Primary Examiner—Antoine D Davis

(57) **CLAIM**

The ornamental design for a display housing for a remote visual inspection device, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a display housing for a remote visual inspection device. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention;

FIG. 2 is a plan view of the display housing for a remote visual inspection device of FIG. 1. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention;

FIG. 3 is a left side view of the display housing for a remote visual inspection device of FIG. 1, the opposite side being a substantial mirror image of the side shown in FIG. 3. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention;

FIG. 4 is a front view of the display housing for a remote visual inspection device of FIG. 1. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention;

FIG. 5 is a back view of the display housing for a remote visual inspection device of FIG. 1. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention;

FIG. 6 is another perspective view of the display housing for a remote visual inspection device of FIG. 1 with an upper portion rotated to a first exemplary position relative to a lower portion. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention;

FIG. 7 is a perspective view of another display housing for a remote visual inspection device. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention;

FIG. 8 is a plan view of the display housing for a remote visual inspection device of FIG. 7. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention;

FIG. 9 is a left side view of the display housing for a remote visual inspection device of FIG. 7. The opposite side of the remote visual inspection device is a mirror image of the side shown in FIG. 9. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention;

FIG. 10 is a front view of the display housing for a remote visual inspection device of FIG. 7. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention;

FIG. 11 is a back view of the display housing for a remote visual inspection device of FIG. 7. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention; and,

FIG. 12 is a perspective view of the display housing for a remote visual inspection device of FIG. 7 with an upper portion pivoted to a first exemplary position relative to a lower portion. The items shown in phantom lines are for illustrative purposes only and form no part of the subject invention.
