(57) **CLAIM**

The ornamental design for a regulator for a wide neck baby bottle, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a regulator for a wide neck baby bottle showing our new design;

FIG. 2 is a bottom perspective view of the regulator of the present invention;

FIG. 3 is a side elevational view of the regulator of the present invention;

FIG. 4 is a top plan view of the regulator of the present invention; and

FIG. 5 is a bottom plan view of the regulator of the present invention.

FIG. 6 is a perspective view of the regulator in conjunction with a nipple for facilitating drinking by a baby; and,

FIG. 7 is a perspective view of the regulator of the present invention in combination with a nipple, wide-neck baby bottle and collar.

The broken lines in FIGS. 6 and 7 show environmental structure that forms no part of the claimed design.
