FIG. 1 is a perspective view of a fishing rod holder according to a first exemplary embodiment of the present invention illustrating the new and ornamental design;

FIG. 2 is a rear elevational view of the fishing rod holder illustrated in FIG. 1;

FIG. 3 is a front elevational view of the fishing rod holder illustrated in FIGS. 1-2;

FIG. 4 is a right side elevational view of the fishing rod holder illustrated in FIGS. 1-3, the left side being a mirror image thereof;

FIG. 5 is a left side elevational view of the fishing rod holder illustrated in FIGS. 1-4;

FIG. 6 is a top plan view of the fishing rod holder illustrated in FIGS. 1-5;

FIG. 7 is a bottom view of the fishing rod holder illustrated in FIGS. 1-6;

FIG. 8 is a perspective view of the fishing rod holder illustrated in FIGS. 1-7 in which the tubular members for receiving fishing rods have been pivoted to new positions; and,

FIG. 9 is a perspective view of a fishing rod holder according to another exemplary embodiment of the present invention, with a lengthened base portion and an additional tubular member for receiving a fishing rod.
