(57) **CLAIM**

The ornamental design for an embossed panel, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation view of an embossed panel showing a first embodiment of our new design, the design being particularly suited for imparting an ornamental appearance to a sheet metal face of an overhead door, the first embodiment including elements that upwardly slope to the right;

FIG. 2 is a front elevation view of an embossed panel showing a second embodiment of our new design, the second embodiment including elements that upwardly slope to the left;

FIG. 3 is a perspective view of the embossed panel of FIG. 1;

FIG. 4 is a perspective view of the embossed panel of FIG. 2;

FIG. 5 is a cross-sectional view of the embossed panels of FIG. 1 and FIG. 2 taken along line 5—5 in FIG. 1 and FIG. 2;

FIG. 6 is a front elevation view of the embossed panel of FIG. 1, the embossed panel being incorporated into a face of a section of a metal sectional overhead door shown in broken lines; and,

FIG. 7 is a front elevation view of the embossed panel of FIG. 2, the embossed panel forming a portion of a face of a section of a metal sectional overhead door shown in broken lines.

The views of the embossed panel not shown form no part of the claimed design.

The broken lines depicting doors, door sections, and other ornamental and functional elements of such doors and door sections represent environmental elements only and form no part of the claimed design.

The height-to-width ratios of the embossed panel may vary from the ratios of the specific embodiments shown in the Figures without departing from the claimed design.

The perspective views of FIG. 3 and FIG. 4 and the cross-sectional view of FIG. 5 are representative of perspective views and cross-sections, respectively, of all embodiments of the claimed design.
