(57) **CLAIM**

The ornamental design for a computer module having a handle, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the design for the computer module having a handle, illustrating a recessed portion of the handle, wherein the computer module is disposed removably in a portion of a computer or server, such as a rack mount server;

FIG. 2 is a front view of the design for the computer module having a handle as illustrated in FIG. 1, illustrating an upper interior slot or open portion in the recessed portion of the handle, wherein the computer module is removed from the computer;

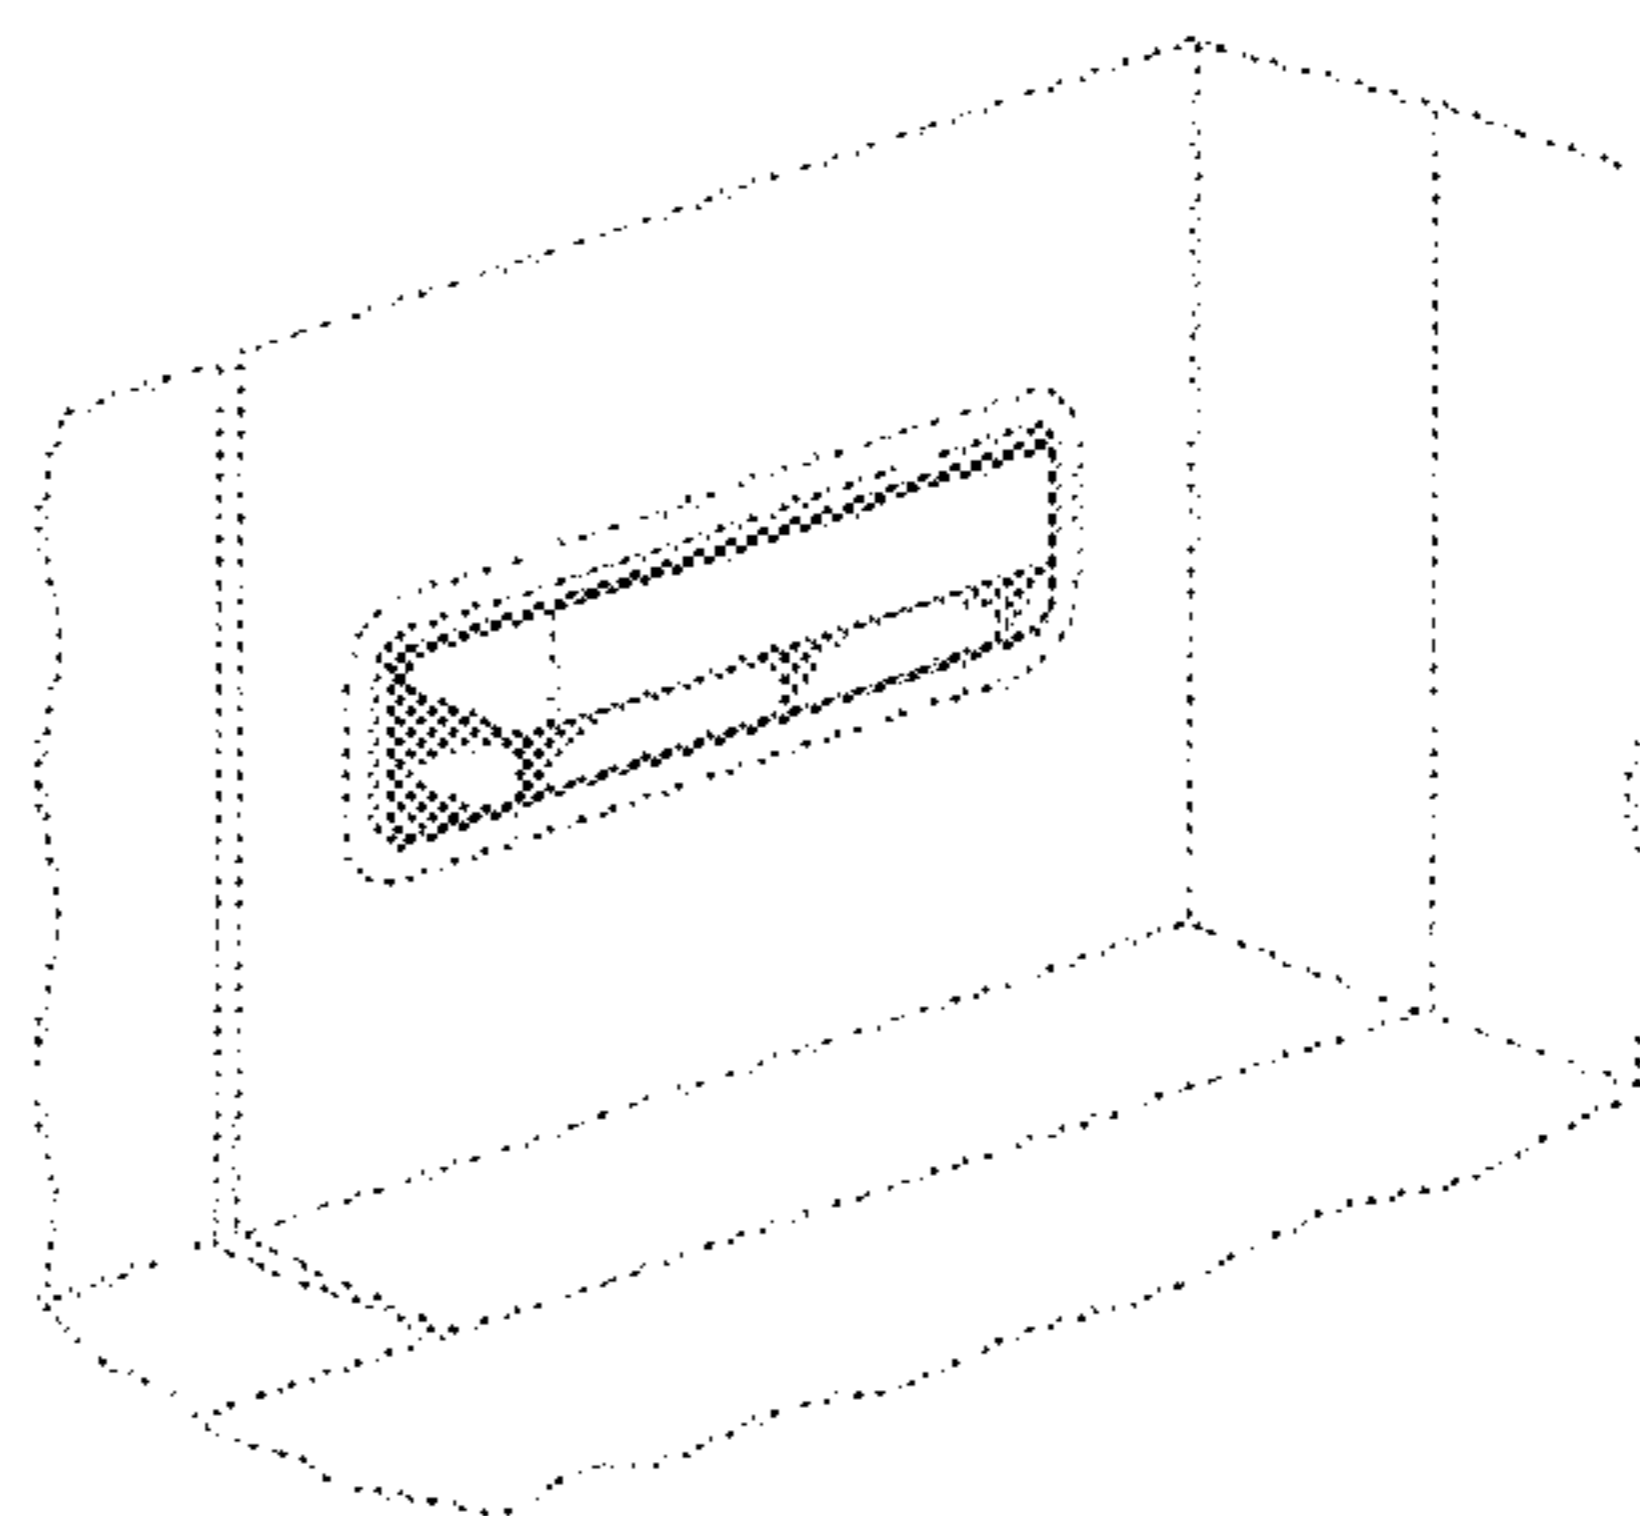

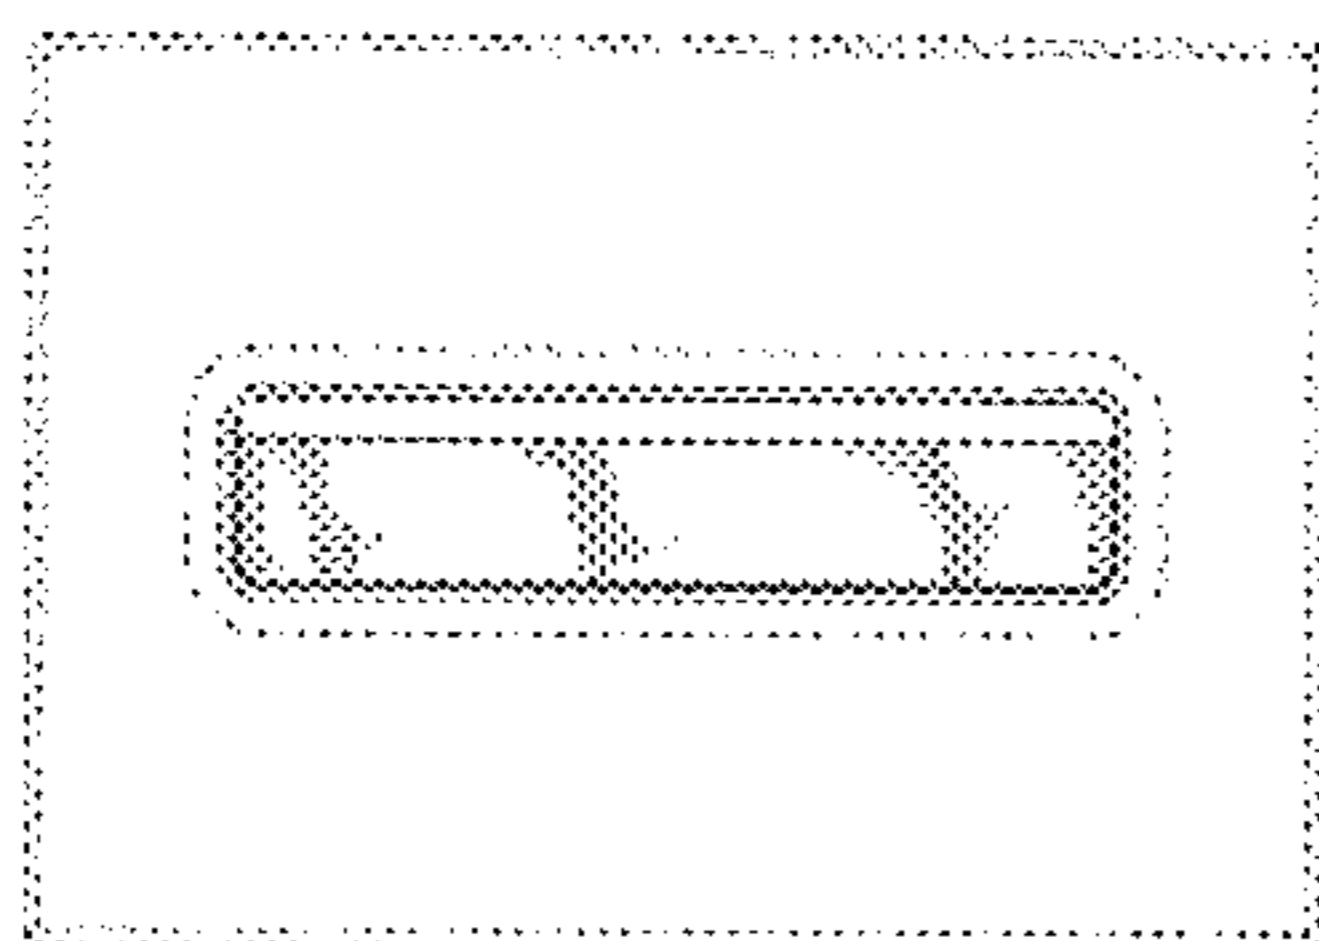

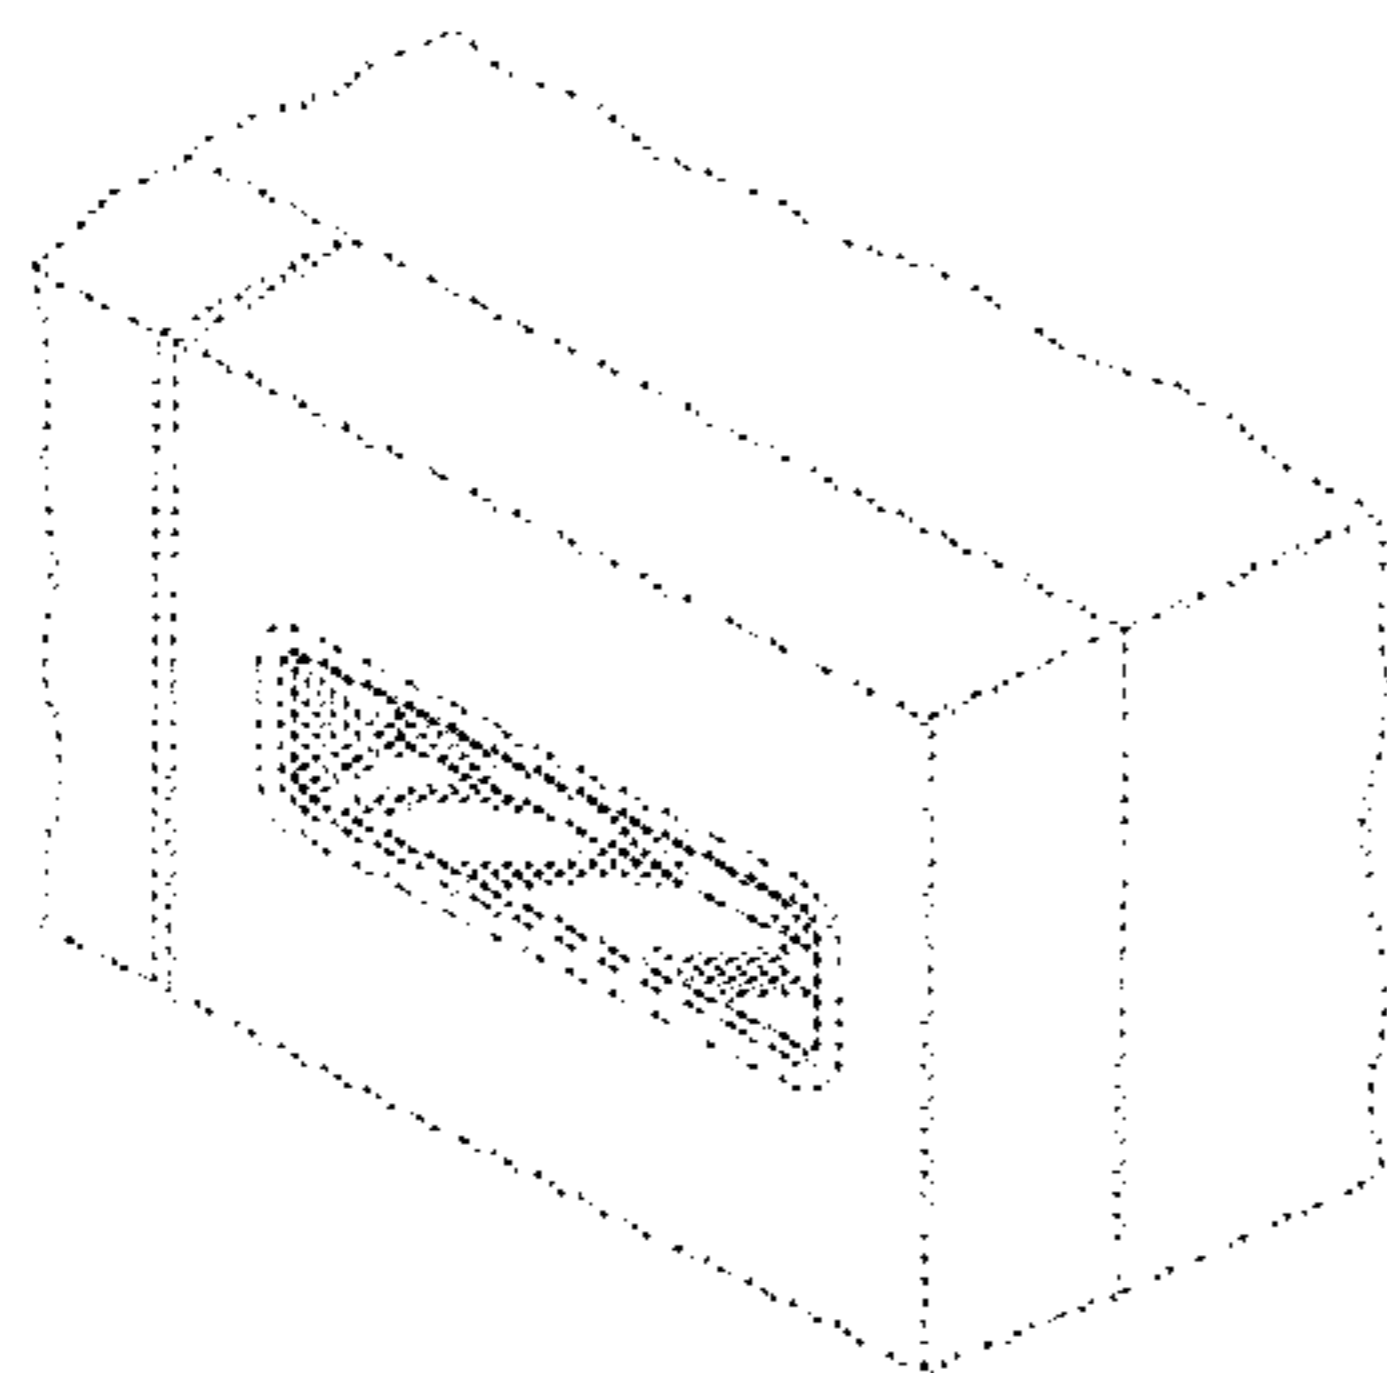

FIG. 3 is another front perspective view of the design for the computer module having a handle as illustrated in FIGS. 1 and 2, further illustrating the upper interior slot or open portion in the recessed portion of the handle;

FIG. 4 is a front view of the design for the computer module having a handle as illustrated in FIGS. 1–3, illustrating a plurality of computer modules having the handle in context of the computer or server; and,

FIG. 5 is a front perspective view of the design for the computer module having a handle as illustrated in FIGS. 1–3, illustrating the plurality of computer modules having the handle in context of the computer or server as illustrated in FIG. 4.

In these drawings, the solid lines illustrate the claimed ornamental design, whereas the broken lines illustrate environmental features that form no part of the claimed ornamental design.
