(57) **CLAIM**

The ornamental design for an exercise facilitation device, as shown.

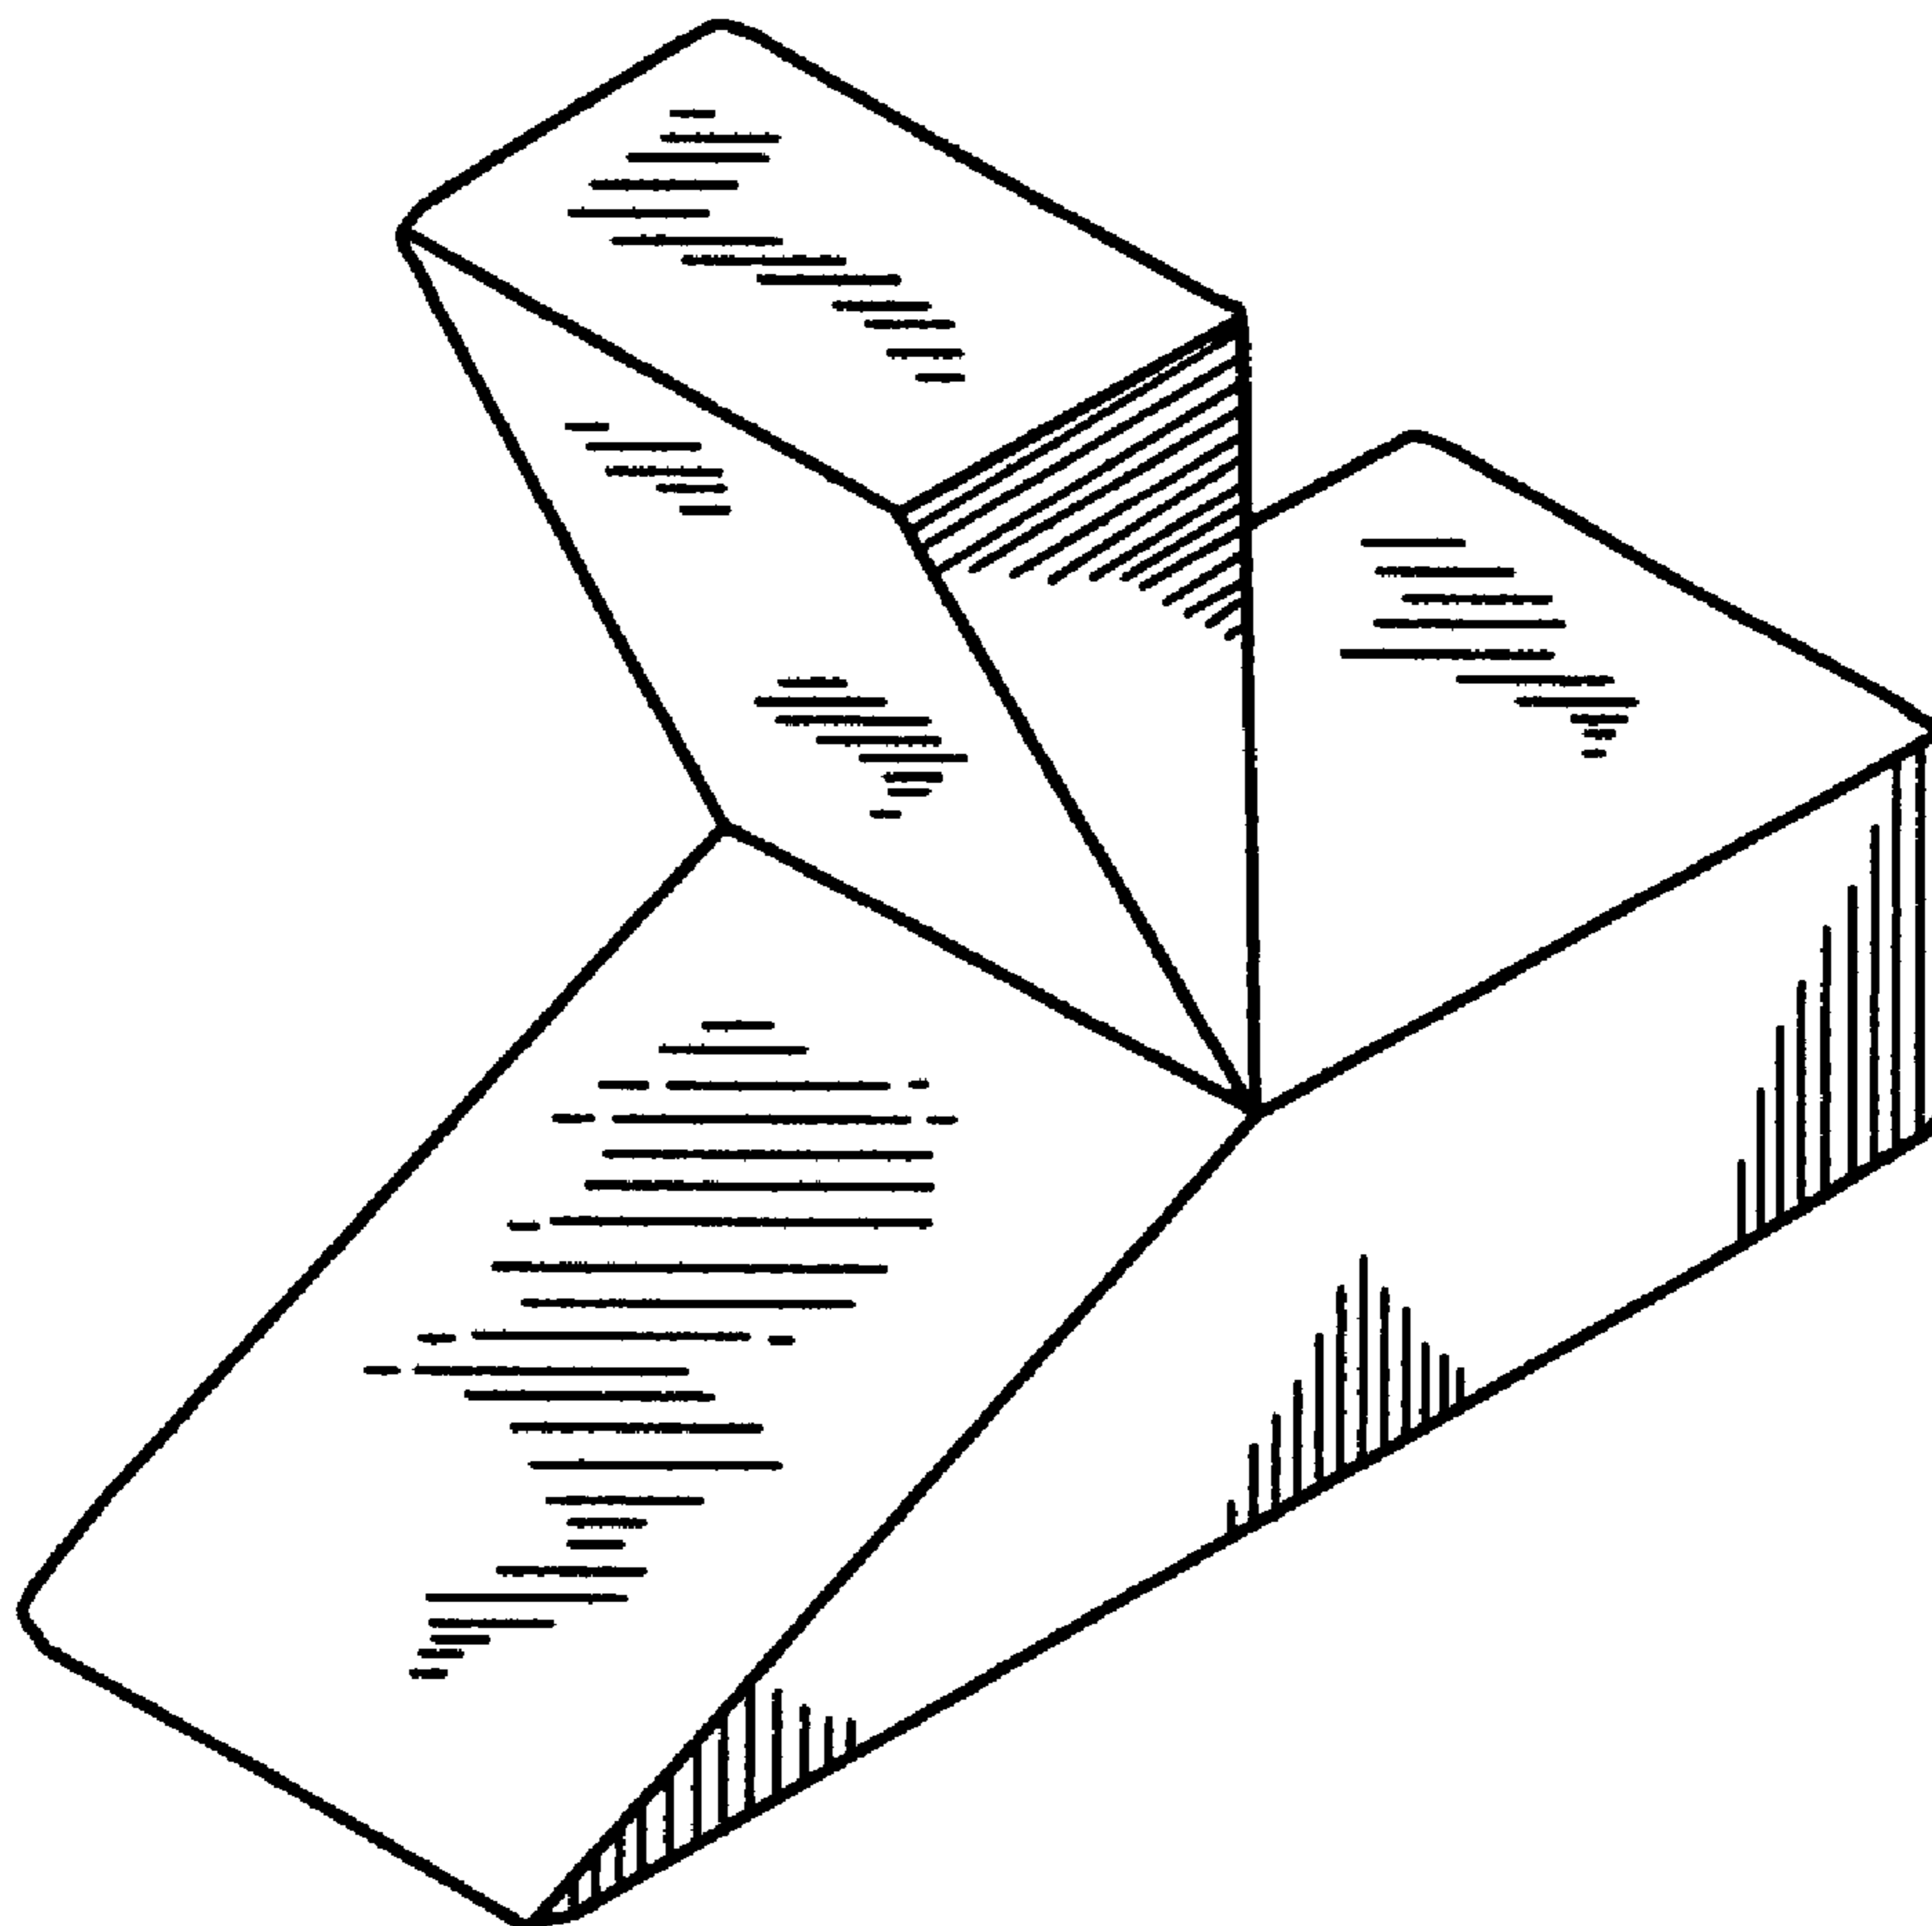

DESCRIPTION

FIG. 1 is a perspective view of an exercise facilitation device showing my new design, wherein the two complementary sections are positioned to form a rectangular configuration.

FIG. 2 is a perspective view thereof, wherein the smaller section is shown in a partially pivoted interim position; and,

FIG. 3 is a perspective view thereof, wherein the two complementary sections are positioned to form a wedge configuration.
