(57) **CLAIM**

We claim the ornamental design for a lighting apparatus, as shown and described.

DESCRIPTION

FIG. **1** is a top perspective view of a lighting apparatus of the present invention;

FIG. **2** is a front view thereof, the rear view being a mirror image thereof;

FIG. **3** is a left side view thereof, the right side view being a mirror image thereof;

FIG. **4** is a top view thereof; and,

FIG. **5** is a bottom view thereof.

An elongated elevation on a substrate is transparent and thus light comes through. The two rectangles are electrodes.
