See application file for complete search history.

**DESCRIPTION**

FIG. 1 is a perspective view of a device for testing video signals, said perspective view showing a front view, a left side view and a top view thereof.

FIG. 2 is a left side elevational view thereof, wherein a right side view is a mirror image of the left side view; and,

FIG. 3 is a front elevational view thereof.

The appearance of a bottom and a back forms no part of the claimed design.
