(57) **CLAIM**

I claim the ornamental design for a lighting fixture, as shown  
and described.

**DESCRIPTION**

The single FIGURE is a perspective front view of a lighting  
fixture, for which a perspective view rotated 120° with  
respect thereto would be identical, and for which a perspec-  
tive view rotated 240° with respect thereto would be iden-  
tical.

The broken lines shown on the drawings are for illustrative  
purposes only and form no part of the claimed design.
