(57) **CLAIM**

The ornamental design for a light emitting diode, as shown and described.

DESCRIPTION

FIG. 1 shows a front view of the design according to a first embodiment of the invention.

FIG. 2 shows a rear view of the design according to the first embodiment of the invention.

FIG. 3 shows a top view of the design according to the first embodiment of the invention.

FIG. 4 shows a bottom view of the design according to the first embodiment of the invention.

FIG. 5 shows a left side view of the design according to the first embodiment of the invention. The right side view is a mirror image of the left side view.

FIG. 6 shows a top perspective view of the design according to the first embodiment of the invention.

FIG. 7 shows a bottom perspective view of the design according to the first embodiment of the invention.

FIG. 8 shows a front view of the design according to a second embodiment of the invention, indicating a translucent portion, wherein the rear, top, bottom, left and right side views are identical to the first embodiment.

FIG. 9 shows a front view of the design according to a third embodiment of the invention.

FIG. 10 shows a rear view of the design according to the third embodiment of the invention.

FIG. 11 shows a top view of the design according to the third embodiment of the invention.

FIG. 12 shows a bottom view of the design according to the third embodiment of the invention.

FIG. 13 shows a left side view of the design according to the third embodiment of the invention. The right side view is a mirror image of the left side view.

FIG. 14 shows a top perspective view of the design according to the third embodiment of the invention.

FIG. 15 shows a bottom perspective view of the design according to the third embodiment of the invention; and,

FIG. 16 shows a front view of the design according to a fourth embodiment of the invention, indicating a translucent portion, wherein the rear, top, bottom, left and right side views are identical to the third embodiment.

The elements shown in broken lines are for illustrative purposes only and form no part of the claimed design.
