(57) **CLAIM**

The ornamental design for an actuator cap, as shown and described.

DESCRIPTION

The nature of this product is an actuator cap for an aerosol container for dispensing materials such as aerosolized insect repellents, insecticides, cleaners, and fragrances.

FIG. 1 is a right, top, frontal perspective view of an actuator cap embodying our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a right side elevational view thereof, the left side elevational view thereof being the mirror image thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a rear elevational view thereof; and,

FIG. 6 is a bottom plan view thereof.

The broken line representation of internal cap structure in FIG. 6 are for purposes of illustration only and form no part of the claim.
