(57) **CLAIM**

The ornamental design for a transportable gas cylinder, as shown and described.

FIG. 1 is a perspective view of an embodiment of the transportable gas cylinder of the subject invention. The broken lines showing the valve assembly are for illustrative purposes only and form no part of the claimed design;

FIG. 2 is a perspective view of the transportable gas cylinder of FIG. 1, from a vantage point above the cylinder. The broken lines showing the valve assembly are for illustrative purposes only and form no part of the claimed design;

FIG. 3 is a perspective view of the transportable gas cylinder of FIG. 1, from a vantage point below the cylinder. The broken lines showing the valve assembly and the internal tank are for illustrative purposes only and form no part of the claimed design;

FIG. 4 is a front elevational view of the transportable gas cylinder of FIG. 1. The broken lines showing the valve assembly are for illustrative purposes only and form no part of the claimed design;

FIG. 5 is a side elevational view of the transportable gas cylinder of FIG. 1. The broken lines showing the valve assembly are for illustrative purposes only and form no part of the claimed design;

FIG. 6 is a top plan view of the transportable gas cylinder of FIG. 1. The broken lines showing the valve assembly are for illustrative purposes only and form no part of the claimed design; and,

FIG. 7 is a bottom plan view of the transportable gas cylinder of FIG. 1. The broken lines showing the internal tank are for illustrative purposes only and form no part of the claimed design.
