**DESCRIPTION**

FIG. 1 is a perspective view of the holder arm of the subject invention illustrated in its retracted position against a wall.

FIG. 2 is a front elevational view of the holder arm of the subject invention;

FIG. 3 is a top plan view of the holder arm of the subject invention;

FIG. 4 is a side elevational view of the holder arm of the subject invention taken from the left side of FIG. 3;

FIG. 5 is a side elevational view of the holder arm of the subject invention taken from the right side of FIG. 3;

FIG. 6 is a rear elevational view of the holder arm of the subject invention;

FIG. 7 is a bottom plan view of the subject invention;

FIG. 8 is a perspective view of the holder arm of the subject invention with a hair dryer holding device attached thereto; and,

FIG. 9 is a perspective view of the holder arm of the subject invention with a flat iron holding device attached thereto.

The broken line showing of parts attached to the holding arm, including the hair dryer and flat iron of FIGS. 8 and 9 are included for the purpose of illustrating use and environment and form no part of the claimed design.
