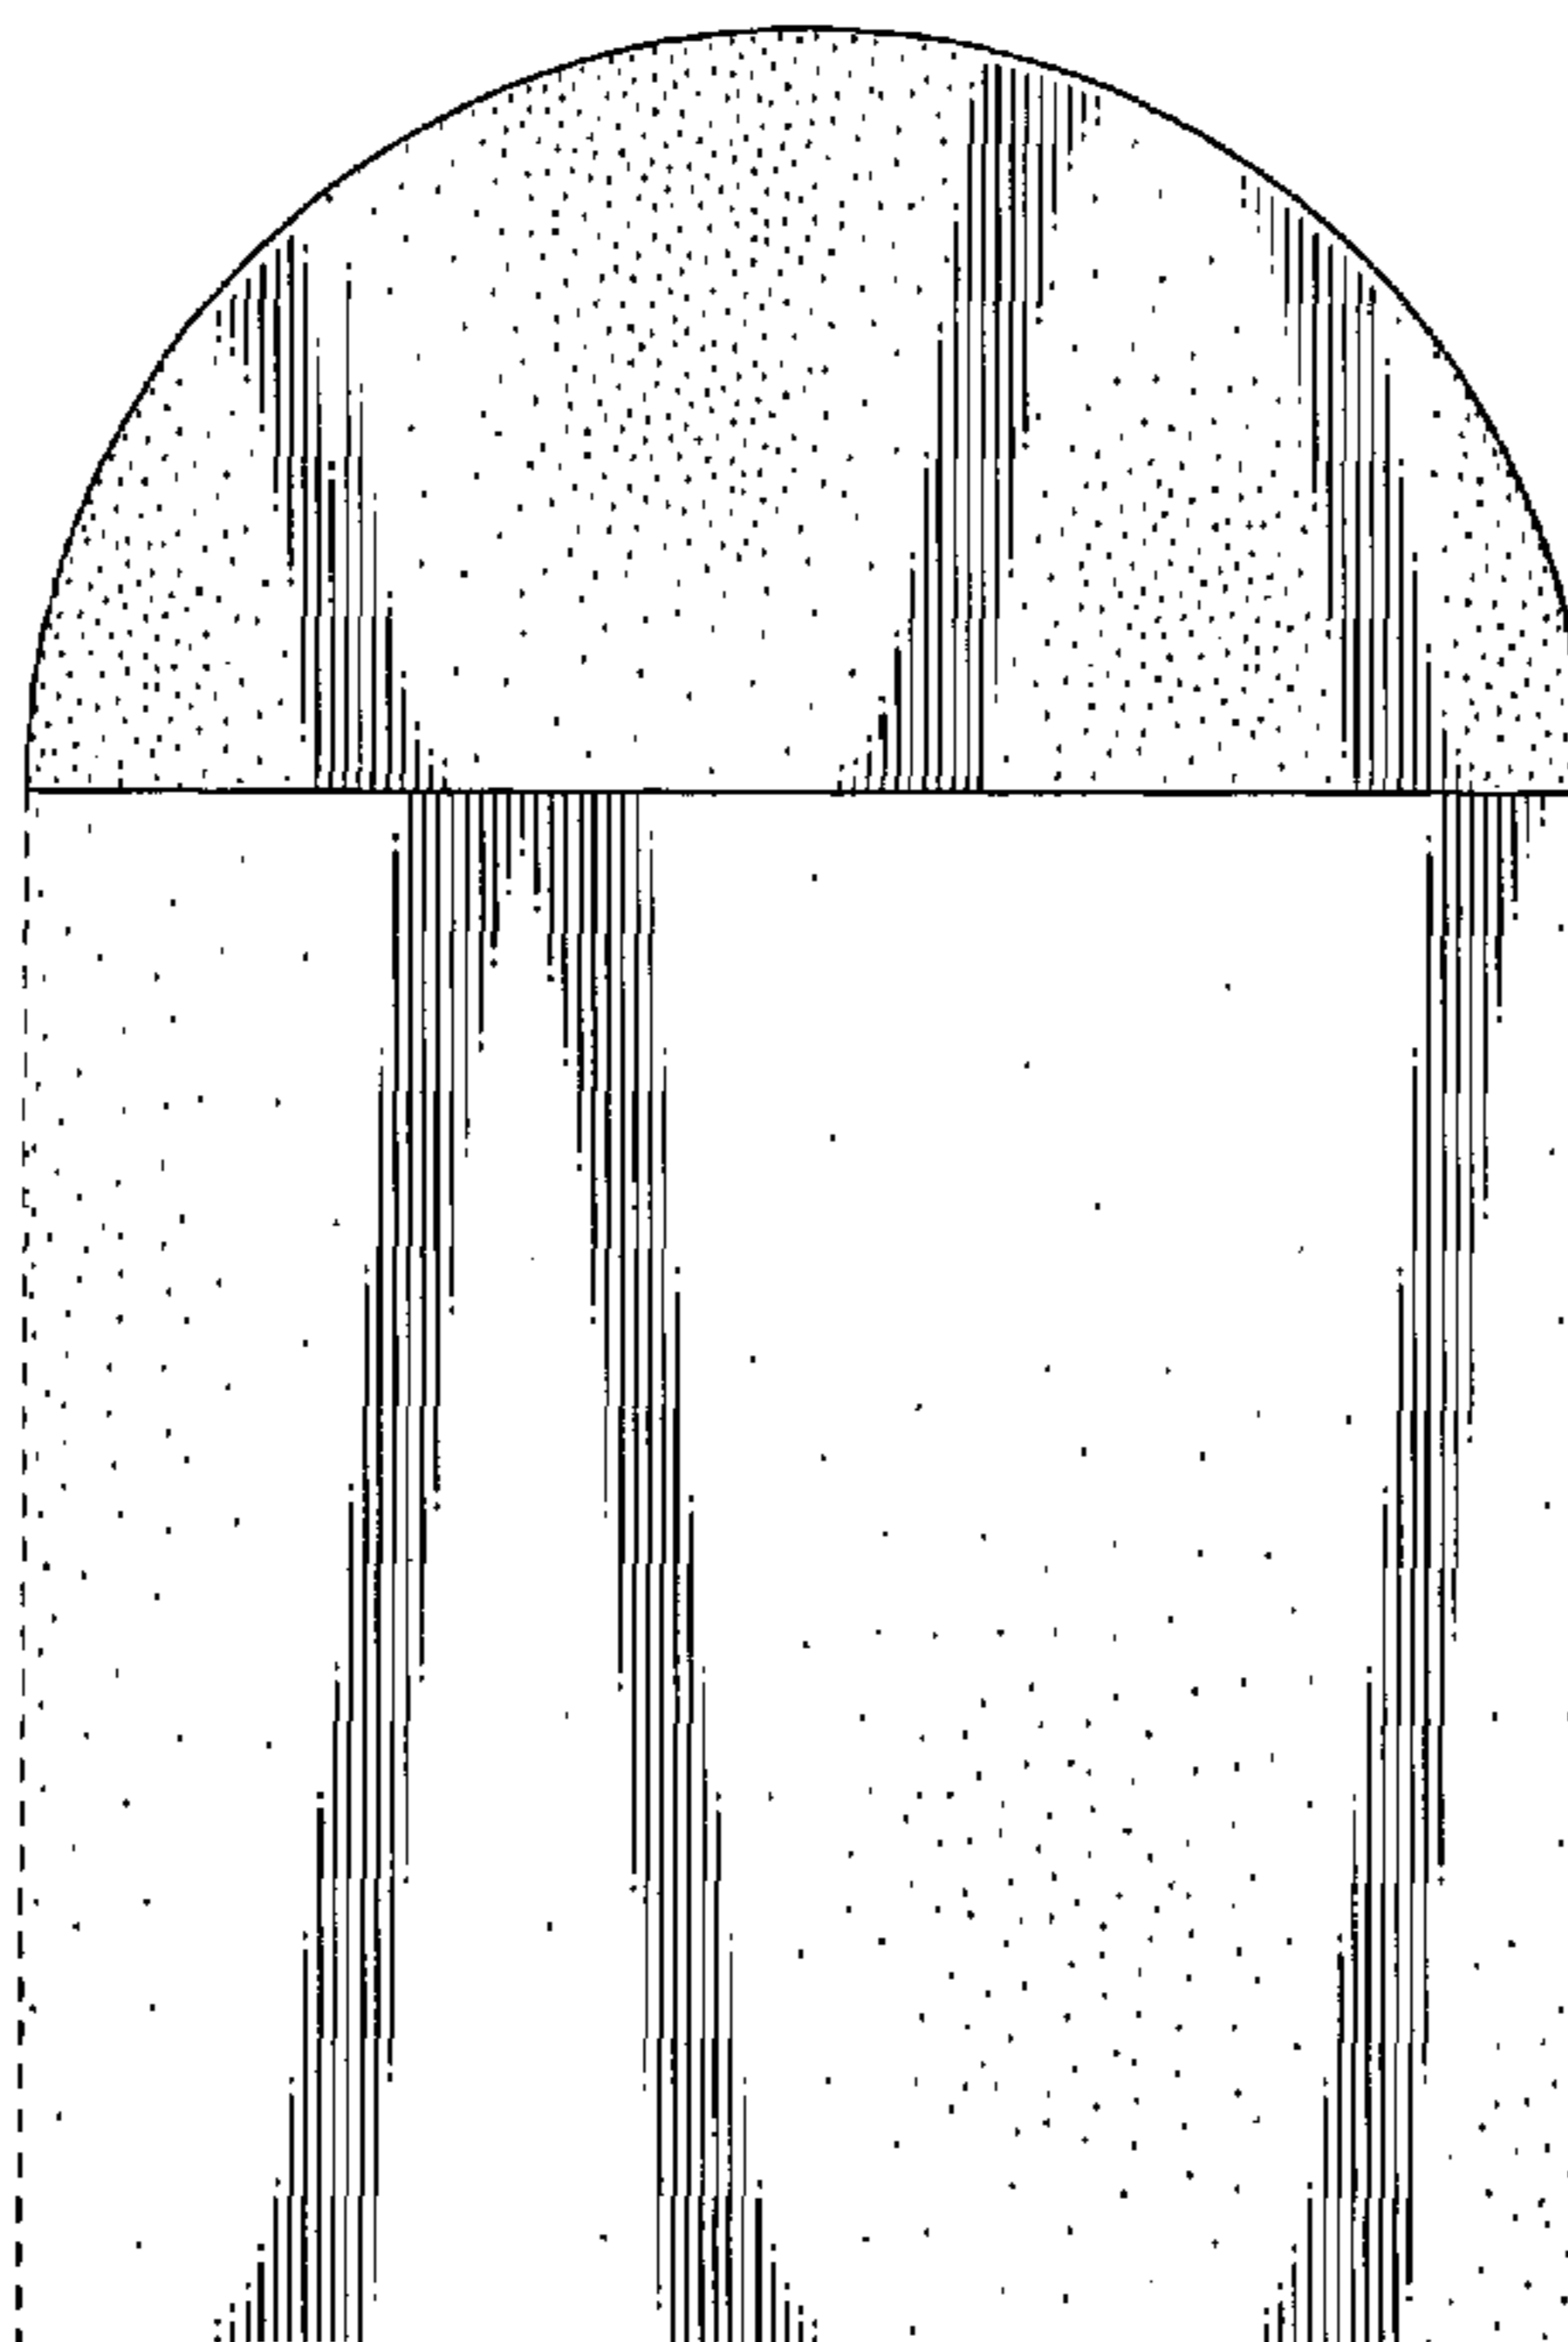

DESCRIPTION

FIG. 1 is a plan view of a first embodiment of a rear surface
of a cleaning article, embodying our new design; and,

FIG. 2 is a plan view of a second embodiment of a rear
surface of a cleaning article, embodying our new design.

It should be understood that the different shading shown in
the two embodiments of the rear surface of a cleaning article
denotes color contrast. In the drawings, the broken lines
along the outer edge of the figures represent the boundaries
of the claimed design, and, in FIG. 2, the broken line
separating the light and dark stippled areas represents envi-
ronmental structure. The broken lines form no part of the
claim.
