Co-pending U.S. Appl. No. 10/954,021, filed Sep. 30, 2004, entitled "Document Display Indicating Position Within Document," Joe Sriver.

FIG. 1 is a front view of a graphic user interface of page turning elements for a display screen of a communications terminal; and,

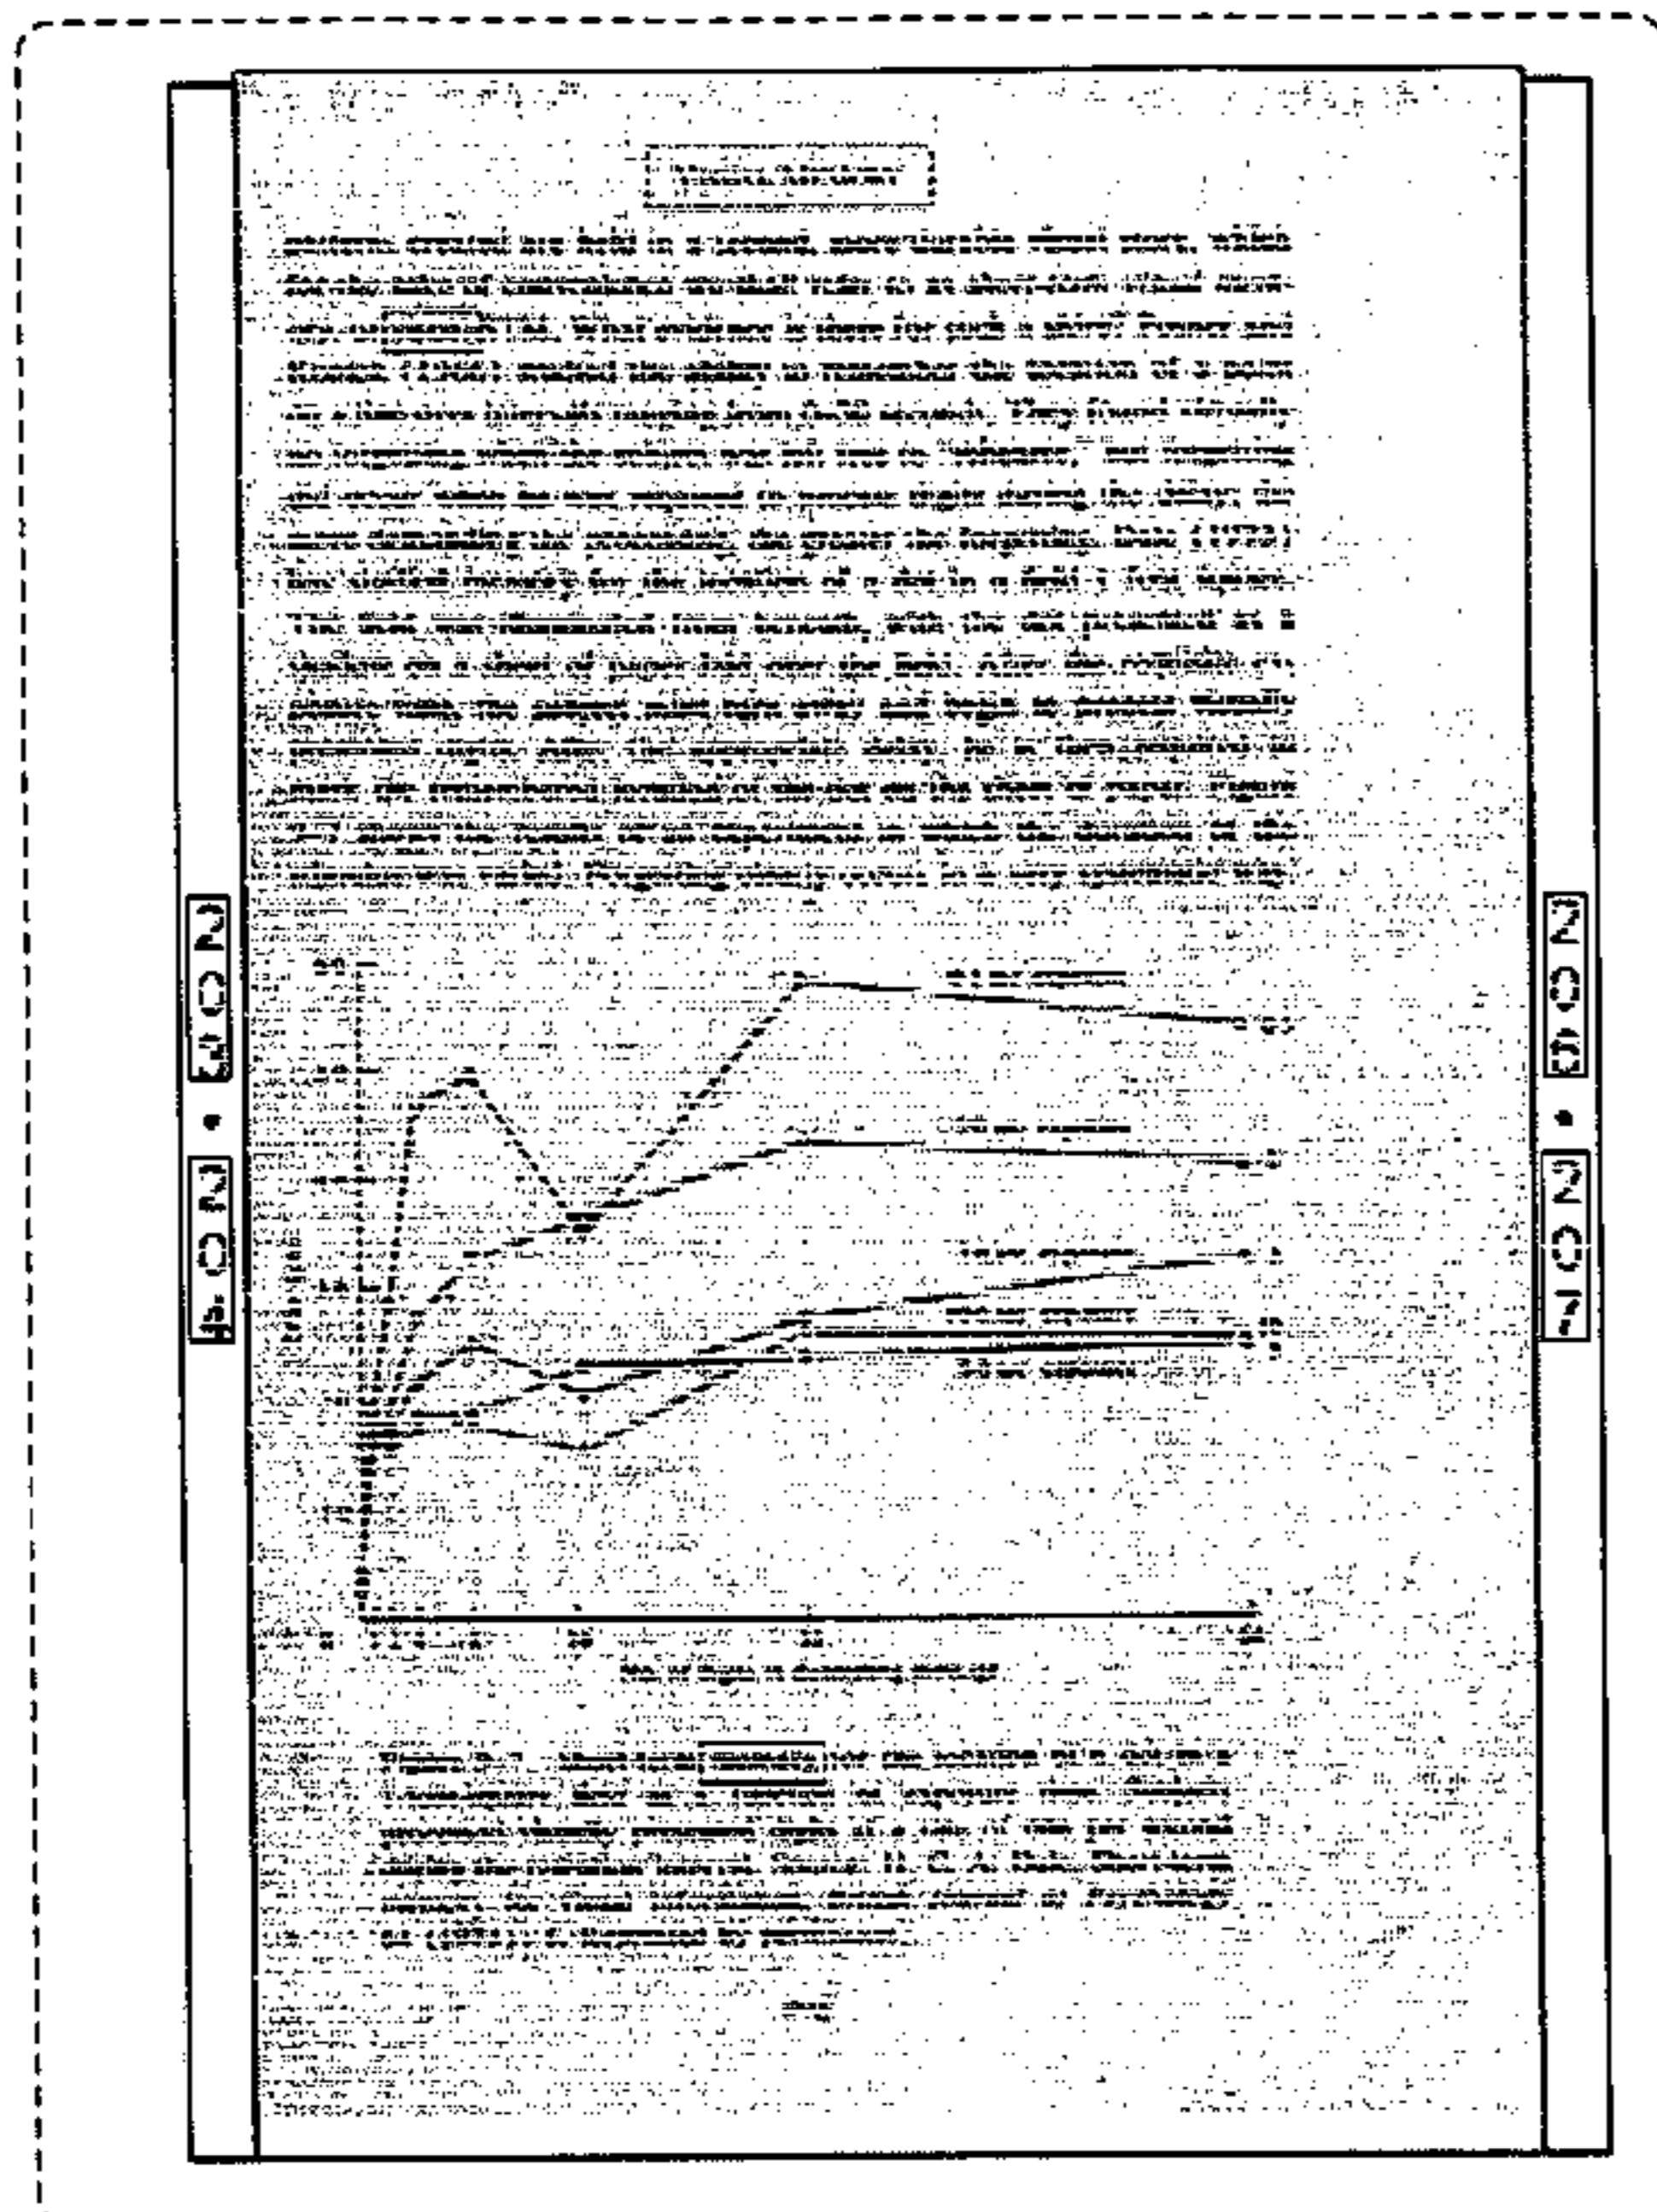

FIG. 2 is a front view of a second embodiment thereof.

The broken line drawing of a display screen of a communications terminal in both views is for illustrative purposes only and forms no part of the claimed design.

The broken line showing of the text, graphics and numbers in both views is for illustrative purposes only and forms no part of the claimed design.
