(57) **CLAIM**

The ornamental design for a control housing, as shown and described.

DESCRIPTION

In a preferred embodiment, the nature of this product is as a control housing, for example a housing for an electronic control for a cooling unit, such as a compact refrigerator, freezer, beverage cooler, ice maker, combinations thereof and the like.

FIG. 1 is a right, top, front perspective view of a control housing embodying our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a right side elevational view thereof, the left side elevational view thereof being a mirror image of the right side shown;

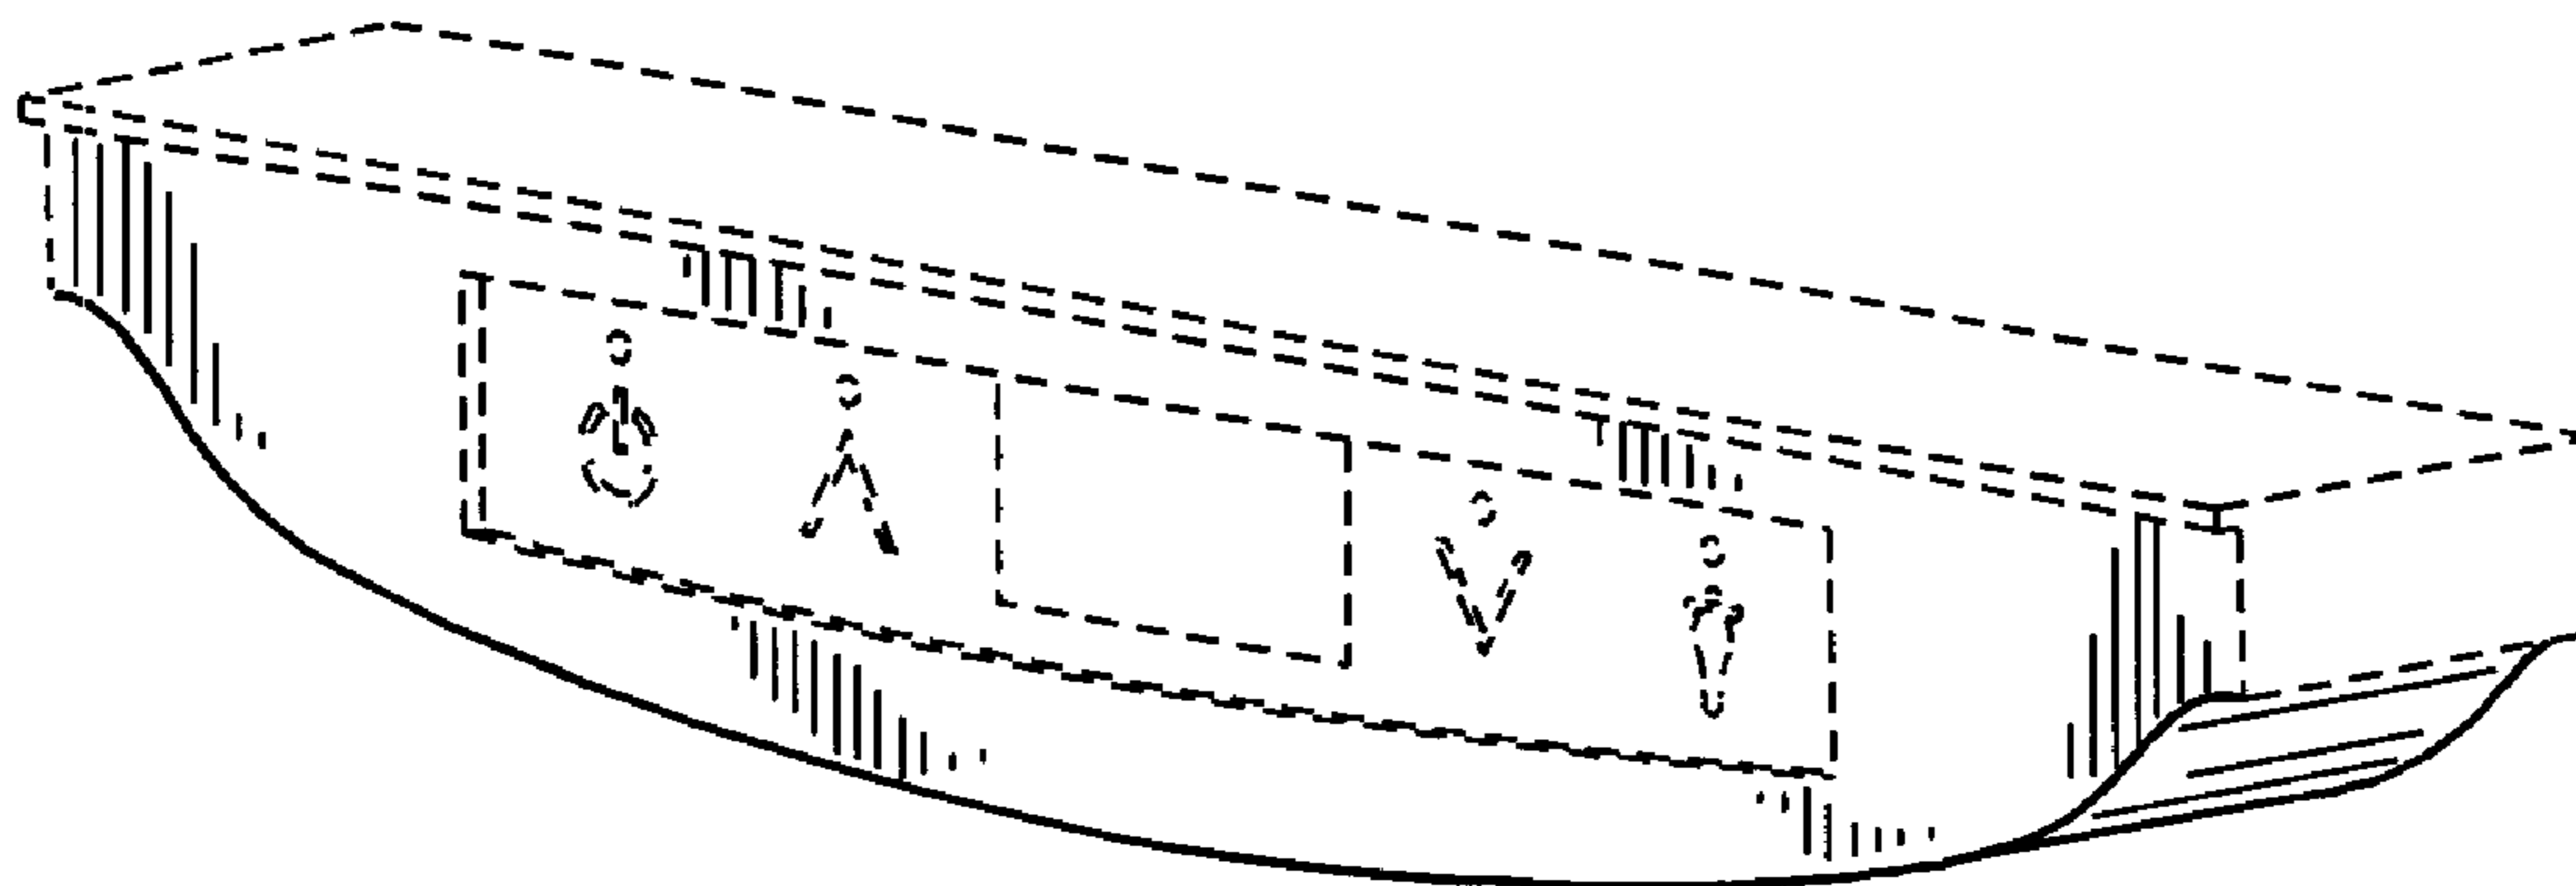

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a rear elevational view thereof; and,

FIG. 6 is a top plan view thereof.

The broken line representations in the figures are for the purpose of illustration only, and form no part of the claimed design.
