(57) **CLAIM**

The ornamental design for an audio component cabinet, as
shown and described.

DESCRIPTION

The present invention relates generally to audio component
cabinet devices, and, more specifically, to a wakeboard tower
speaker enclosure design.

FIG. 1 is a front perspective view of an audio component
cabinet showing my new design;

FIG. 2 is a rear perspective view thereof;

FIG. 3 is a top view thereof;

FIG. 4 is a front view thereof;

FIG. 5 is a bottom view thereof;

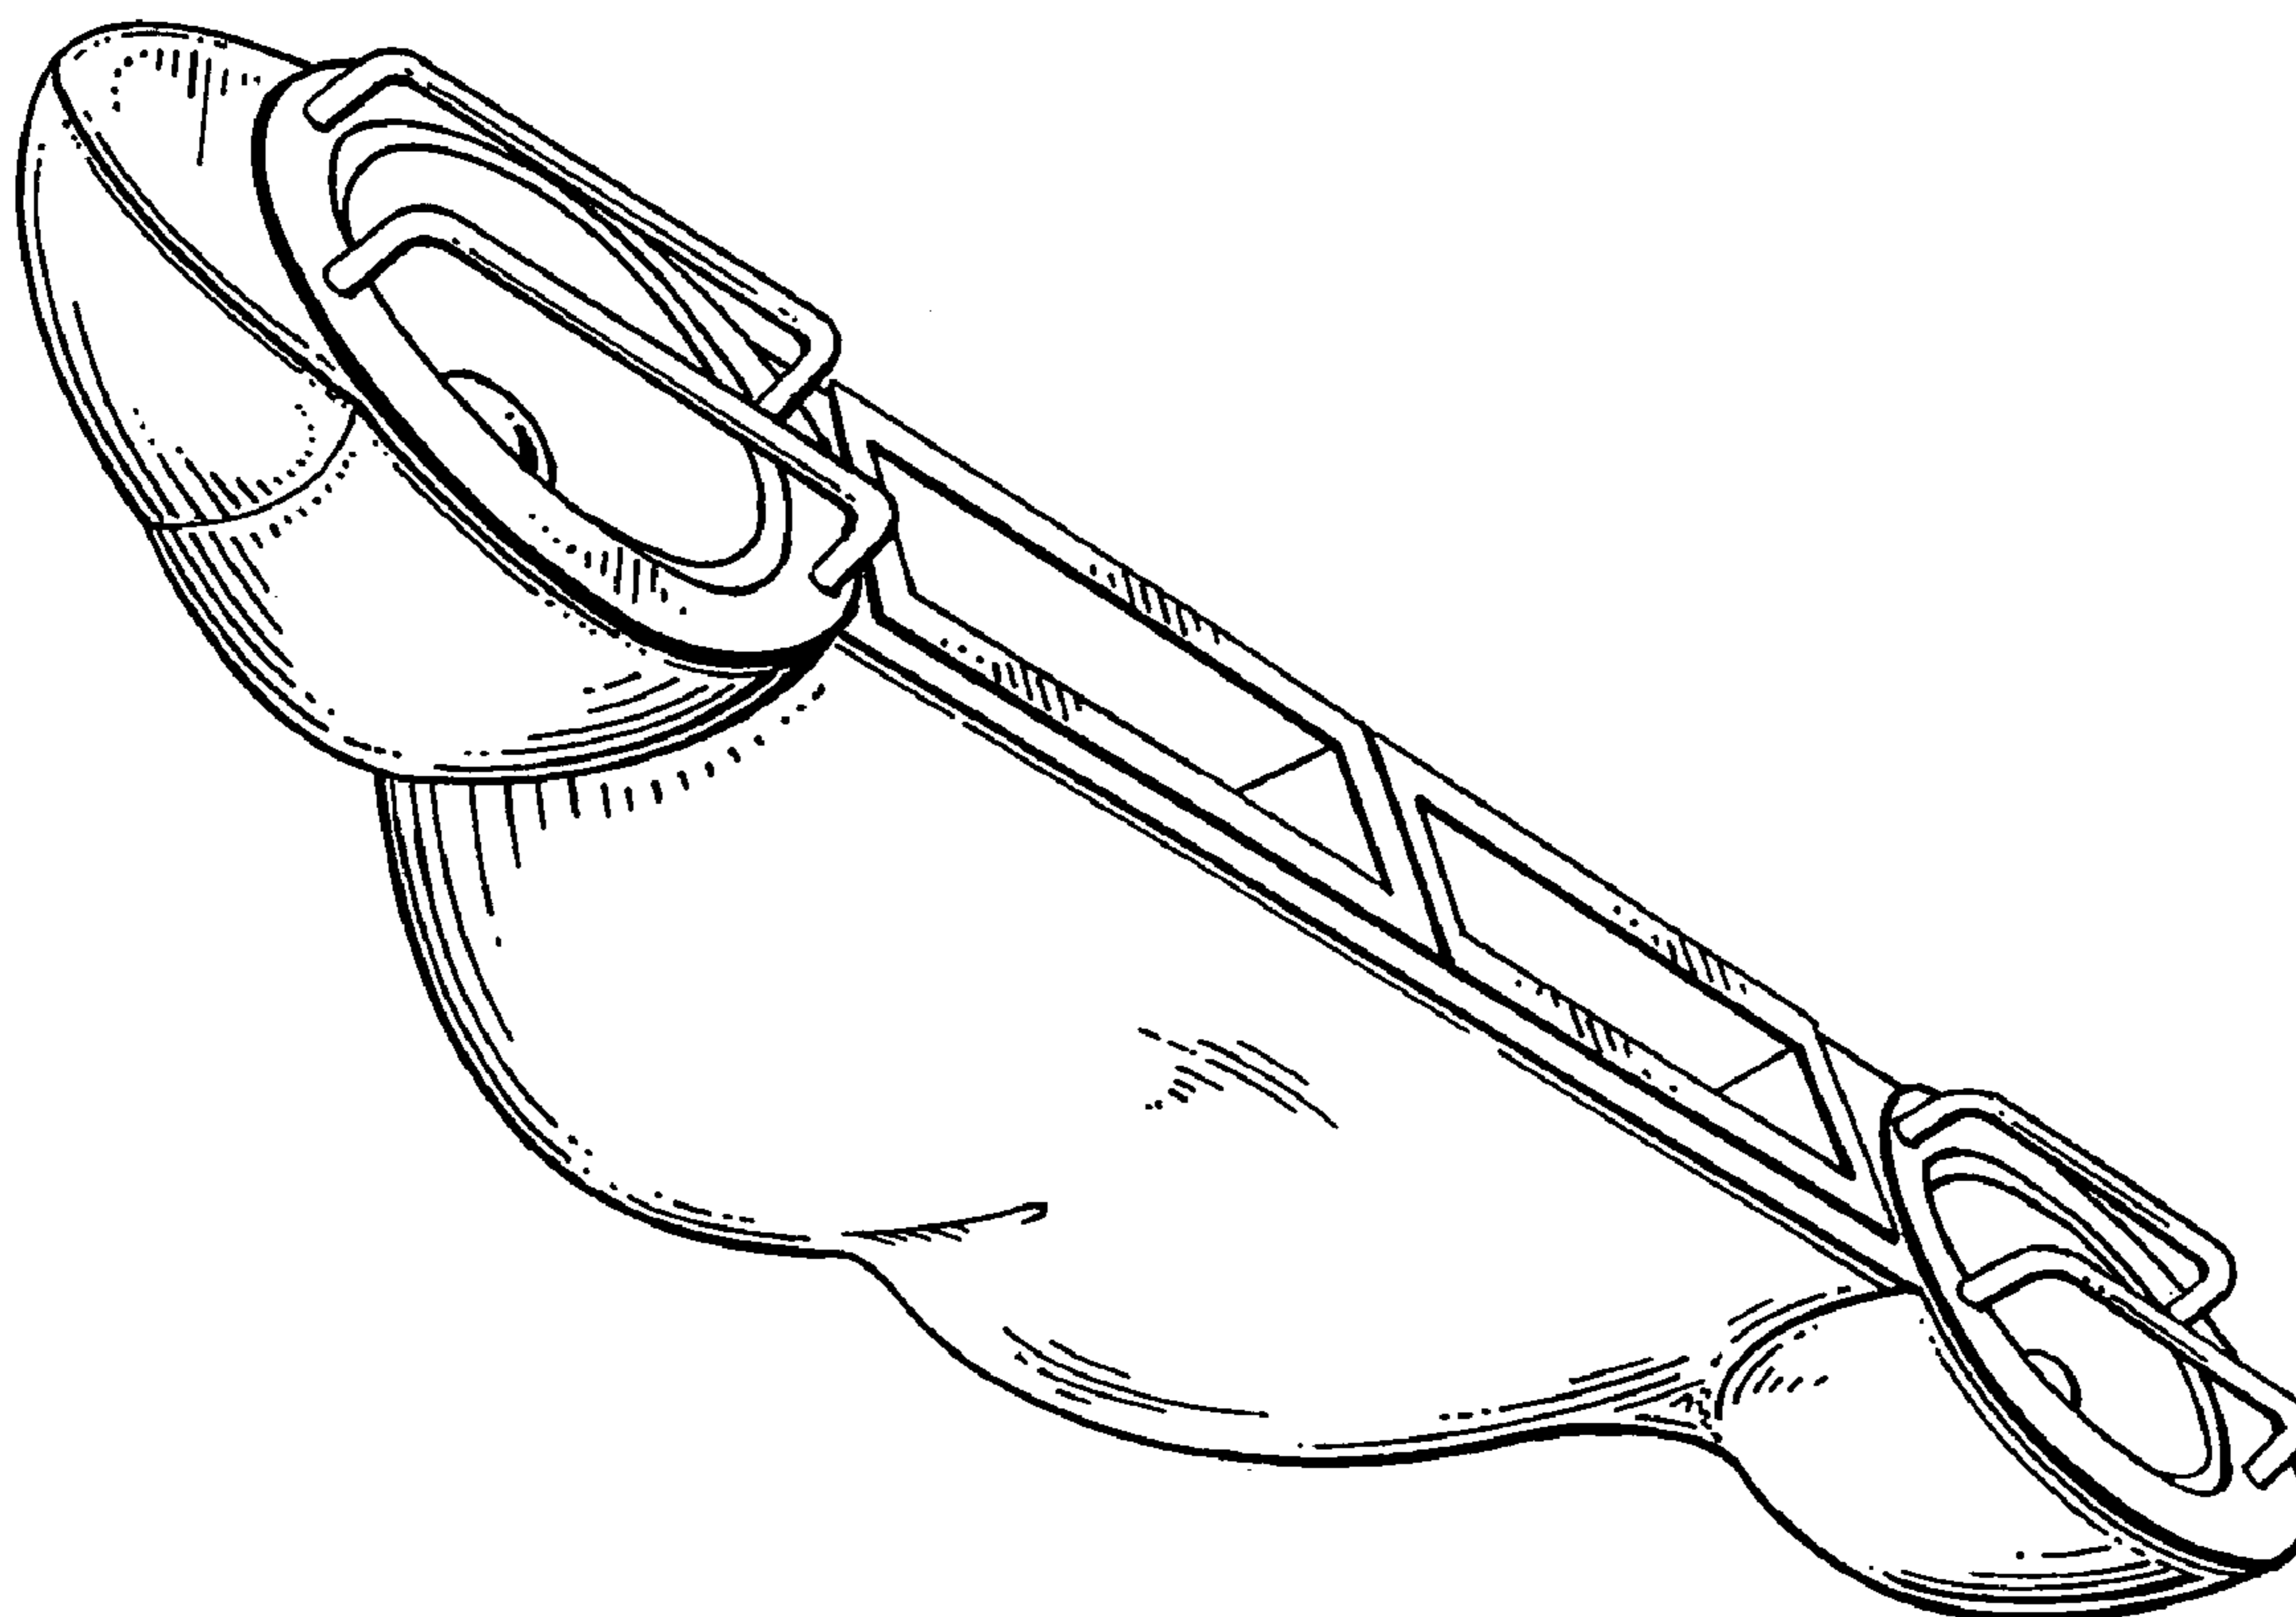

FIG. 6 is a rear view thereof;

FIG. 7 is a left side view thereof; and,

FIG. 8 is a right side view thereof.

The broken line showing an optional overhead tubular mount
configuration on FIG. 2 is for illustrative purposes only and
forms no part of the claimed design.
