(57) **CLAIM**

The ornamental design for a projector, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a projector with a lens cover being illustrated in an open position;

FIG. 2 is a front view thereof with the lens cover being illustrated in an open position;

FIG. 3 is a rear view thereof;

FIG. 4 is a left side view thereof;

FIG. 5 is a right side view thereof;

FIG. 6 is a top view thereof with the lens cover being illustrated in an open position;

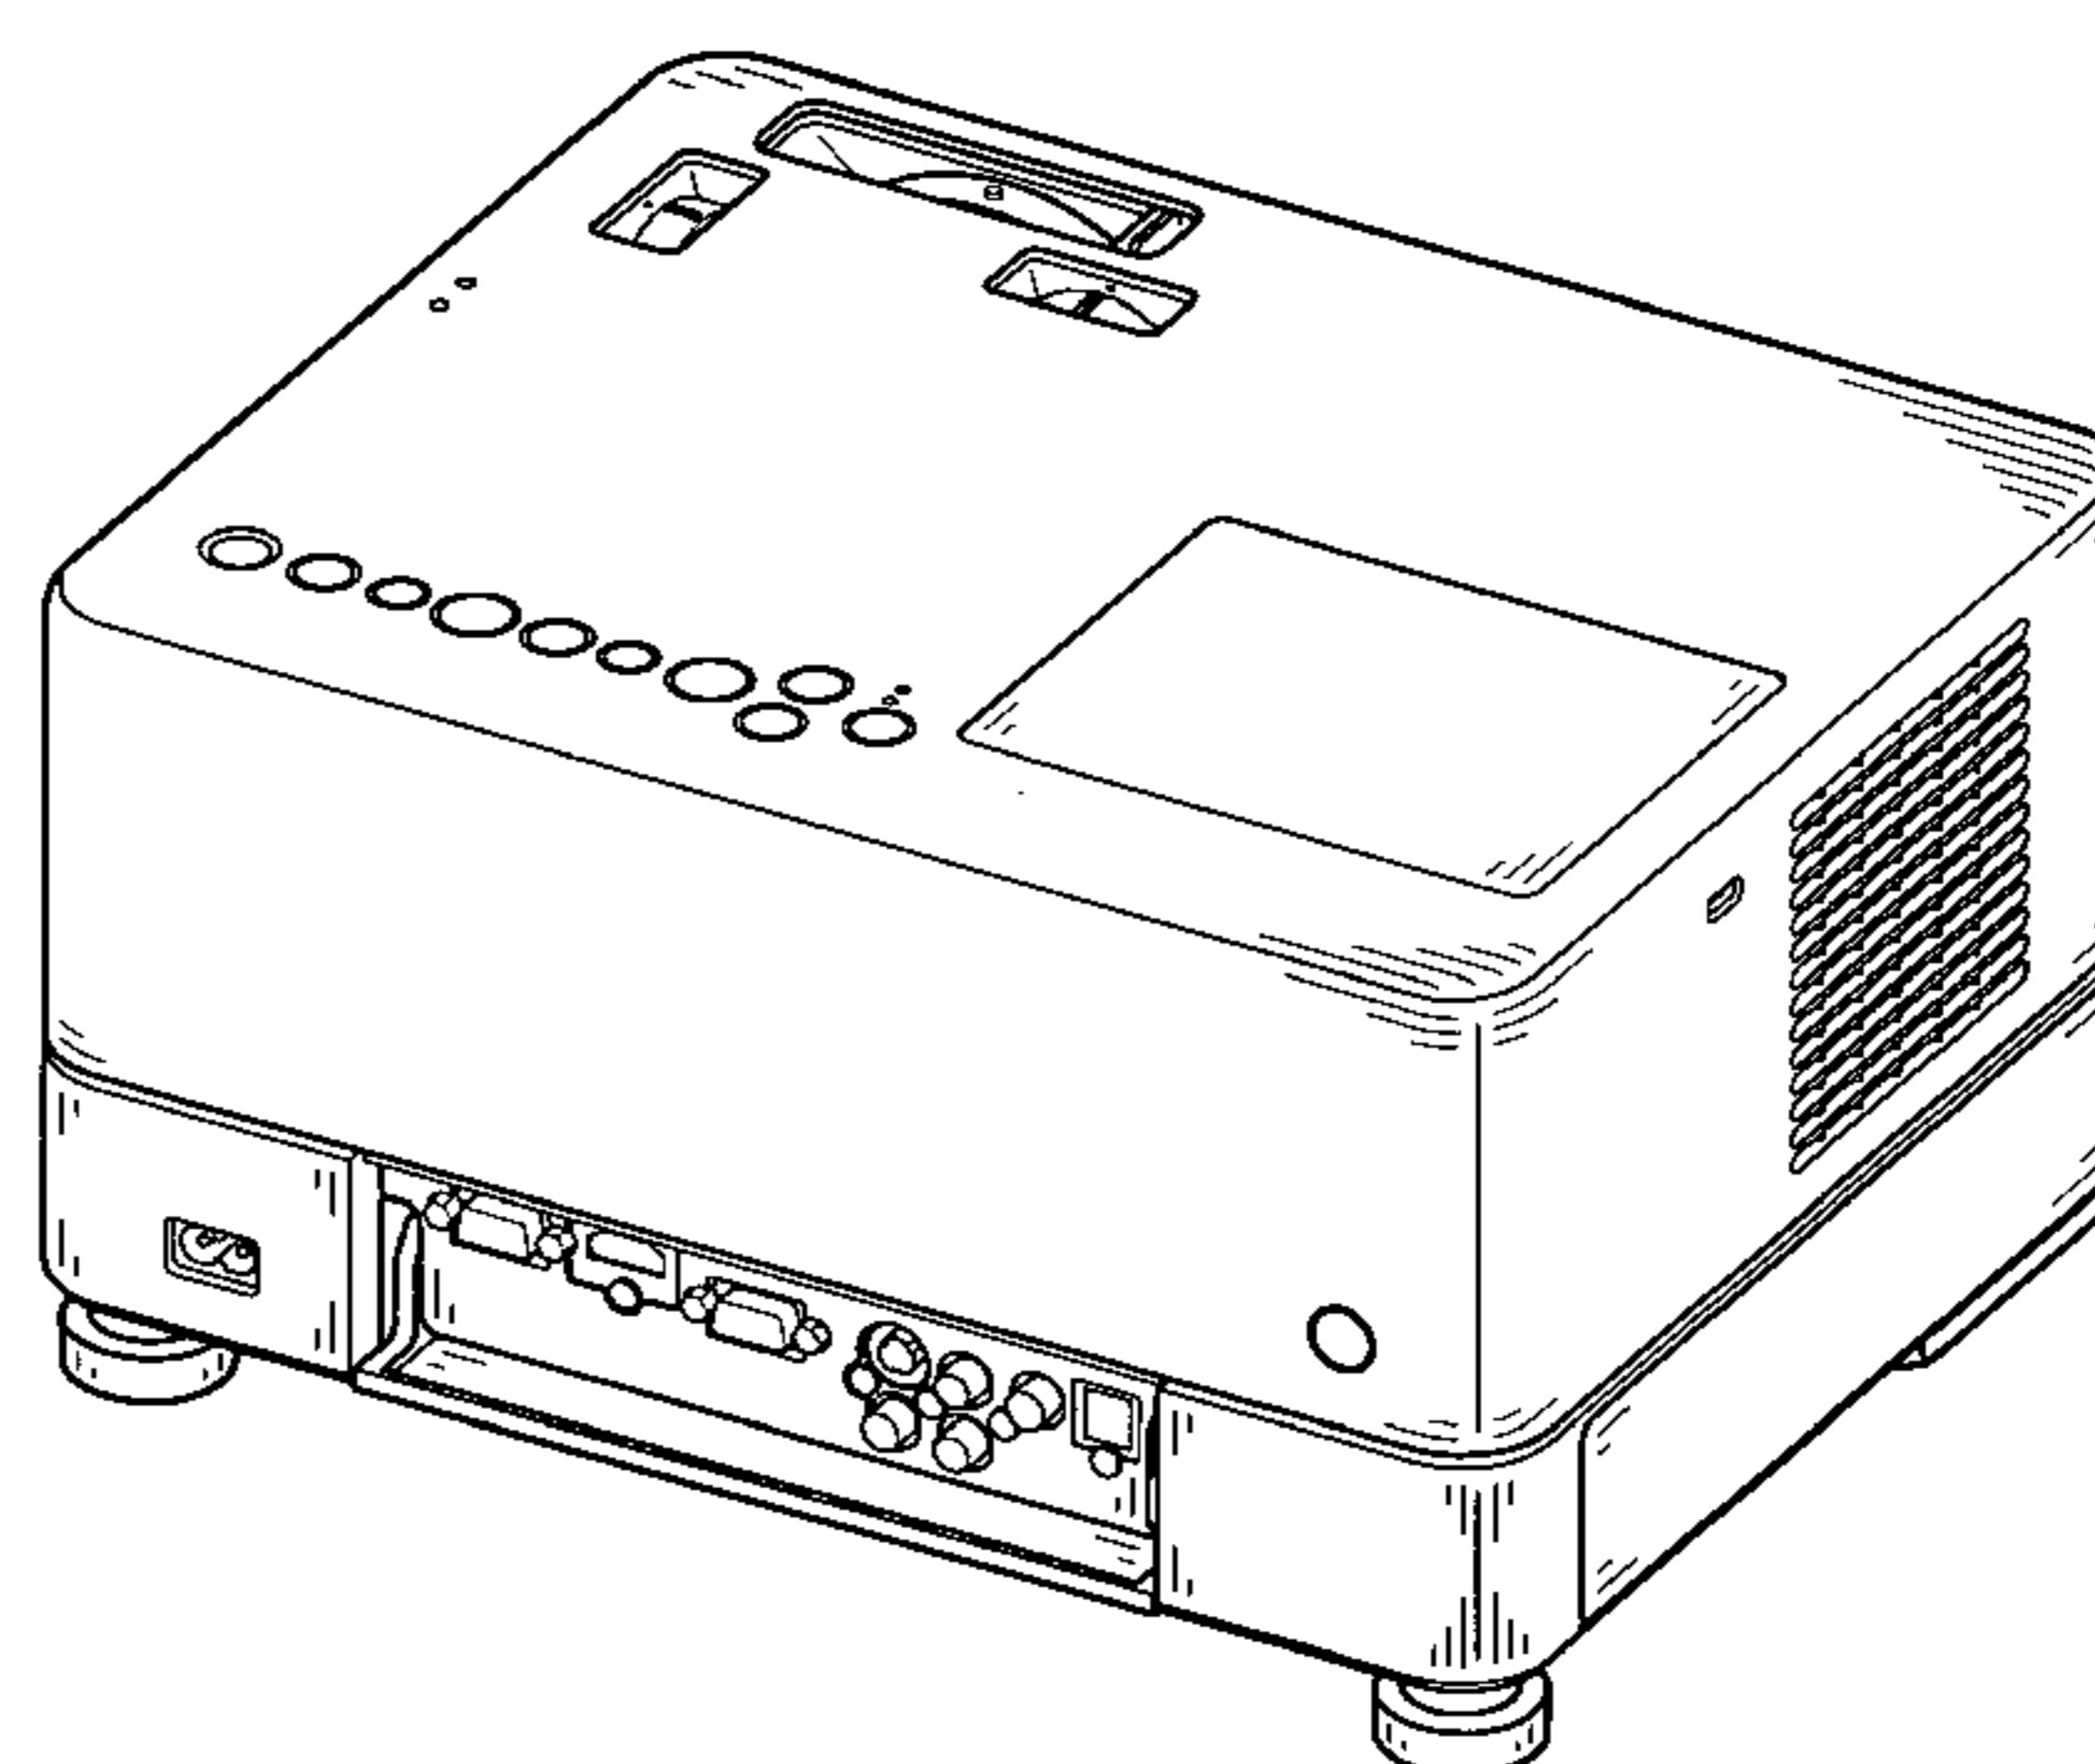

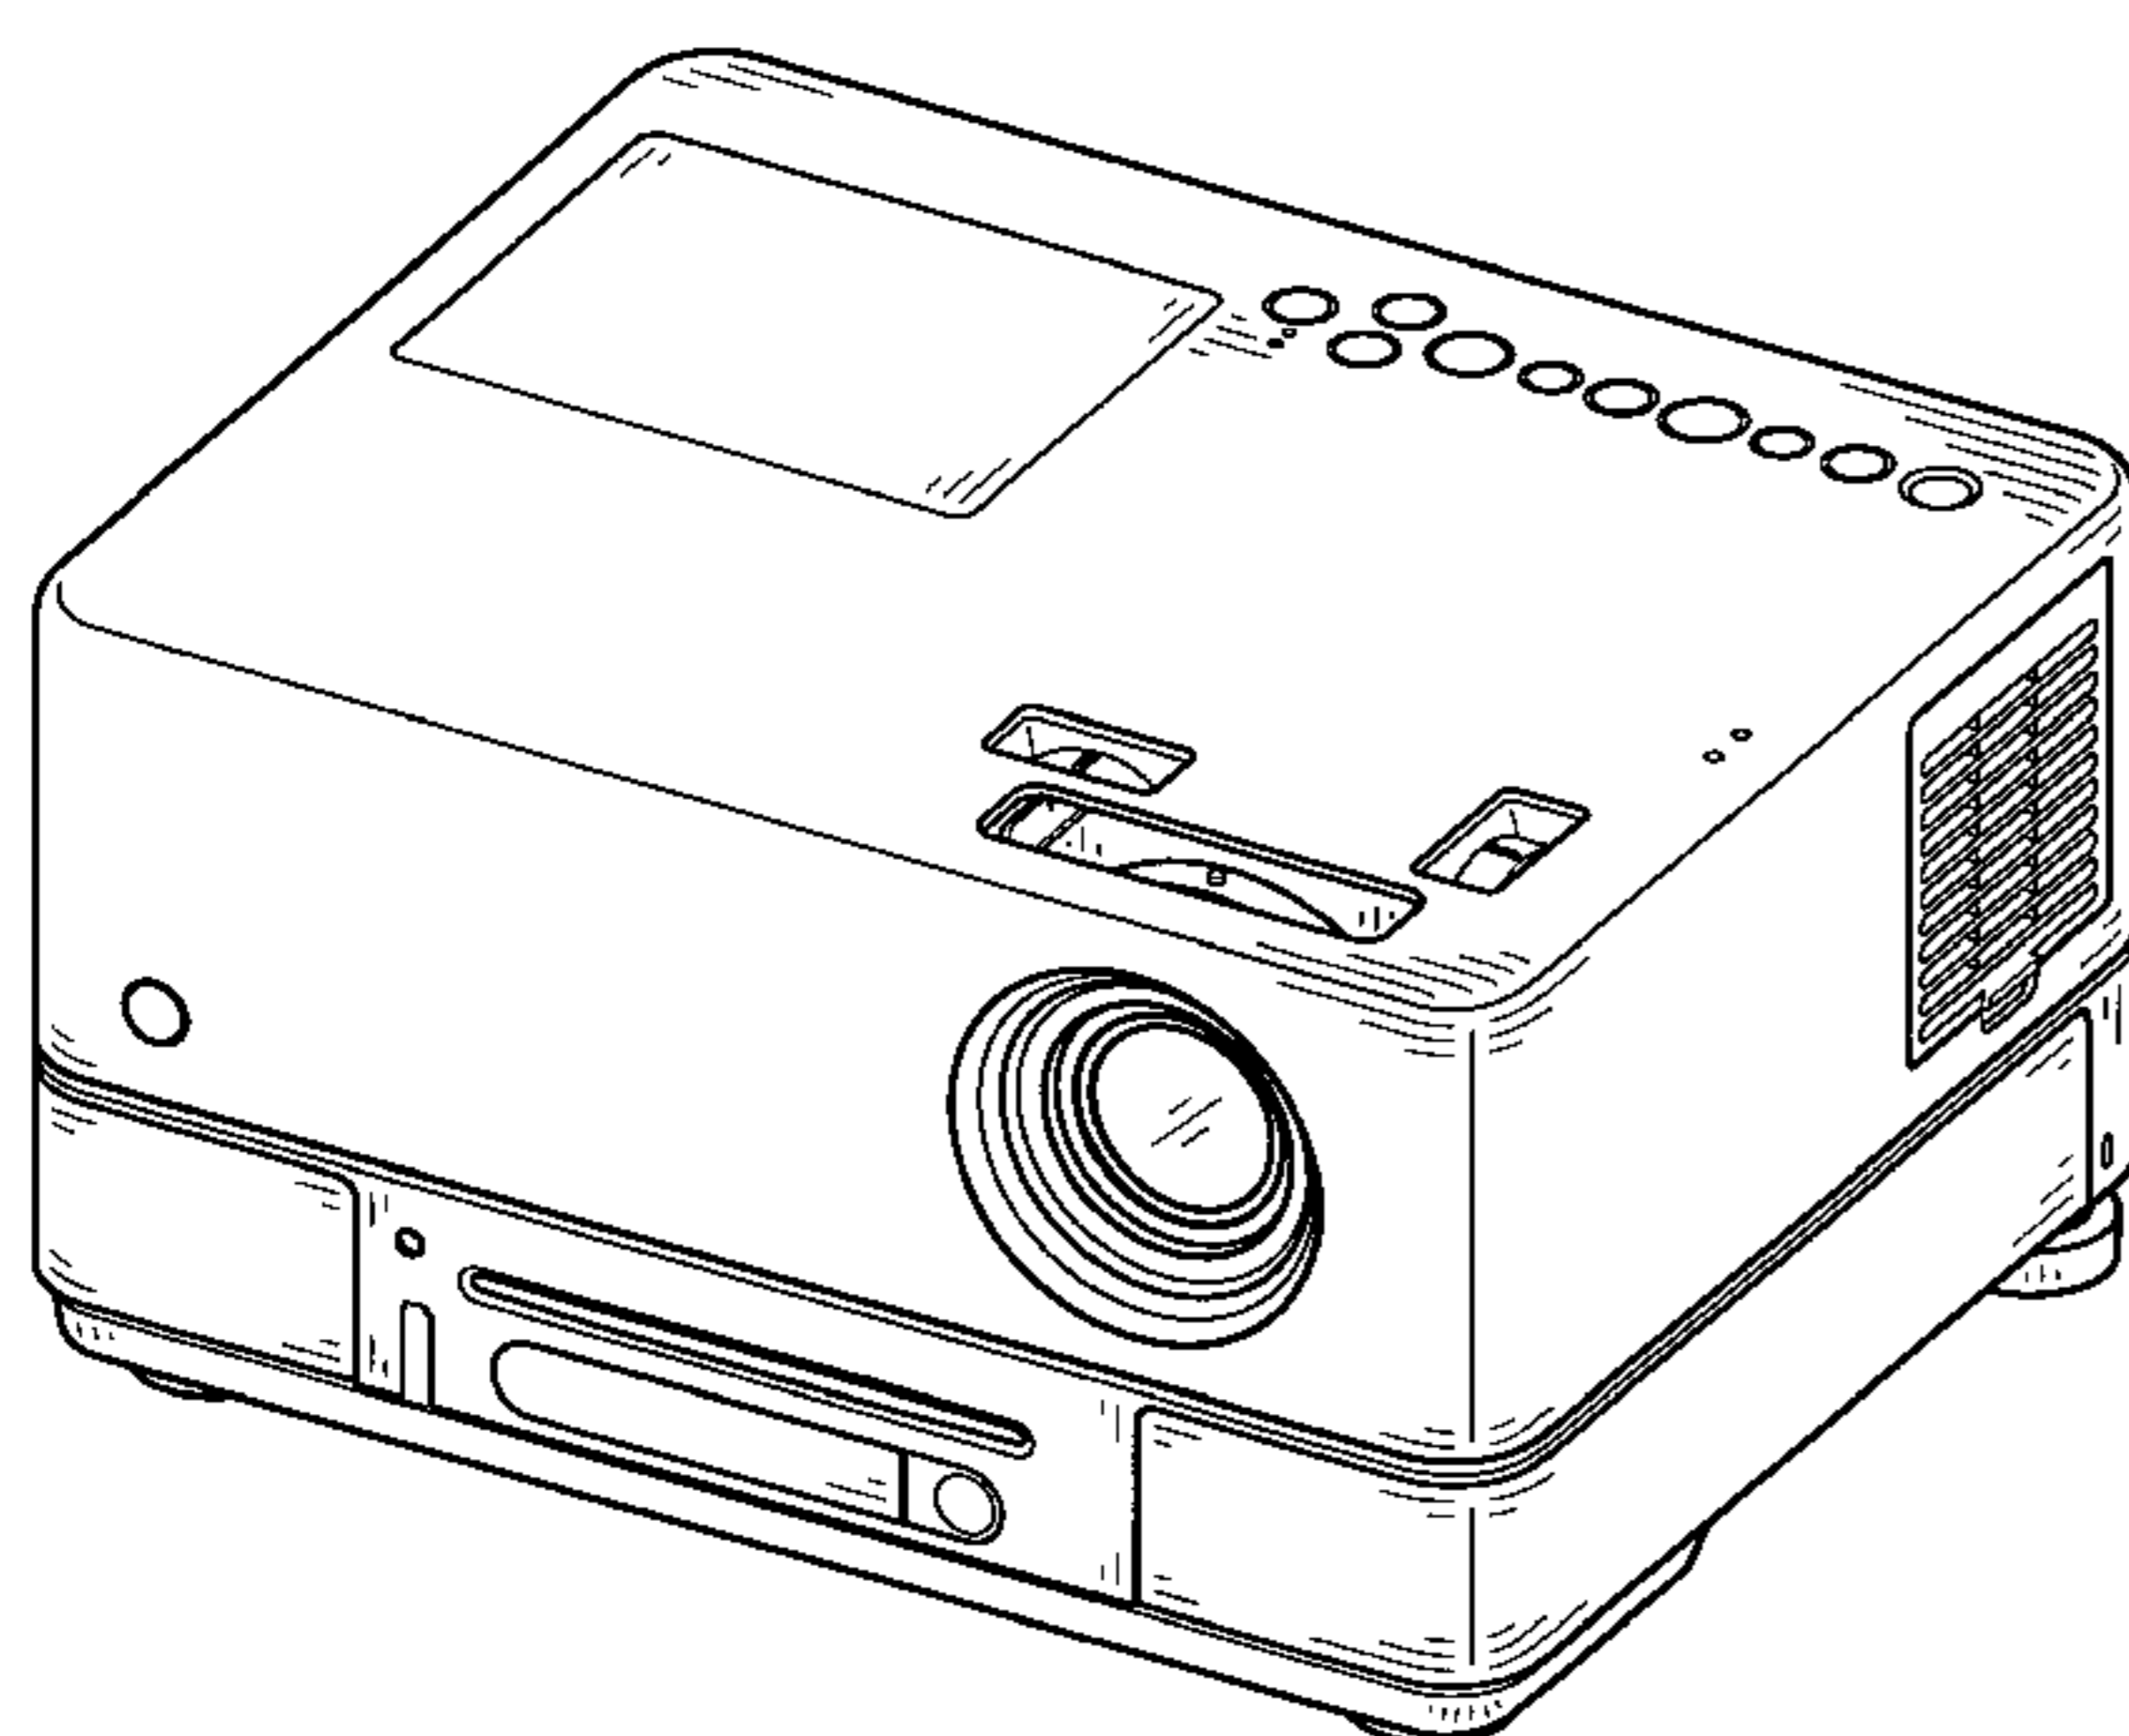

FIG. 7 is a bottom view thereof;

FIG. 8 is a front perspective view of the projector with the lens cover being illustrated in a closed position;

FIG. 9 is a rear perspective view of the projector being illustrated with the back compartment cover removed; and,

FIG. 10 is a perspective view of the projector with an upper portion of the projector being rotated 180 degrees so that the front view of a lower portion of the projector is shown together with the rear view of the upper portion of the projector.
