## (57) CLAIM

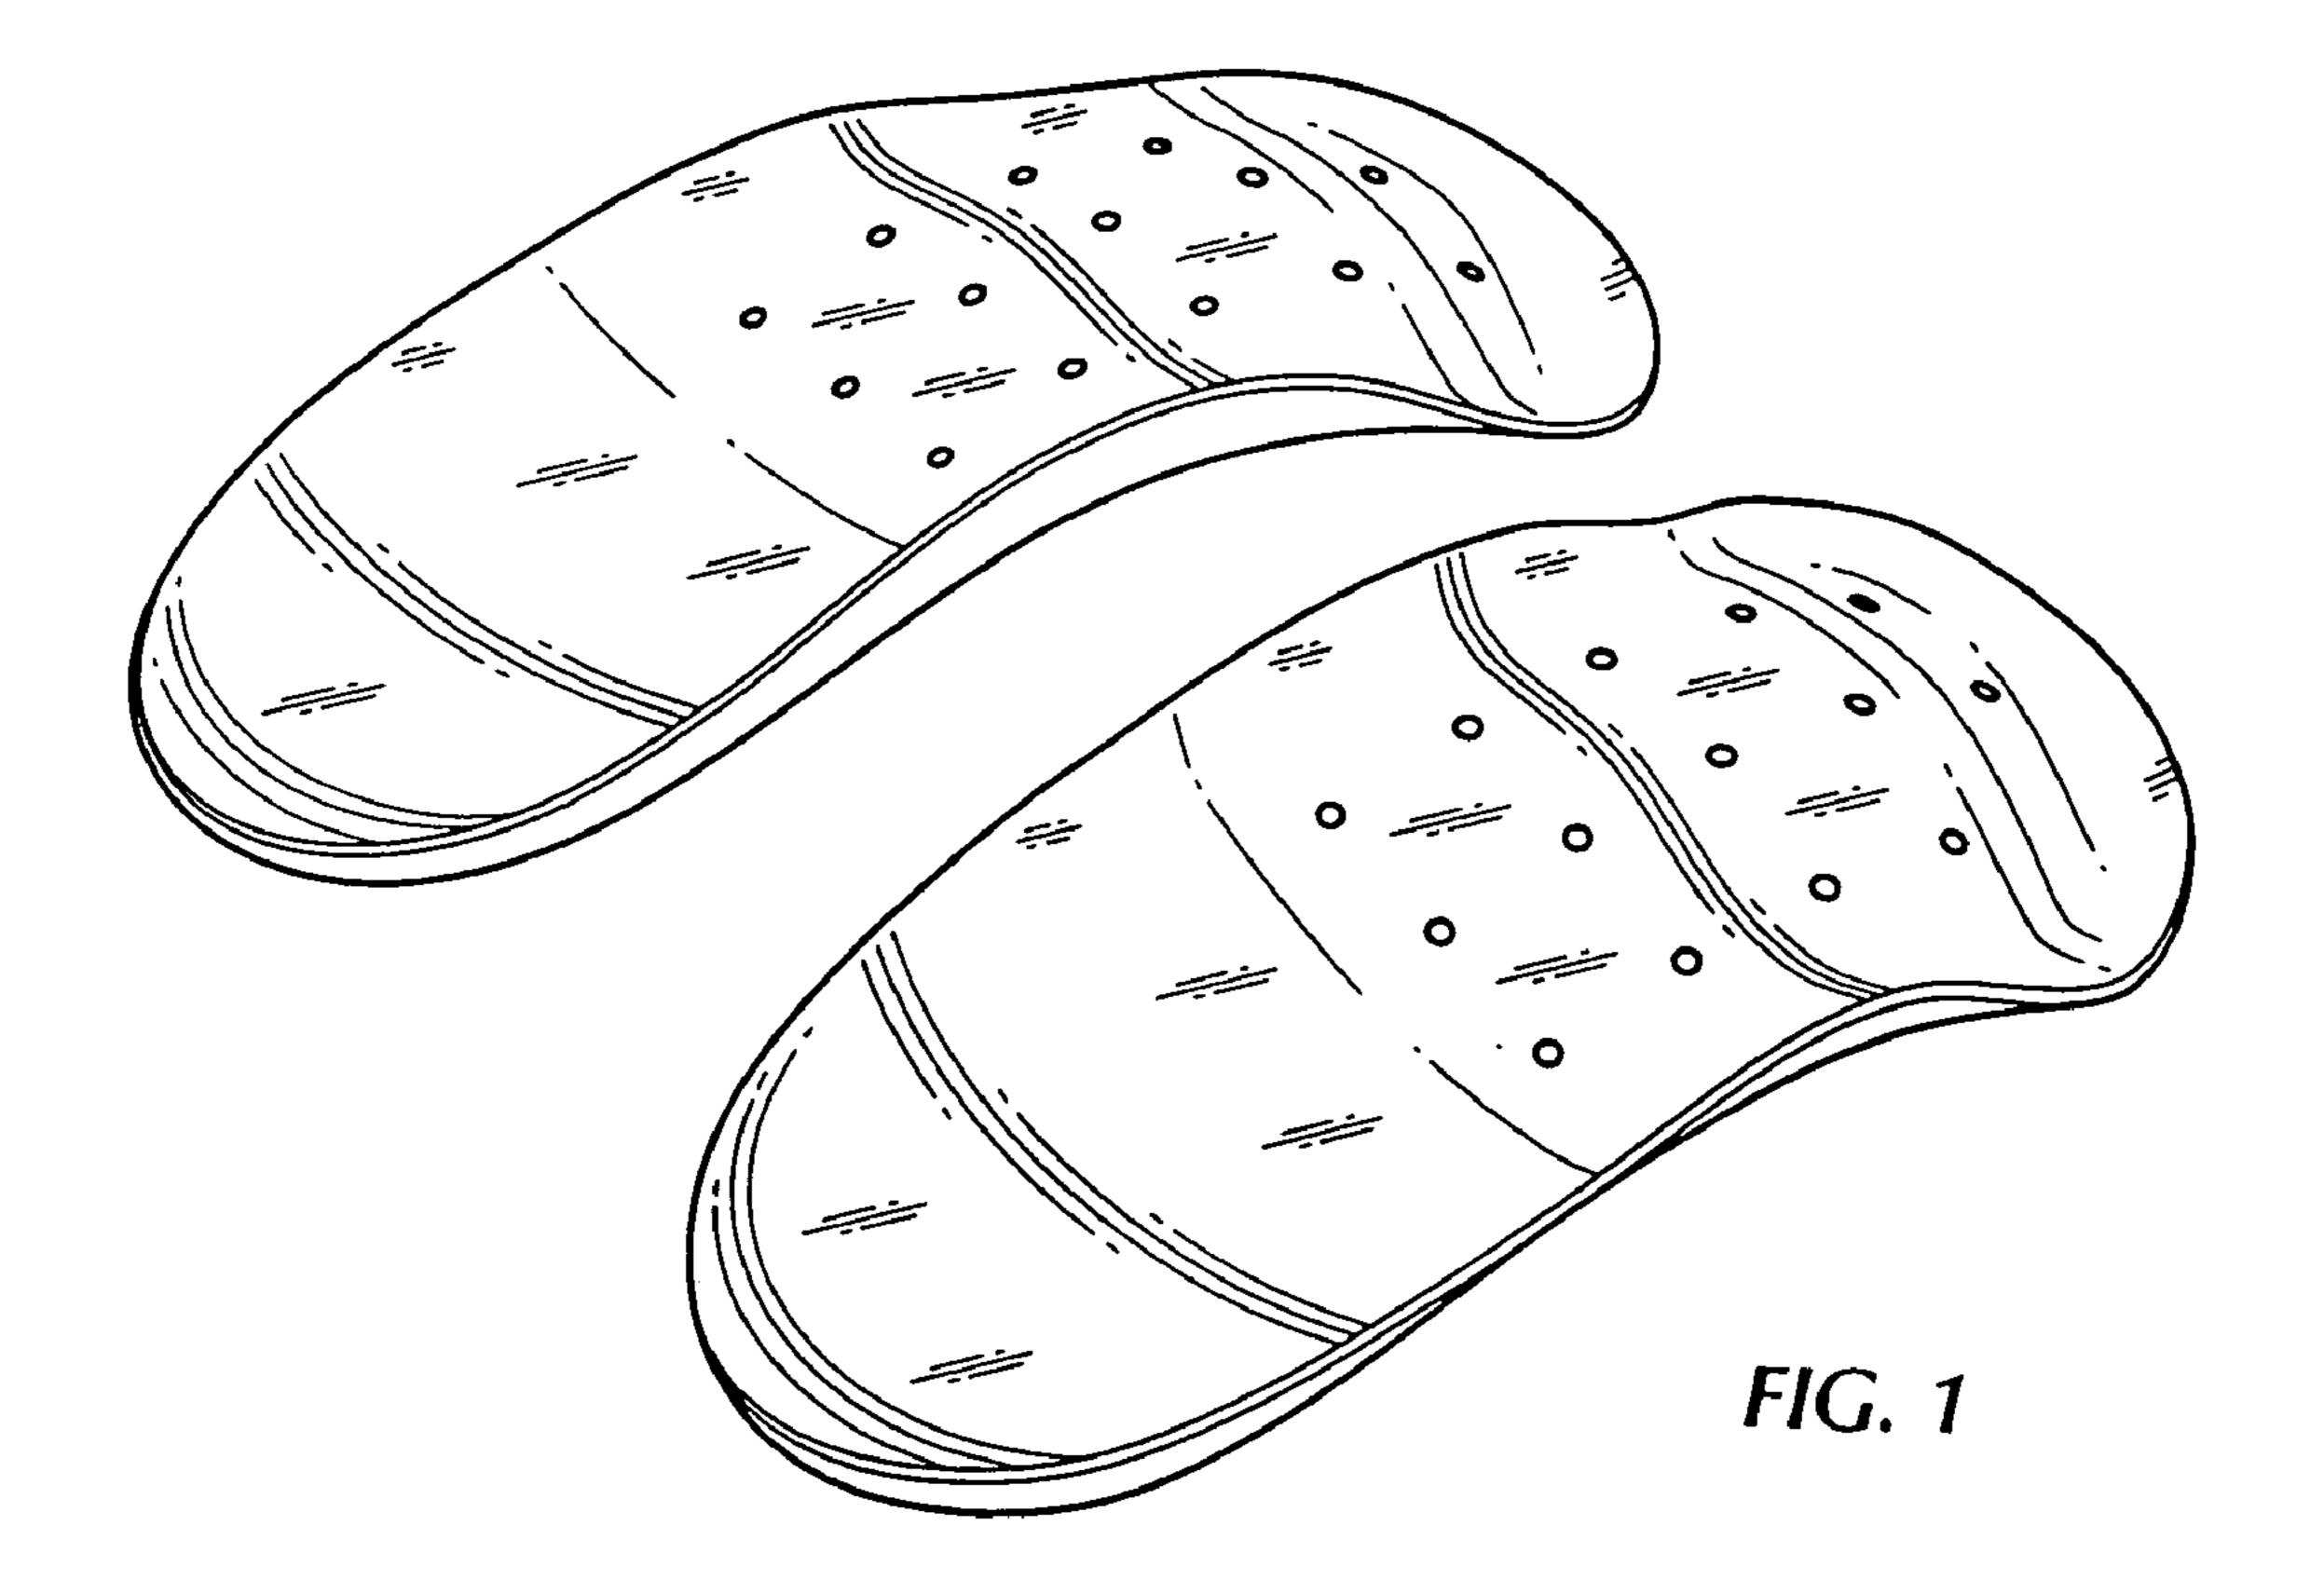

The ornamental design for translucent foot orthotic, as shown and described.

### DESCRIPTION

- FIG. 1 is a perspective view from the rear of a pair of translucent foot orthotics according to the invention.
- FIG. 2 is a top plan view of the pair according to the invention.
- FIG. 3 is a bottom plan view of the pair according to the invention.
- FIG. 4 is a left view of a right translucent foot orthotic according to the invention. A mirror image of FIG. 4 is a right view of a left translucent foot orthotic.
- FIG. 5 is a right view of the right translucent foot orthotic according to the invention. A mirror image of FIG. 5 is a left view of the left translucent foot orthotic.
- FIG. 6 is a front view of the pair according to the invention; and,
- FIG. 7 is a rear view of the pair according to the invention. All figures are shaded to indicate the translucent property of the design according to the invention.
