DESCRIPTION

See application file for complete search history.

FIG. 1 is a front elevational view showing my new design for
the basketball hand-held noisemaker with its hemispheres
joined, the rear elevational view being a mirror image thereof;
FIG. 2 is a top plan view thereof, the bottom view being a
mirror image thereof;

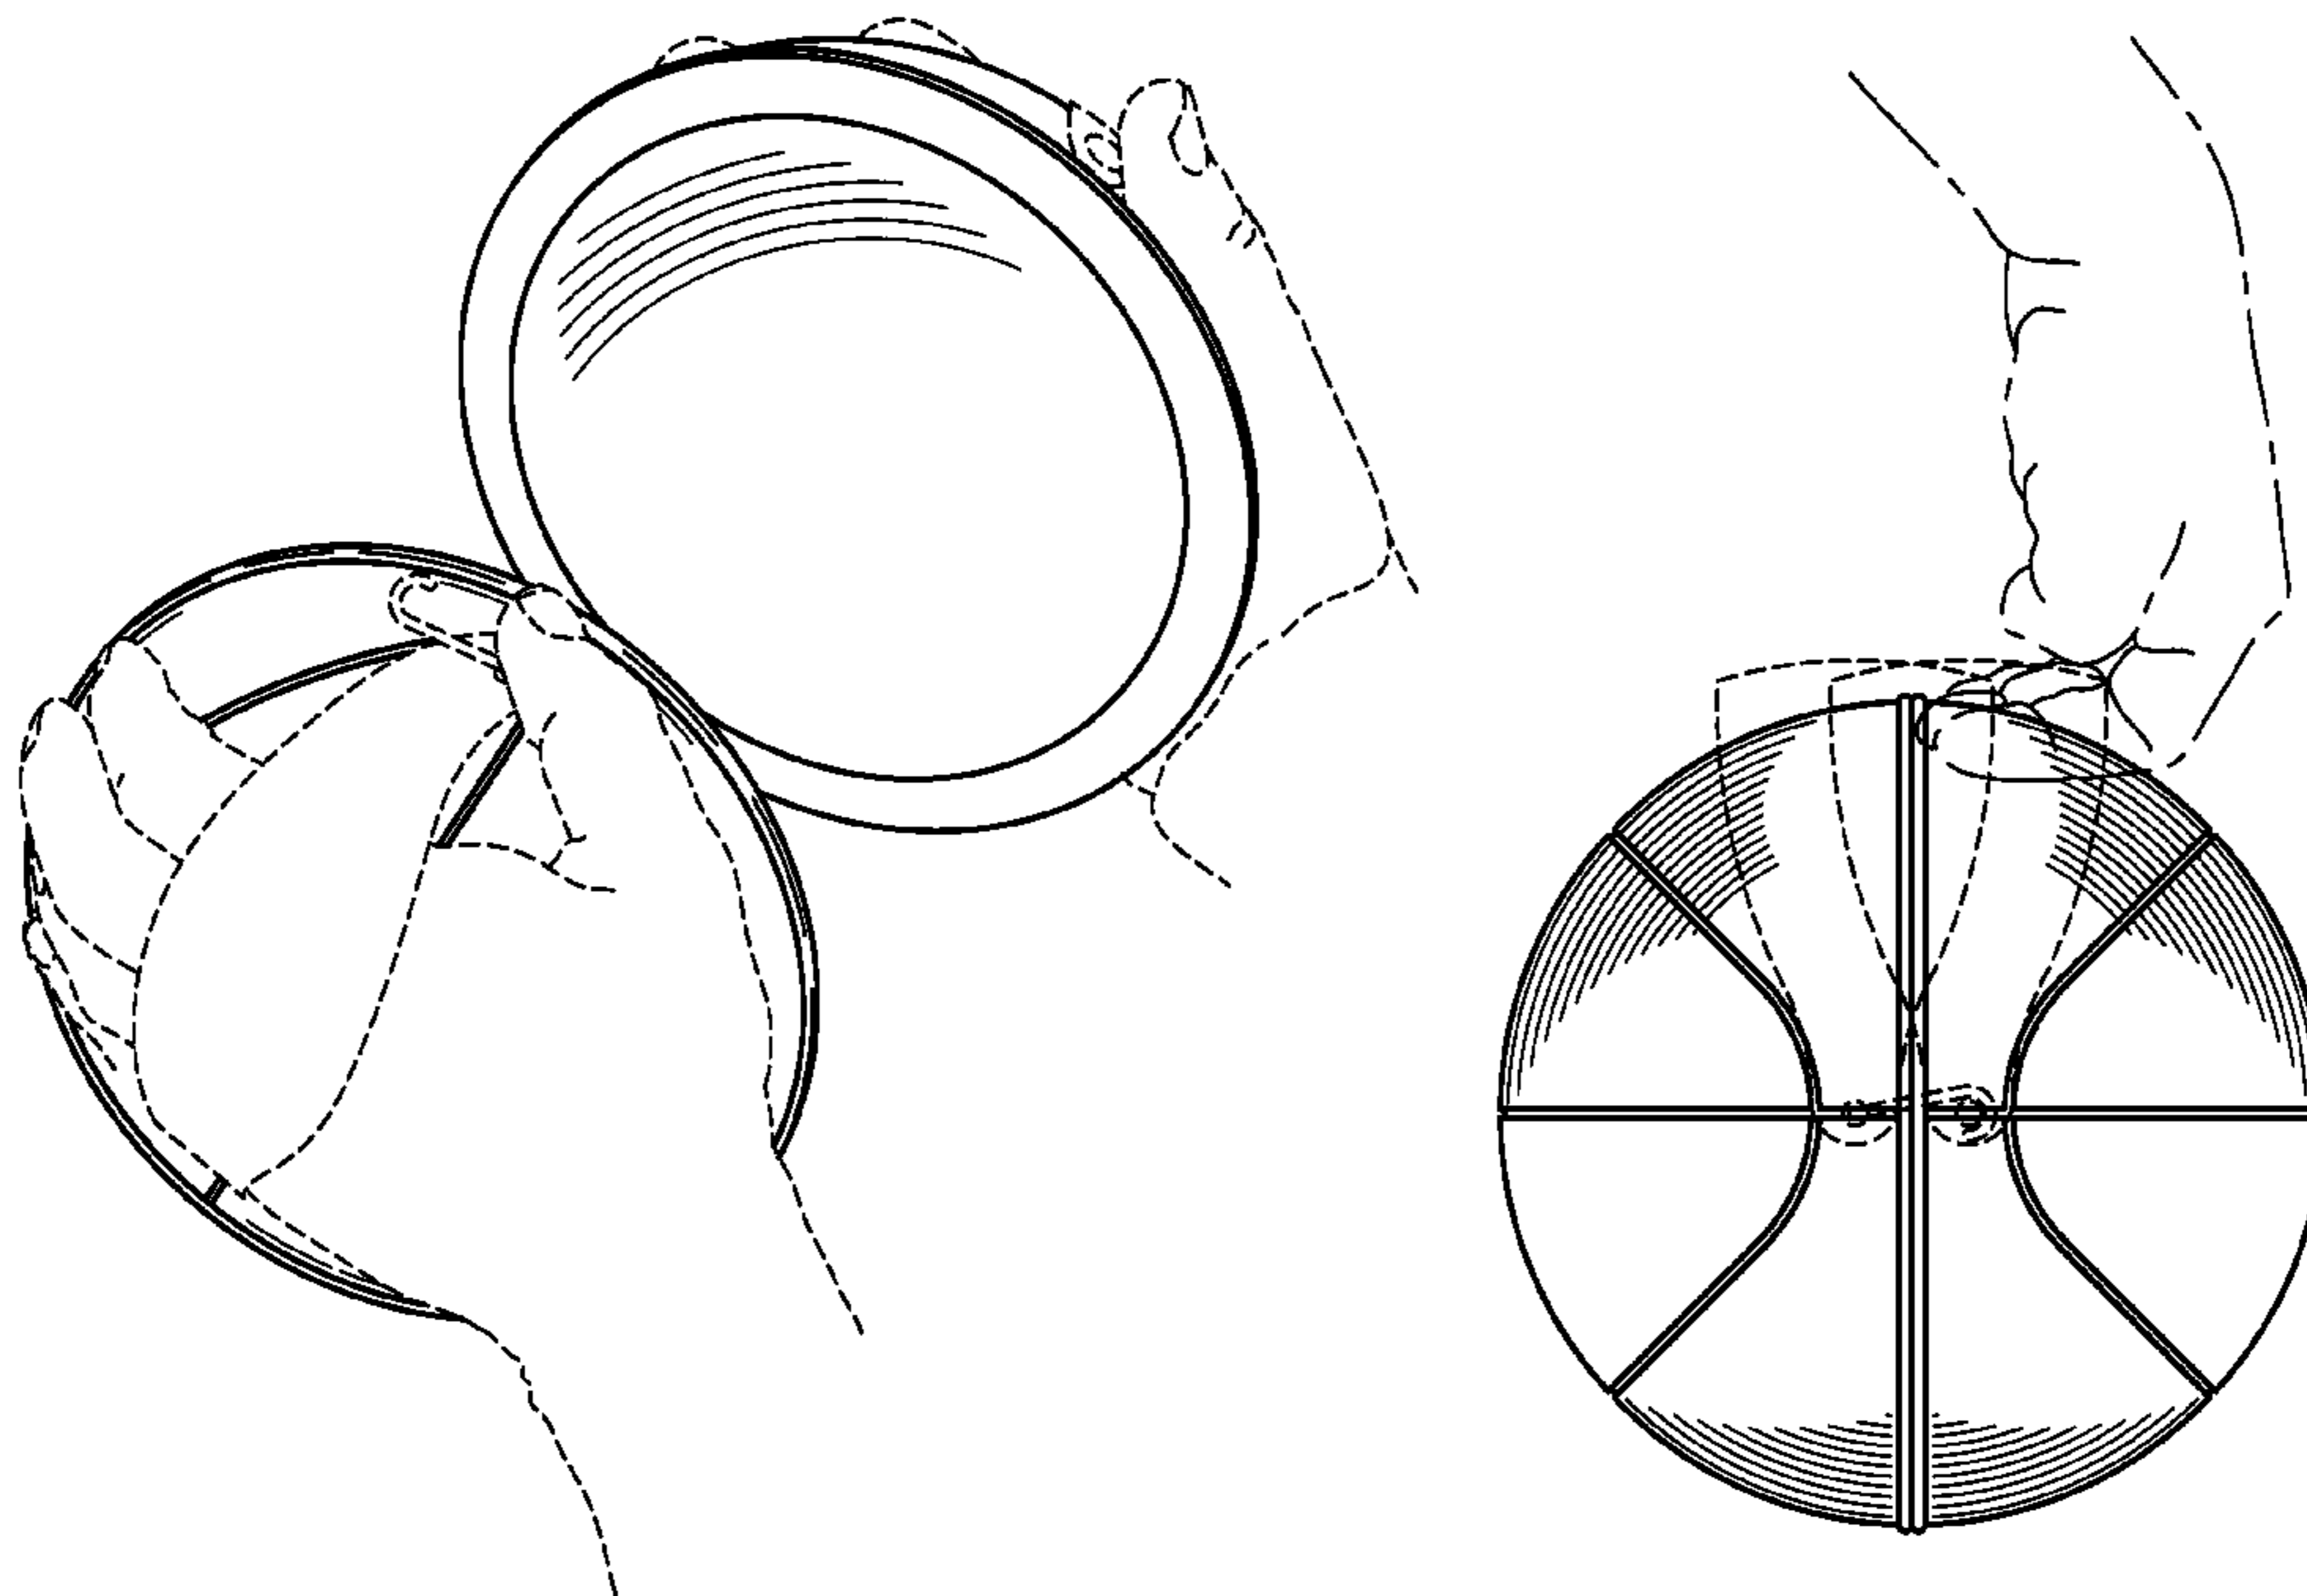

FIG. 3 is an elevational view of the concave side of one
hemispherical component of the basketball hand-held noise-
maker;

FIG. 4 is a left elevational view of FIGS. 1 and 2, the right
elevational view being a mirror image thereof;

FIG. 5 is an isometric view showing the design in use; and,
FIG. 6 is another front elevational view thereof, showing my
design being carried by the user.

The broken lines are included for the purpose of illustrating
portions of the noisemaker and its environment that form no
part of the claimed design.
