(57) **CLAIM**

The ornamental design for a glowing artificial candle flame, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, left side perspective view of a glowing artificial candle flame showing my new design;

FIG. 2 is a front elevation view thereof;

FIG. 3 is a left side elevation view thereof, the right side elevation view being a mirror image; and,

FIG. 4 is a top plan view thereof.

The claimed design is limited to an artificial candle flame shown in FIGS. 1-4 that is translucent and glows. The glow can be caused, for example, by a lamp located within the flame. The glow can be continuous or flickering. The broken lines in FIGS. 1-4 are for illustrative purposes only and form no part of the claimed design.
