(57) **CLAIM**

The ornamental design for a liquid and lotion applicator, as shown and described.

DESCRIPTION

FIG. 1 illustrates a side view of a first embodiment of the liquid and lotion applicator showing my new and ornamental design, the opposite side being a mirror-image thereof;

FIG. 2 illustrates a top plan view thereof;

FIG. 3 illustrates a front view, the opposite side being a mirror-image thereof;

FIG. 4 illustrates a fragmentary perspective view of the upper portion of FIG. 1 which has been shown as a partial view for ease of illustration;

FIG. 5 illustrates a perspective view with the upper applicator portion having been removed;

FIG. 6 illustrates a perspective view of the upper end portion thereof;

FIG. 7 illustrates a perspective fragmentary view of another upper end view thereof;

FIG. 8 illustrates a side view of another embodiment, the opposite side being a mirror image thereof;

FIG. 9 illustrates a top plan view thereof;

FIG. 10 illustrates a front view, the opposite side being a mirror-image thereof;

FIG. 11 illustrates a fragmentary perspective view of the upper portion of FIG. 8 which has been shown as a partial view for ease of illustration;

FIG. 12 illustrates a perspective view showing the applicator portion removed;

FIG. 13 illustrates a fragmentary perspective view of the upper portion showing another embodiment of the applicator portion which has been shown as a partial view for ease of illustration;

FIG. 14 illustrates a fragmentary perspective view of another upper portion showing another embodiment of the applicator portion, which has been shown as a partial view for ease of illustration;

FIG. 15 illustrates a fragmentary perspective view of the upper end with a cover attached, which has been shown as a partial view for ease of illustration;

FIG. 16 illustrates a side view of another embodiment, the opposite side being a mirror-image thereof;

FIG. 17 illustrates a top plan view thereof;

FIG. 18 illustrates a front view, the opposite side being a mirror-image thereof;

FIG. 19 illustrates a perspective fragmentary view of the upper portion of FIG. 16 which has been shown as a partial view for ease of illustration;

FIG. 20 illustrates a perspective view showing the applicator portion removed;

FIG. 21 illustrates a fragmentary perspective view showing the upper portion showing another embodiment of the applicator portion which has been shown as a partial view for ease of illustration;

FIG. 22 illustrates a fragmentary perspective view showing a modified upper end thereof;

FIG. 23 illustrates a side view of another embodiment, the opposite side being a mirror-image thereof;

FIG. 24 illustrates a top plan view thereof;

FIG. 25 illustrates a front view, the opposite side being a mirror-image thereof;

FIG. 26 illustrates a fragmentary perspective view of the upper portion of FIG. 23, which has been shown as a partial view for ease of illustration;

FIG. 27 illustrates a perspective view showing the applicator portion removed;

FIG. 28 illustrates a fragmentary perspective view of the upper portion showing another embodiment of the applicator portion which has been shown as a partial view for ease of illustration;

FIG. 29 illustrated a fragmentary perspective view of a modified upper end portion thereof; and,

FIG. 30 illustrates a fragmentary perspective of the upper end with the cover attached thereto, which has been shown as a partial view for ease of illustration.

The views in the drawings are shown on different scales.

The applicator portion has been removed from FIGS. 5, 12, 20 and 27 only so that the underlying surfaces can be disclosed, The embodiments shown in FIGS. 6 and 7 differ from the embodiment shown in FIGS. 1 through 5 only in the applicator portion as shown. The embodiments shown in FIGS. 13 and 14 differ from the embodiment shown in FIGS. 8 through 12 only in the applicator portion as shown. The embodiments shown in FIGS. 21 and 22 differ from the embodiment shown in FIGS. 16 through 20 only in the applicator portions as shown. The embodiments shown in FIGS. 28 and 29 differ from the embodiment shown in FIGS. 23 through 27 only in the applicator portion as shown. The embodiment shown in FIG. 15 is the same as the embodiment shown in FIGS. 8 through 12 except that it has a cap as shown. The embodiment shown in FIG. 30 is the same as the embodiment shown in FIGS. 23 through 27 except that it has a cap as shown.
