(57) **CLAIM**

The ornamental design for a folding, head mounted display unit, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the folding, head mounted display unit according to the present invention.

FIG. 2 is a rear view of the folding, head mounted display unit according to the present invention.

FIG. 3 is a top view of the folding, head mounted display unit according to the present invention.

FIG. 4 depicts a perspective view of the bottom of the folding, head mounted display unit according to the present invention.

FIG. 5 is a side view of the folding, head mounted display unit according to the present invention.

FIG. 6 is a side view of the folding, head mounted display unit from the opposite side as shown in FIG. 5, according to the present invention; and,

FIG. 7 depicts a perspective view of the top of the folding, head mounted display unit according to the present invention.

Portions of the folding head mounted display unit shown in broken lines are for illustrative purposes only and form no part of the claimed design.
