(57) **CLAIM**

We claim the ornamental design for a bench assembly, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view showing a front, top and side of a first embodiment of the bench assembly including a first bench, a second bench, and a first table;

FIG. 2 is a top plan view of the first embodiment of the bench assembly;

FIG. 3 is a front elevational view of the first embodiment of the bench assembly;

FIG. 4 is an elevational view of a first side of the first embodiment of the bench assembly;

FIG. 5 is a rear elevational view of a first embodiment of the bench assembly;

FIG. 6 is an elevational view of a second side of the first embodiment of the bench assembly;

FIG. 7 is a bottom plan view of the first embodiment of the bench assembly;

FIG. 8 is a perspective view showing a front, top and side of a second embodiment of the bench assembly including the first bench, the second bench, and the first table, wherein a plurality of legs are shown in dashed line;

FIG. 9 is a top plan view of the second embodiment of the bench assembly;

FIG. 10 is a front elevational view of the second embodiment of the bench assembly;

FIG. 11 is an elevational view of a first side of the second embodiment of the bench assembly;

FIG. 12 is a rear elevational view of a second embodiment of the bench assembly;

FIG. 13 is an elevational view of a second side of the second embodiment of the bench assembly;

FIG. 14 is a bottom plan view of the second embodiment of the bench assembly;

FIG. 15 is a perspective view showing a front, top and side of a third embodiment of the bench assembly including the first bench, the second bench, and a second embodiment of the table;

FIG. 16 is a top plan view of the third embodiment of the bench assembly;

FIG. 17 is a front elevational view of the third embodiment of the bench assembly;

FIG. 18 is an elevational view of a first side of the third embodiment of the bench assembly;

FIG. 19 is a rear elevational view of a third embodiment of the bench assembly;

FIG. 20 is an elevational view of a second side of the third embodiment of the bench assembly;

FIG. 21 is a bottom plan view of the third embodiment of the bench assembly;

FIG. 22 is a perspective view showing a front, top and side of a fourth embodiment of the bench assembly including the first bench, the second bench, and the first table, wherein a plurality of legs are shown in dashed line;

FIG. 23 is a top plan view of the fourth embodiment of the bench assembly;

FIG. 24 is a rear elevational view of the fourth embodiment of the bench assembly;

FIG. 25 is an elevational view of a first side of the fourth embodiment of the bench assembly;

FIG. 26 is a rear elevational view of a fourth embodiment of the bench assembly;

FIG. 27 is an elevational view of a second side of the fourth embodiment of the bench assembly;

FIG. 28 is a bottom plan view of the fourth embodiment of the bench assembly;

FIG. 29 is a perspective view showing a front, top and side of a fifth embodiment of the bench assembly of the present invention, including the first bench;

FIG. 30 is a top plan view of the fifth embodiment of the bench assembly;

FIG. 31 is a front elevational view of the fifth embodiment of the bench assembly, with the rear elevational view being a mirror image thereof;

FIG. 32 is an elevational view of a first side of the fifth embodiment of the bench assembly, with the opposite side elevational view being a mirror image thereof;

FIG. 33 is a bottom plan view of the fifth embodiment of the bench assembly;

FIG. 34 is a perspective view showing a front, top and side of a sixth embodiment of the first bench assembly of the present invention wherein a plurality of legs is shown in dashed line;

FIG. 35 is a top plan view of the sixth embodiment of the bench assembly;

FIG. 36 is a front elevational view of the sixth embodiment of the bench assembly, with the opposite side elevational view being a mirror image thereof;

FIG. 37 is an elevational view of a first side of the sixth embodiment of the bench assembly, with the opposite side elevational view being a mirror image thereof;

FIG. 38 is a bottom plan view of the sixth embodiment of the bench assembly;

FIG. 39 is a perspective view showing a front, top and side of a seventh embodiment of the second bench assembly of the present invention;

FIG. 40 is a top plan view of the seventh embodiment of the bench assembly;

FIG. 41 is a front elevational view of the seventh embodiment of the bench assembly with the rear elevational view being a mirror image thereof;

FIG. 42 is an elevational view of a first side of the seventh embodiment of the bench assembly, with the opposite side elevational view being a mirror image thereof;

FIG. 43 is a bottom plan view of the seventh embodiment of the bench assembly;

FIG. 44 is a perspective view showing a front, top and side of an eighth embodiment of the second bench assembly of the present invention wherein a plurality of legs is shown in dashed line;

FIG. 45 is a top plan view of the eighth embodiment of the bench assembly;

FIG. 46 is a front elevational view of the eighth embodiment of the bench assembly, wherein the rear elevational view is a mirror image thereof;

FIG. 47 is an elevational view of a first side of the eighth embodiment of the bench assembly, wherein the opposite side elevational view is a mirror image thereof;

FIG. 48 is a bottom plan view of the eighth embodiment of the bench assembly;

FIG. 49 is a perspective view showing a front, top and side of a ninth embodiment of the first table;

FIG. 50 is a top plan view of the ninth embodiment of the table;

FIG. 51 is an elevational view of a first side of the ninth embodiment of the table, with the opposite side elevational view being a mirror image thereof;

FIG. 52 is a front elevational view of the ninth embodiment of the table;

FIG. 53 is a rear elevational view of a ninth embodiment of the table; and,

FIG. 54 is a bottom plan view of the ninth embodiment of the table.

The dashed lines within the figures are shown for illustrative purposes only and form no part of the claimed invention.
