(57) **CLAIM**

The ornamental design for a lighting fixture, as shown and  
described.

**DESCRIPTION**

The single FIGURE is a left perspective view of a lighting  
fixture showing the new design, for which a right perspective  
view of the lighting fixture would be a mirror image thereof.

The broken lines form no part of the claimed design and either  
represent the bounds of the claimed design (e.g., the broken  
lines immediately adjacent shaded areas and the broken lines  
immediately adjacent portions of the design represented in  
solid lines) or are directed to environment (e.g., different  
portions of the shades) and are for illustrative purposes only.

**1 Claim, 1 Drawing Sheet**
