(57) **CLAIM**

The ornamental design for a graphic user interface for an electric thermometer with biorhythm indicator and pedometer, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a graphic user interface for an electric thermometer with biorhythm indicator and pedometer showing my new design;

FIG. 2 is a front view of a second embodiment of a graphic user interface for an electric thermometer with biorhythm indicator and pedometer showing my new design;

FIG. 3 is a front view of a third embodiment of a graphic user interface for an electric thermometer with biorhythm indicator and pedometer showing my new design;

FIG. 4 is a front view of a fourth embodiment of a graphic user interface for an electric thermometer with biorhythm indicator and pedometer showing my new design;

FIG. 5 is a front view of a fifth embodiment of a graphic user interface for an electric thermometer with biorhythm indicator and pedometer showing my new design; and,

FIG. 6 is a front view of a sixth embodiment of a graphic user interface for an electric thermometer with biorhythm indicator and pedometer showing my new design.

The broken lines are shown in the views for illustrative purposes only, and form no part of the claimed design.

The broken line(s) which define the bounds of the claimed design form no part thereof.
