(57) **CLAIM**

The ornamental design for a moving image for the display screen of a wireless communication device, as illustrated and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a first image in the sequence for an animated image for a moving image for the display screen of a wireless communication device;

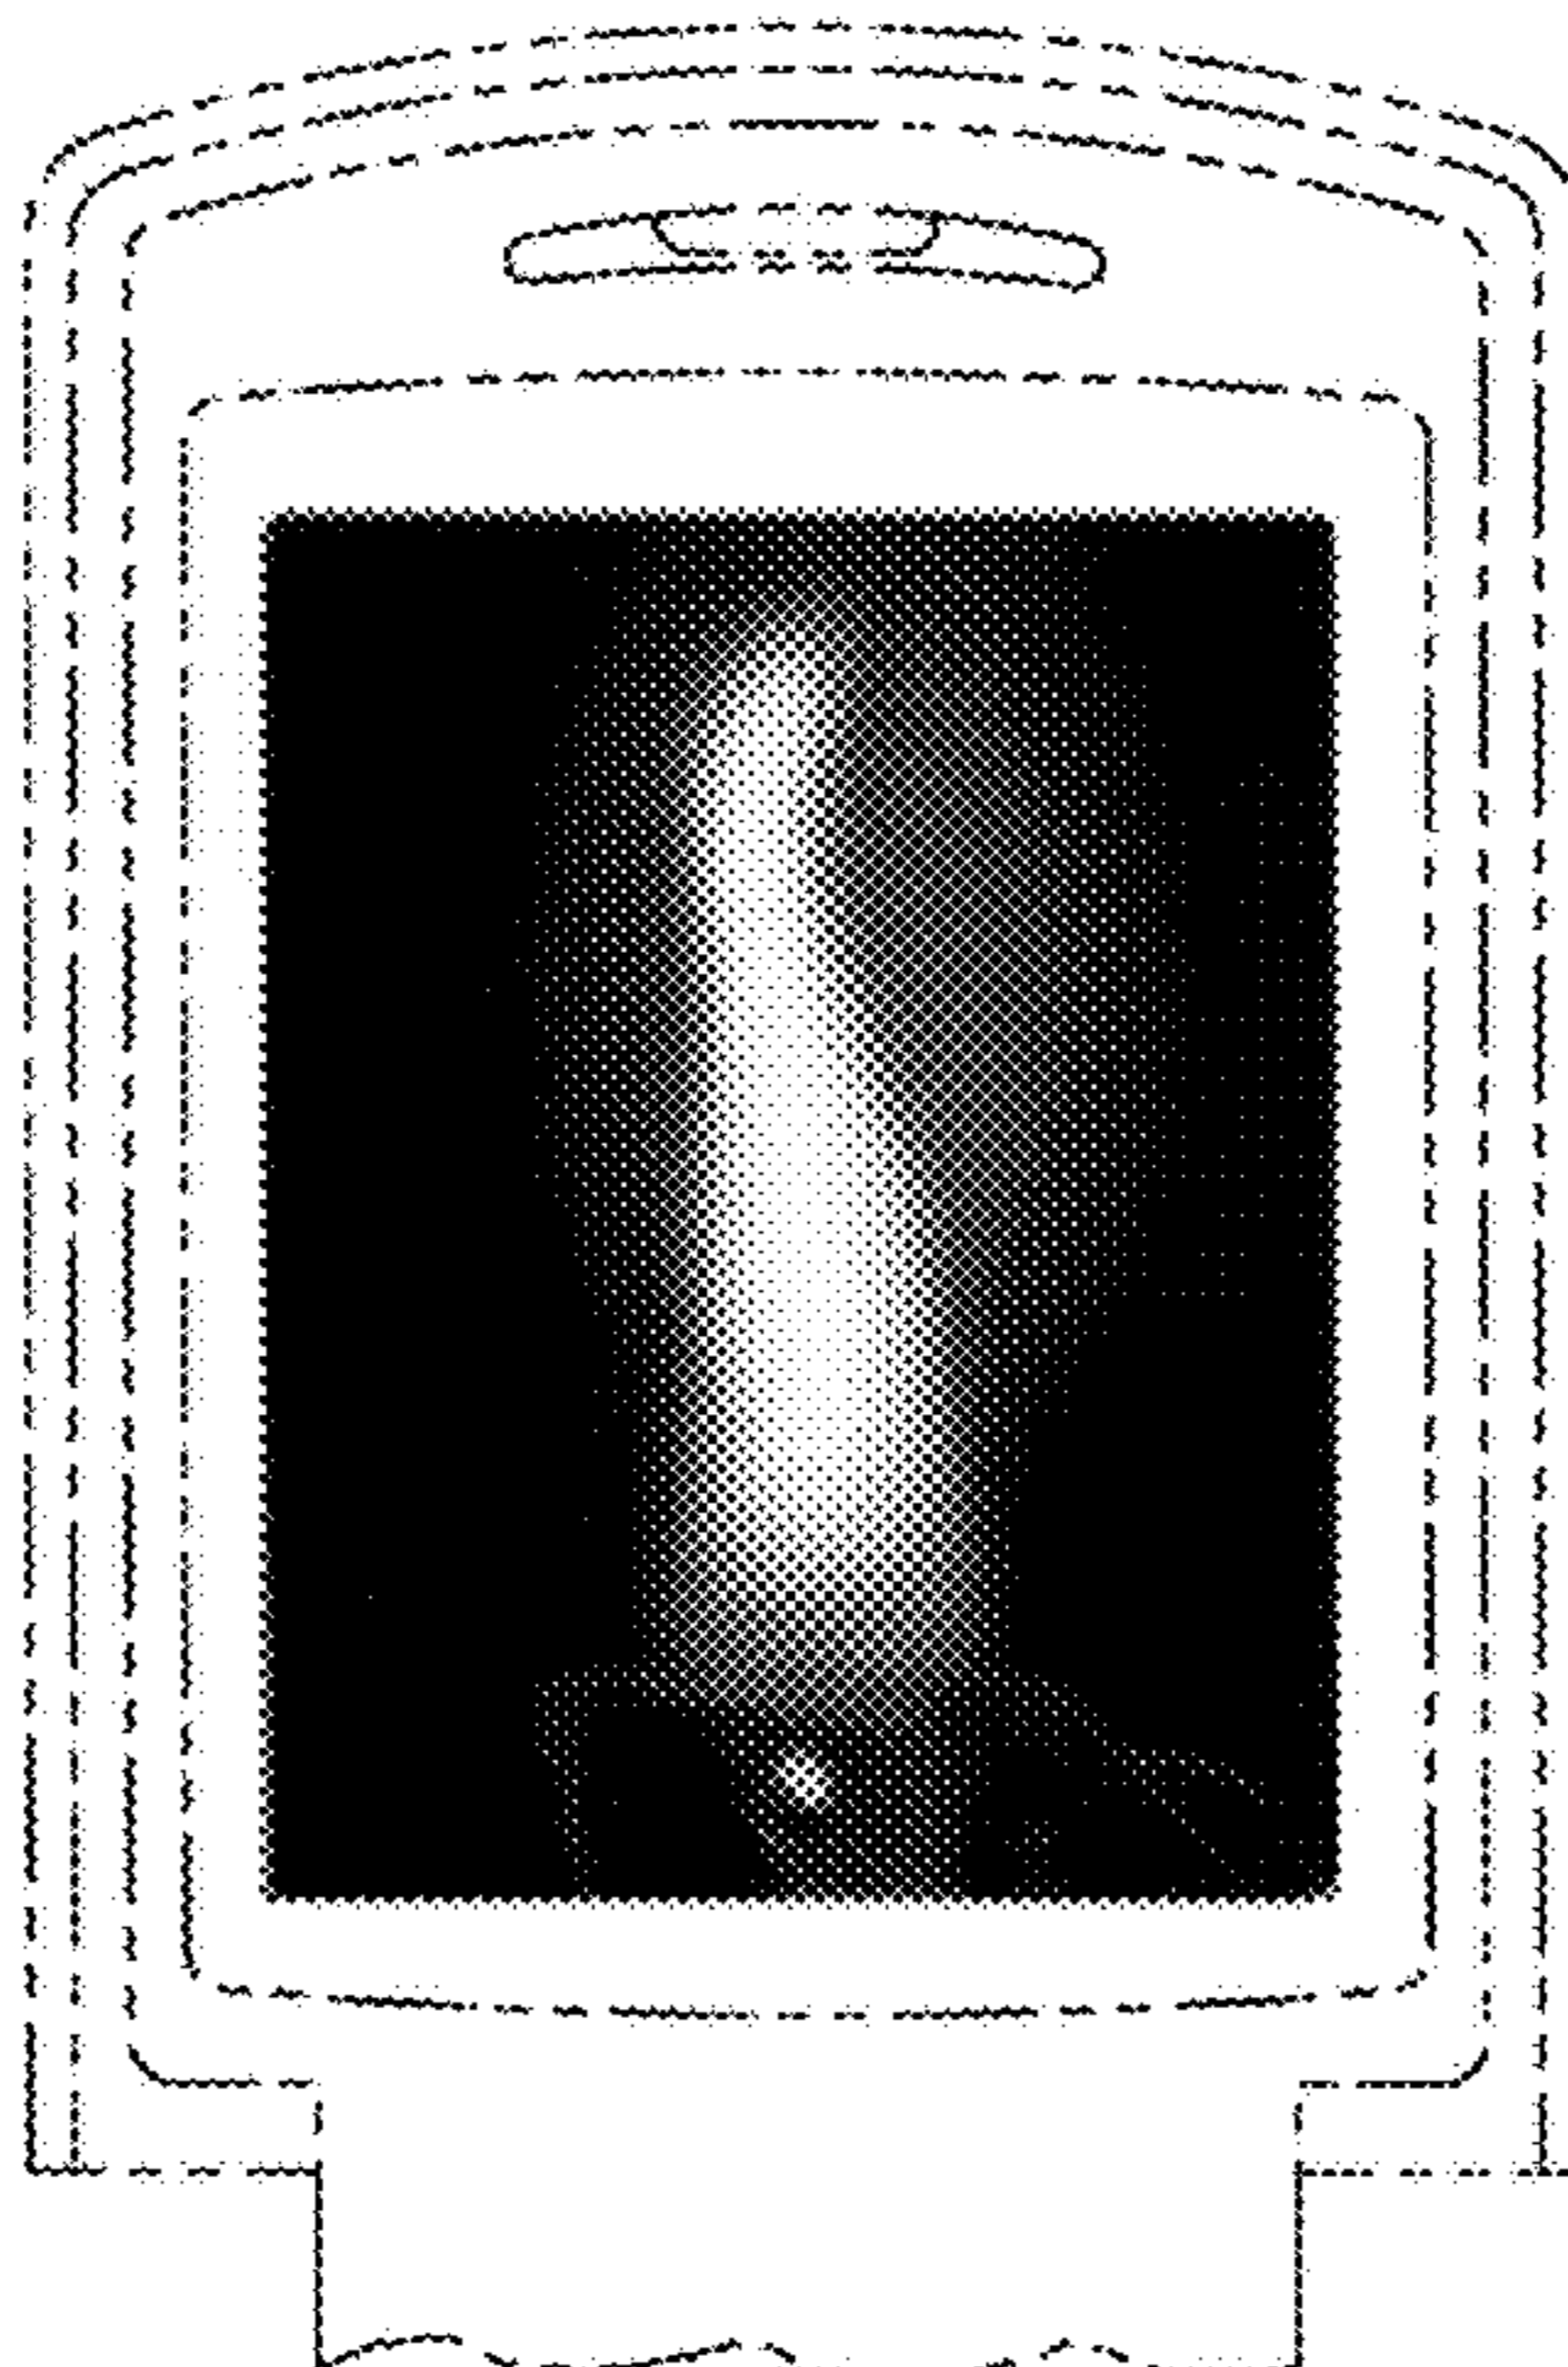

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof; and,

FIG. 4 is a fourth image thereof.

The broken line showing of visible environmental structures is for illustrative purposes only and forms no part of the claimed design. The appearance of the moving image sequentially transitions between the images shown in FIG. 1-4. No ornamental aspects are associated with the process or period in which one image transitions to another.
