(57) **CLAIM**

The ornamental design for an open compression-type coaxial cable connector, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of an open compression-type coaxial cable connector, in open position, showing our new design;

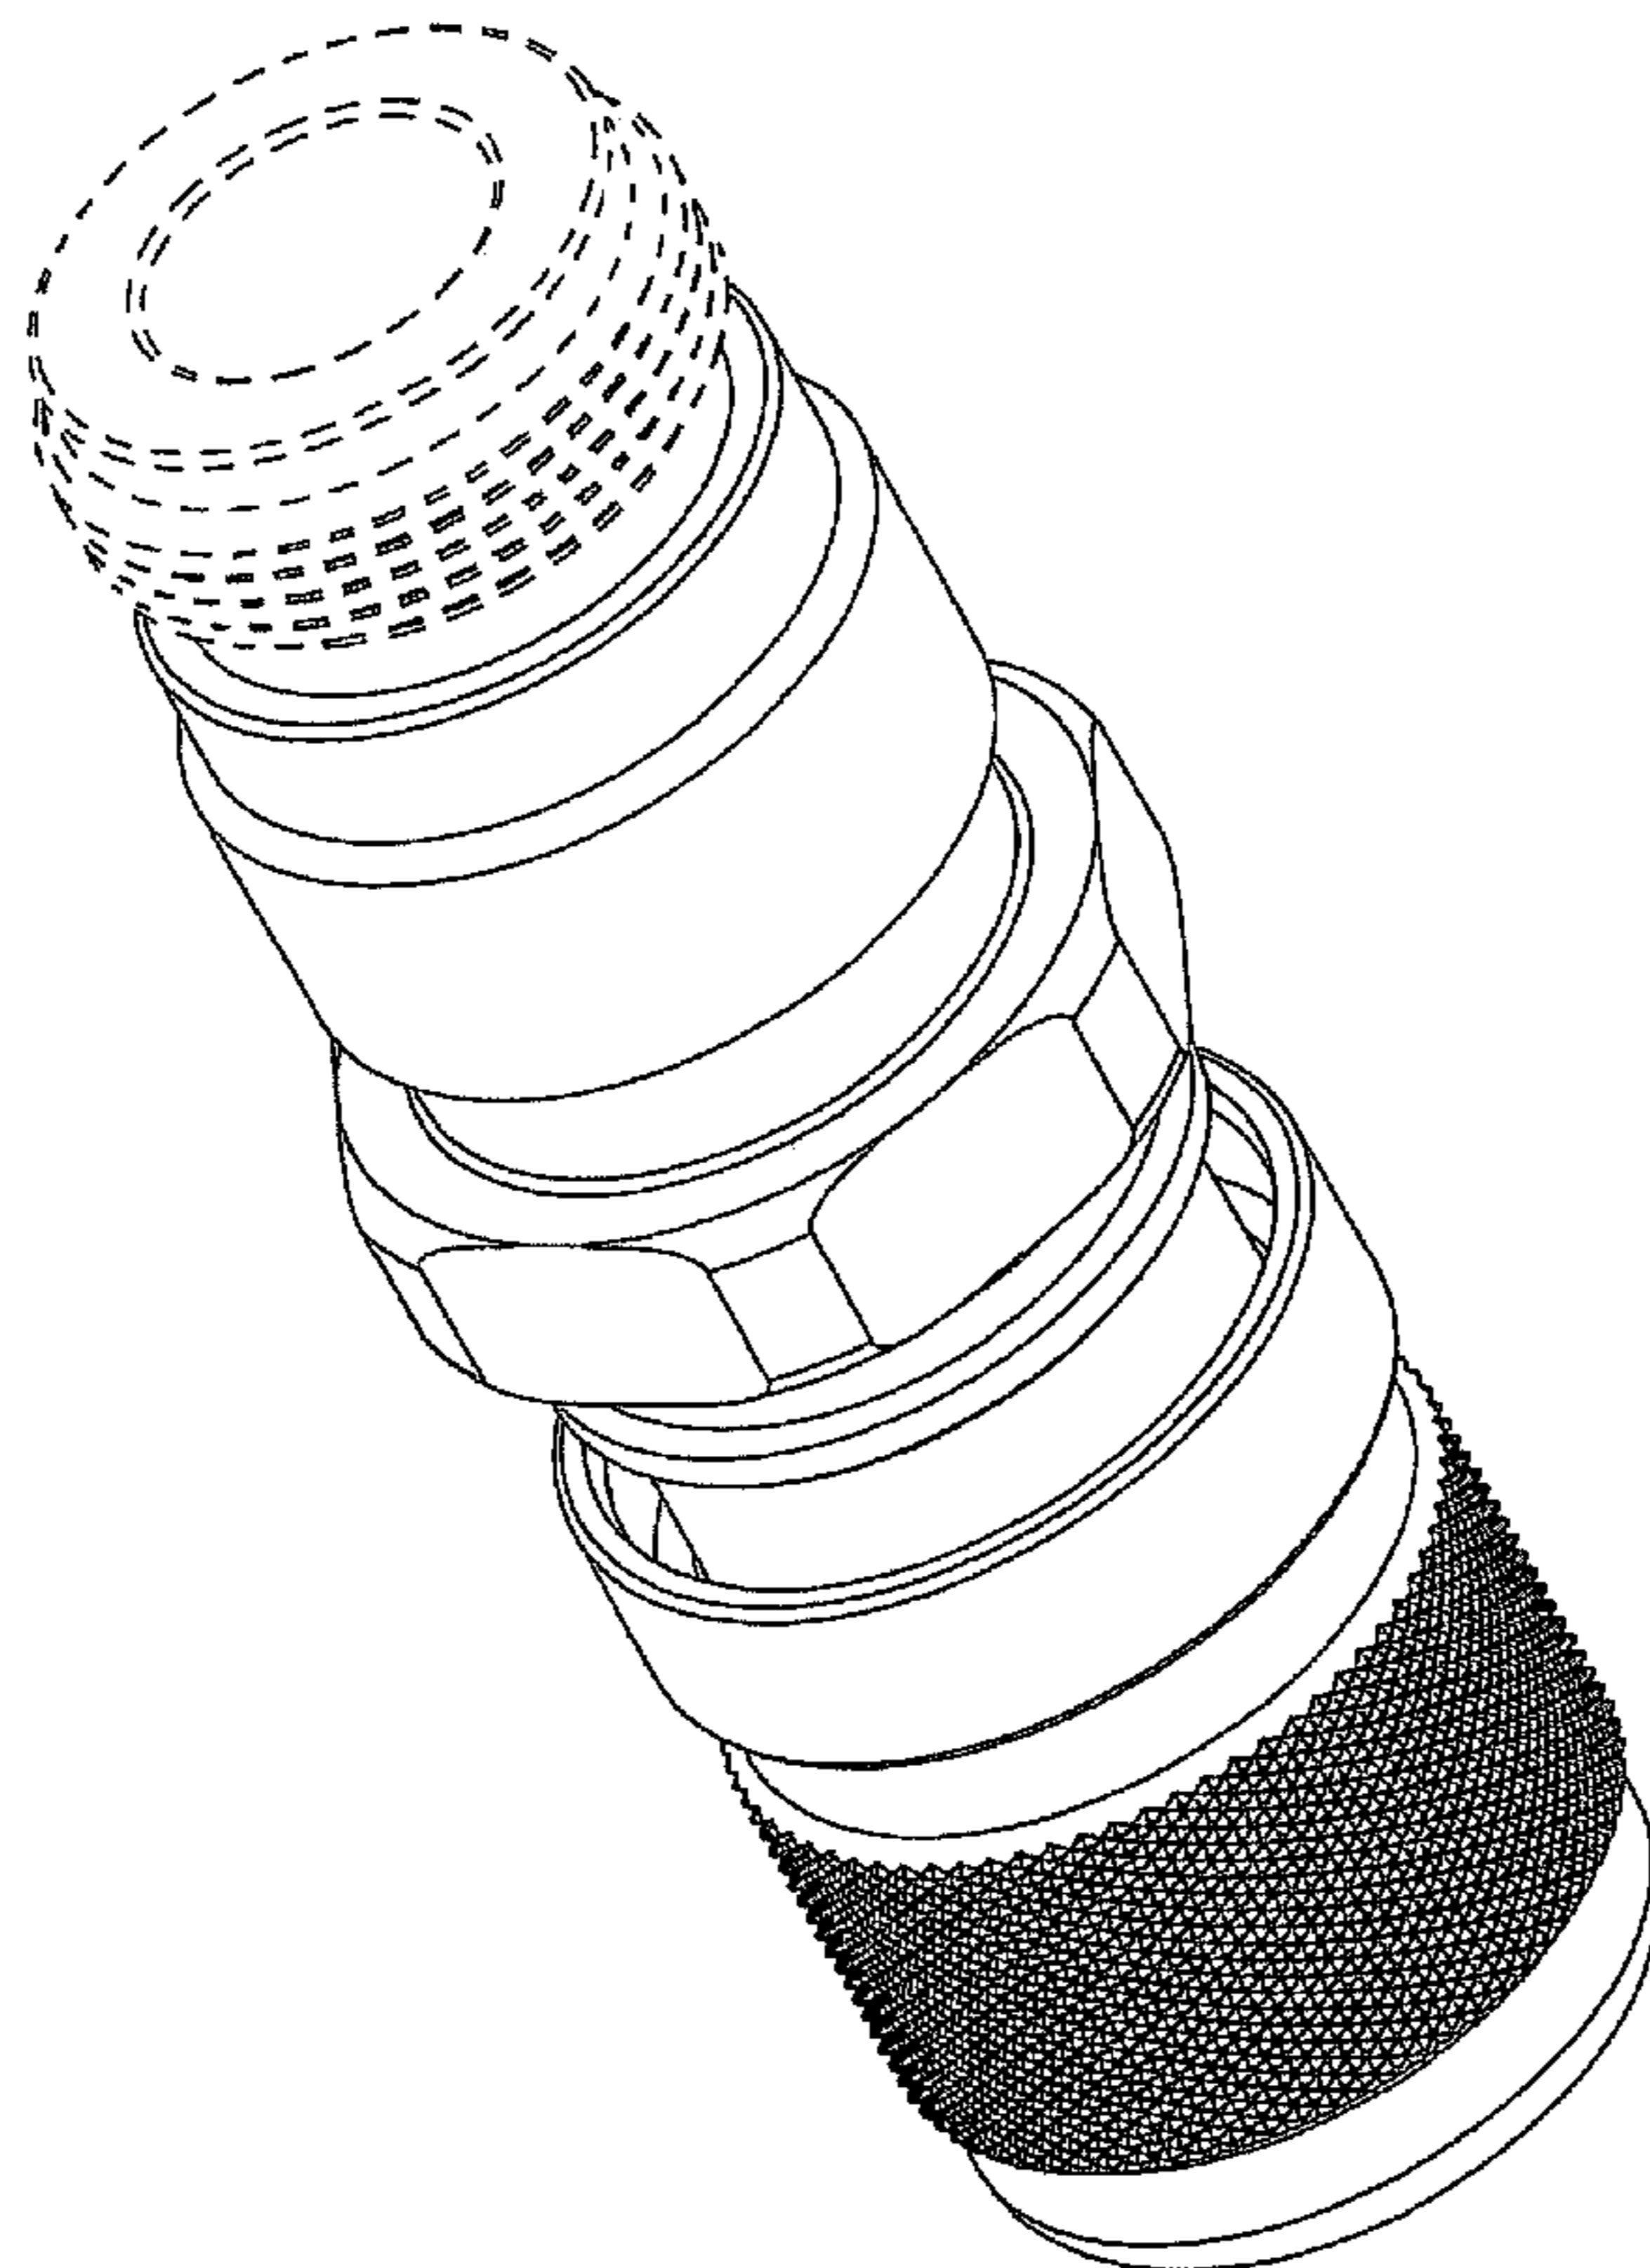

FIG. 2 is a side elevation view thereof, with the opposite side elevation being a mirror image thereto;

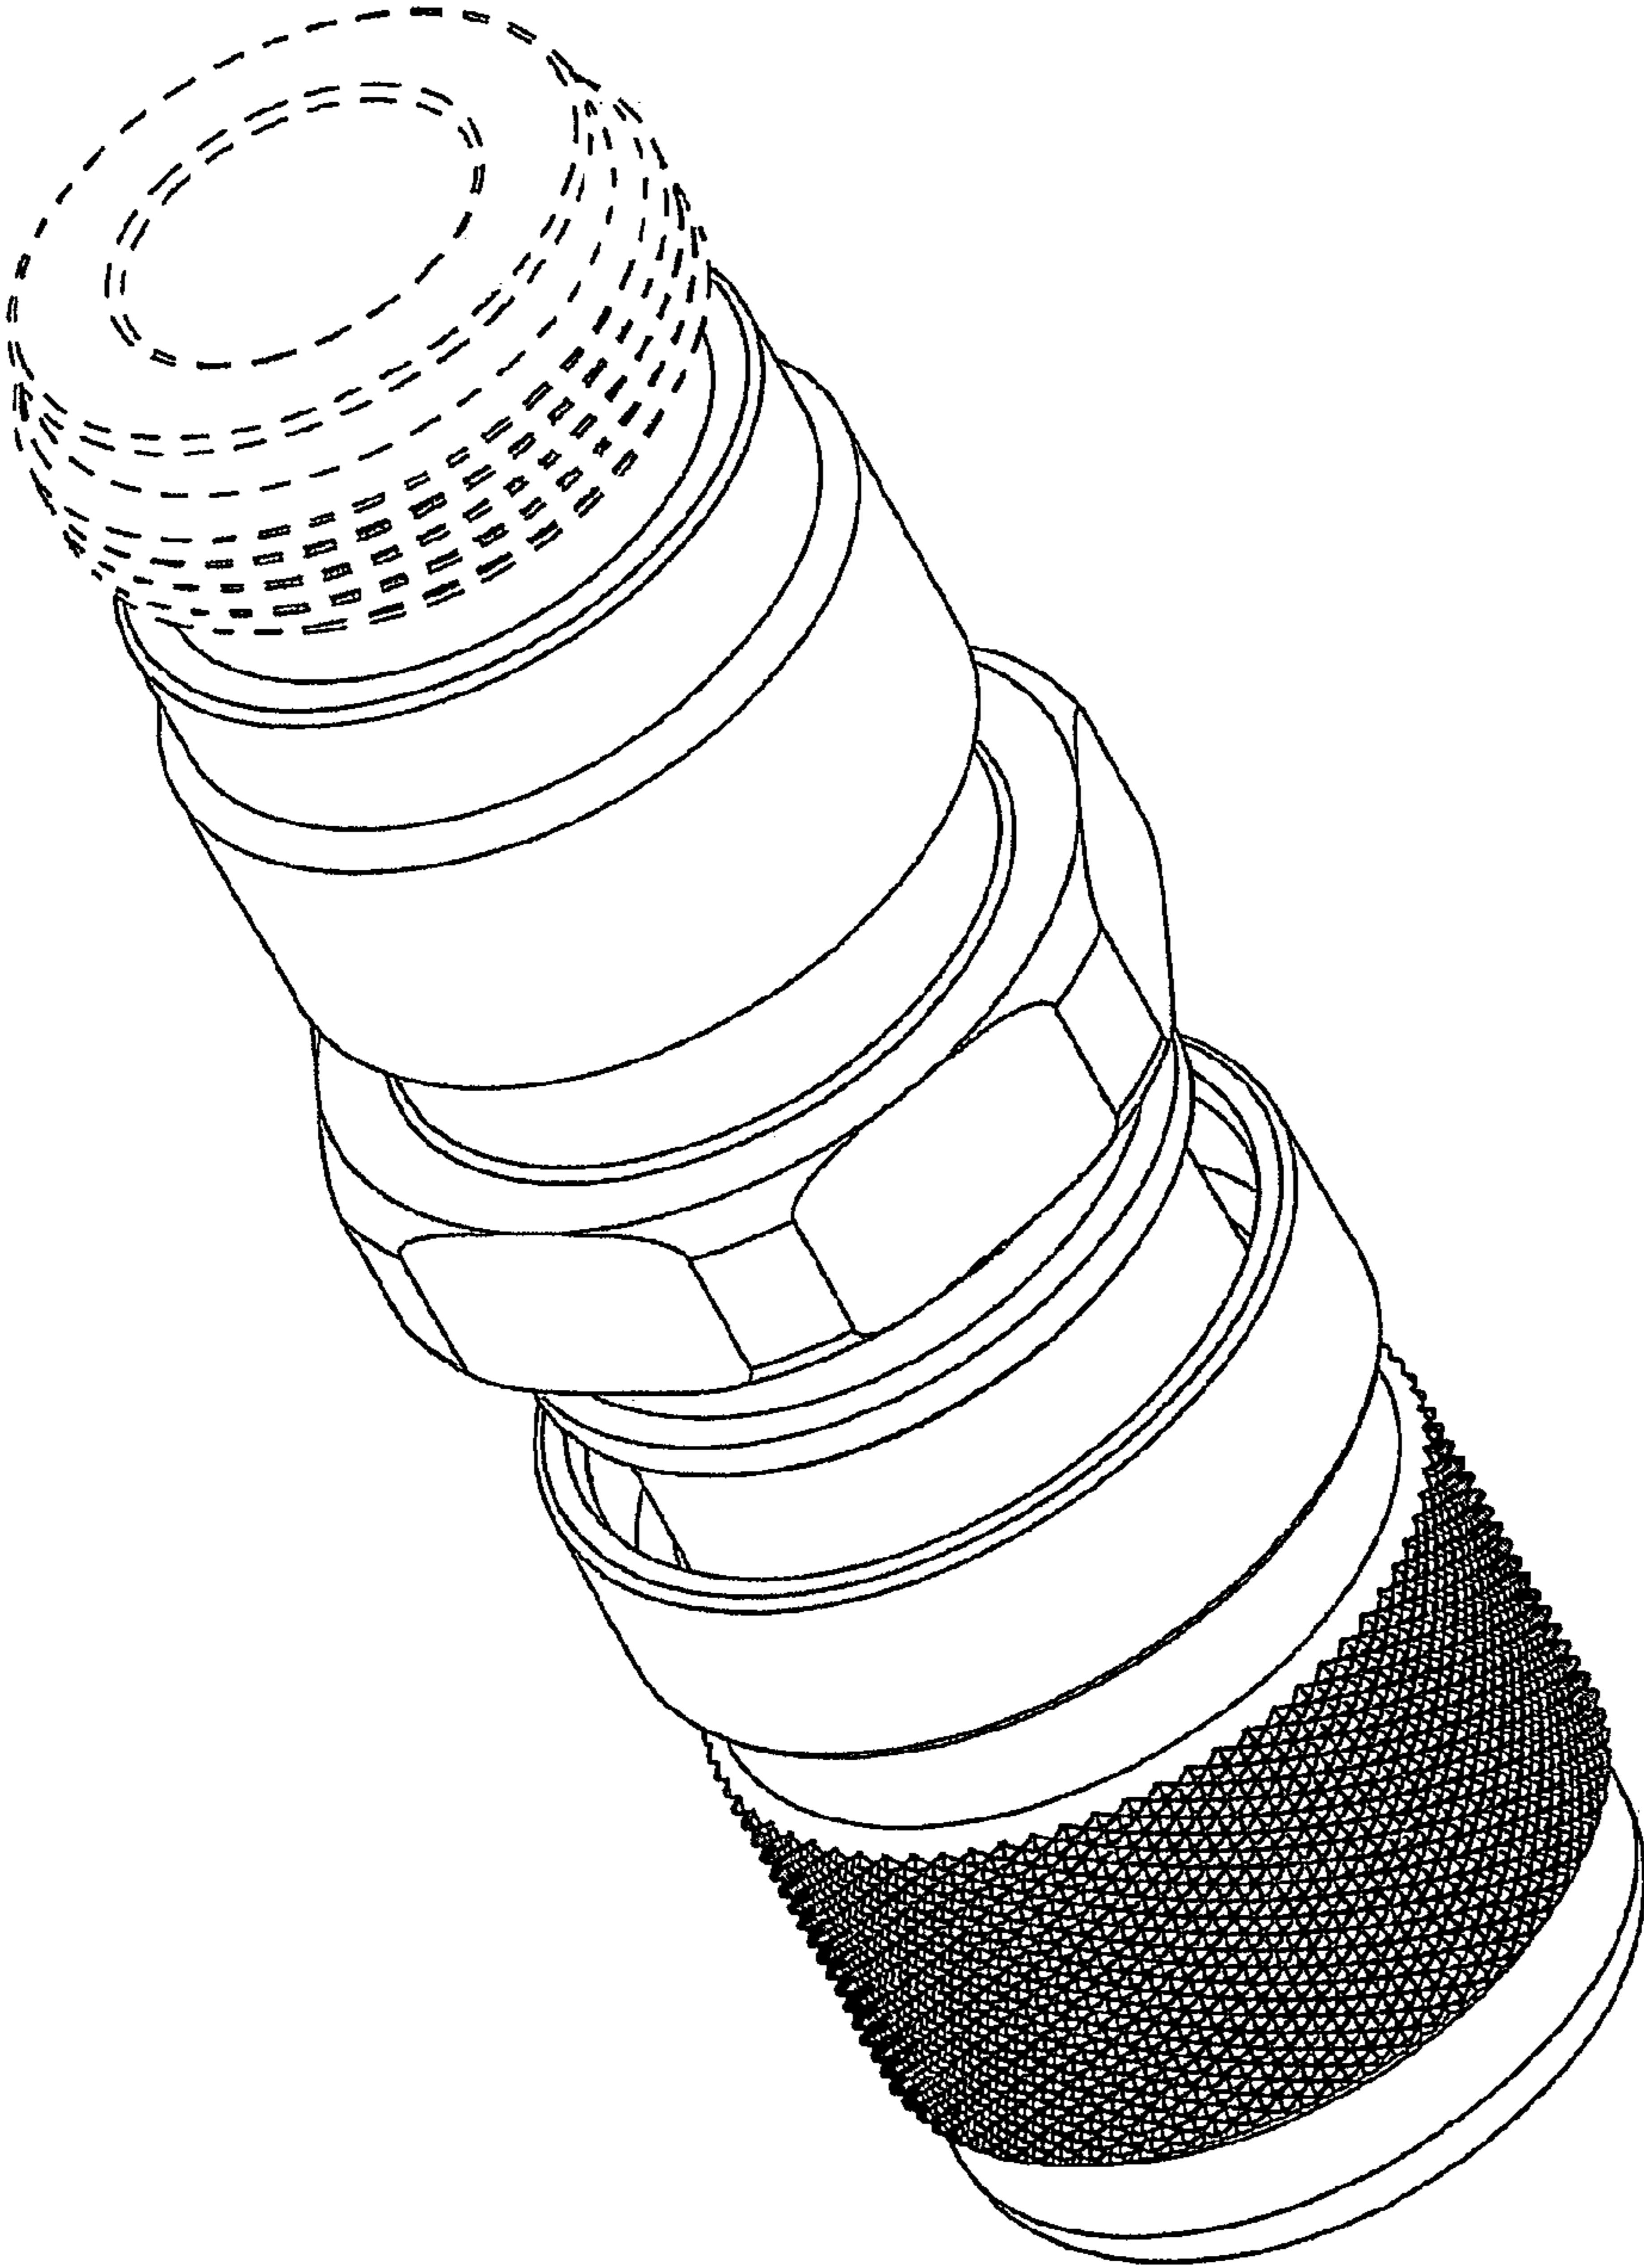

FIG. 3. is a top plan view thereof; and,

FIG. 4 is a bottom plan view thereof.

The broken line showing unclaimed subject matter of the internal elements and the top threaded portion of the connector is for illustrative purposes only and forms no part of the claimed design.
