(57) **CLAIM**

I claim the ornamental design for a spot light irradiator, as shown and described.

**DESCRIPTION**

The description of the figures of the accompanying drawings, wherein the rear view has not been included because it is a mirror image of the front view. The length of the omitted portion of the spot light irradiator of the present design may be approximately 46 cm, or about seventeen times the diameter of the main body of the spot light irradiator.

FIG. 1 is a front view of a spot light irradiator, showing my new design, the rear view being a mirror image thereof;

FIG. 2 is a right side view of a spot light irradiator, showing my new design;

FIG. 3 is a left side view of a spot light irradiator, showing my new design;

FIG. 4 is a top plan view of a spot light irradiator, showing my new design;

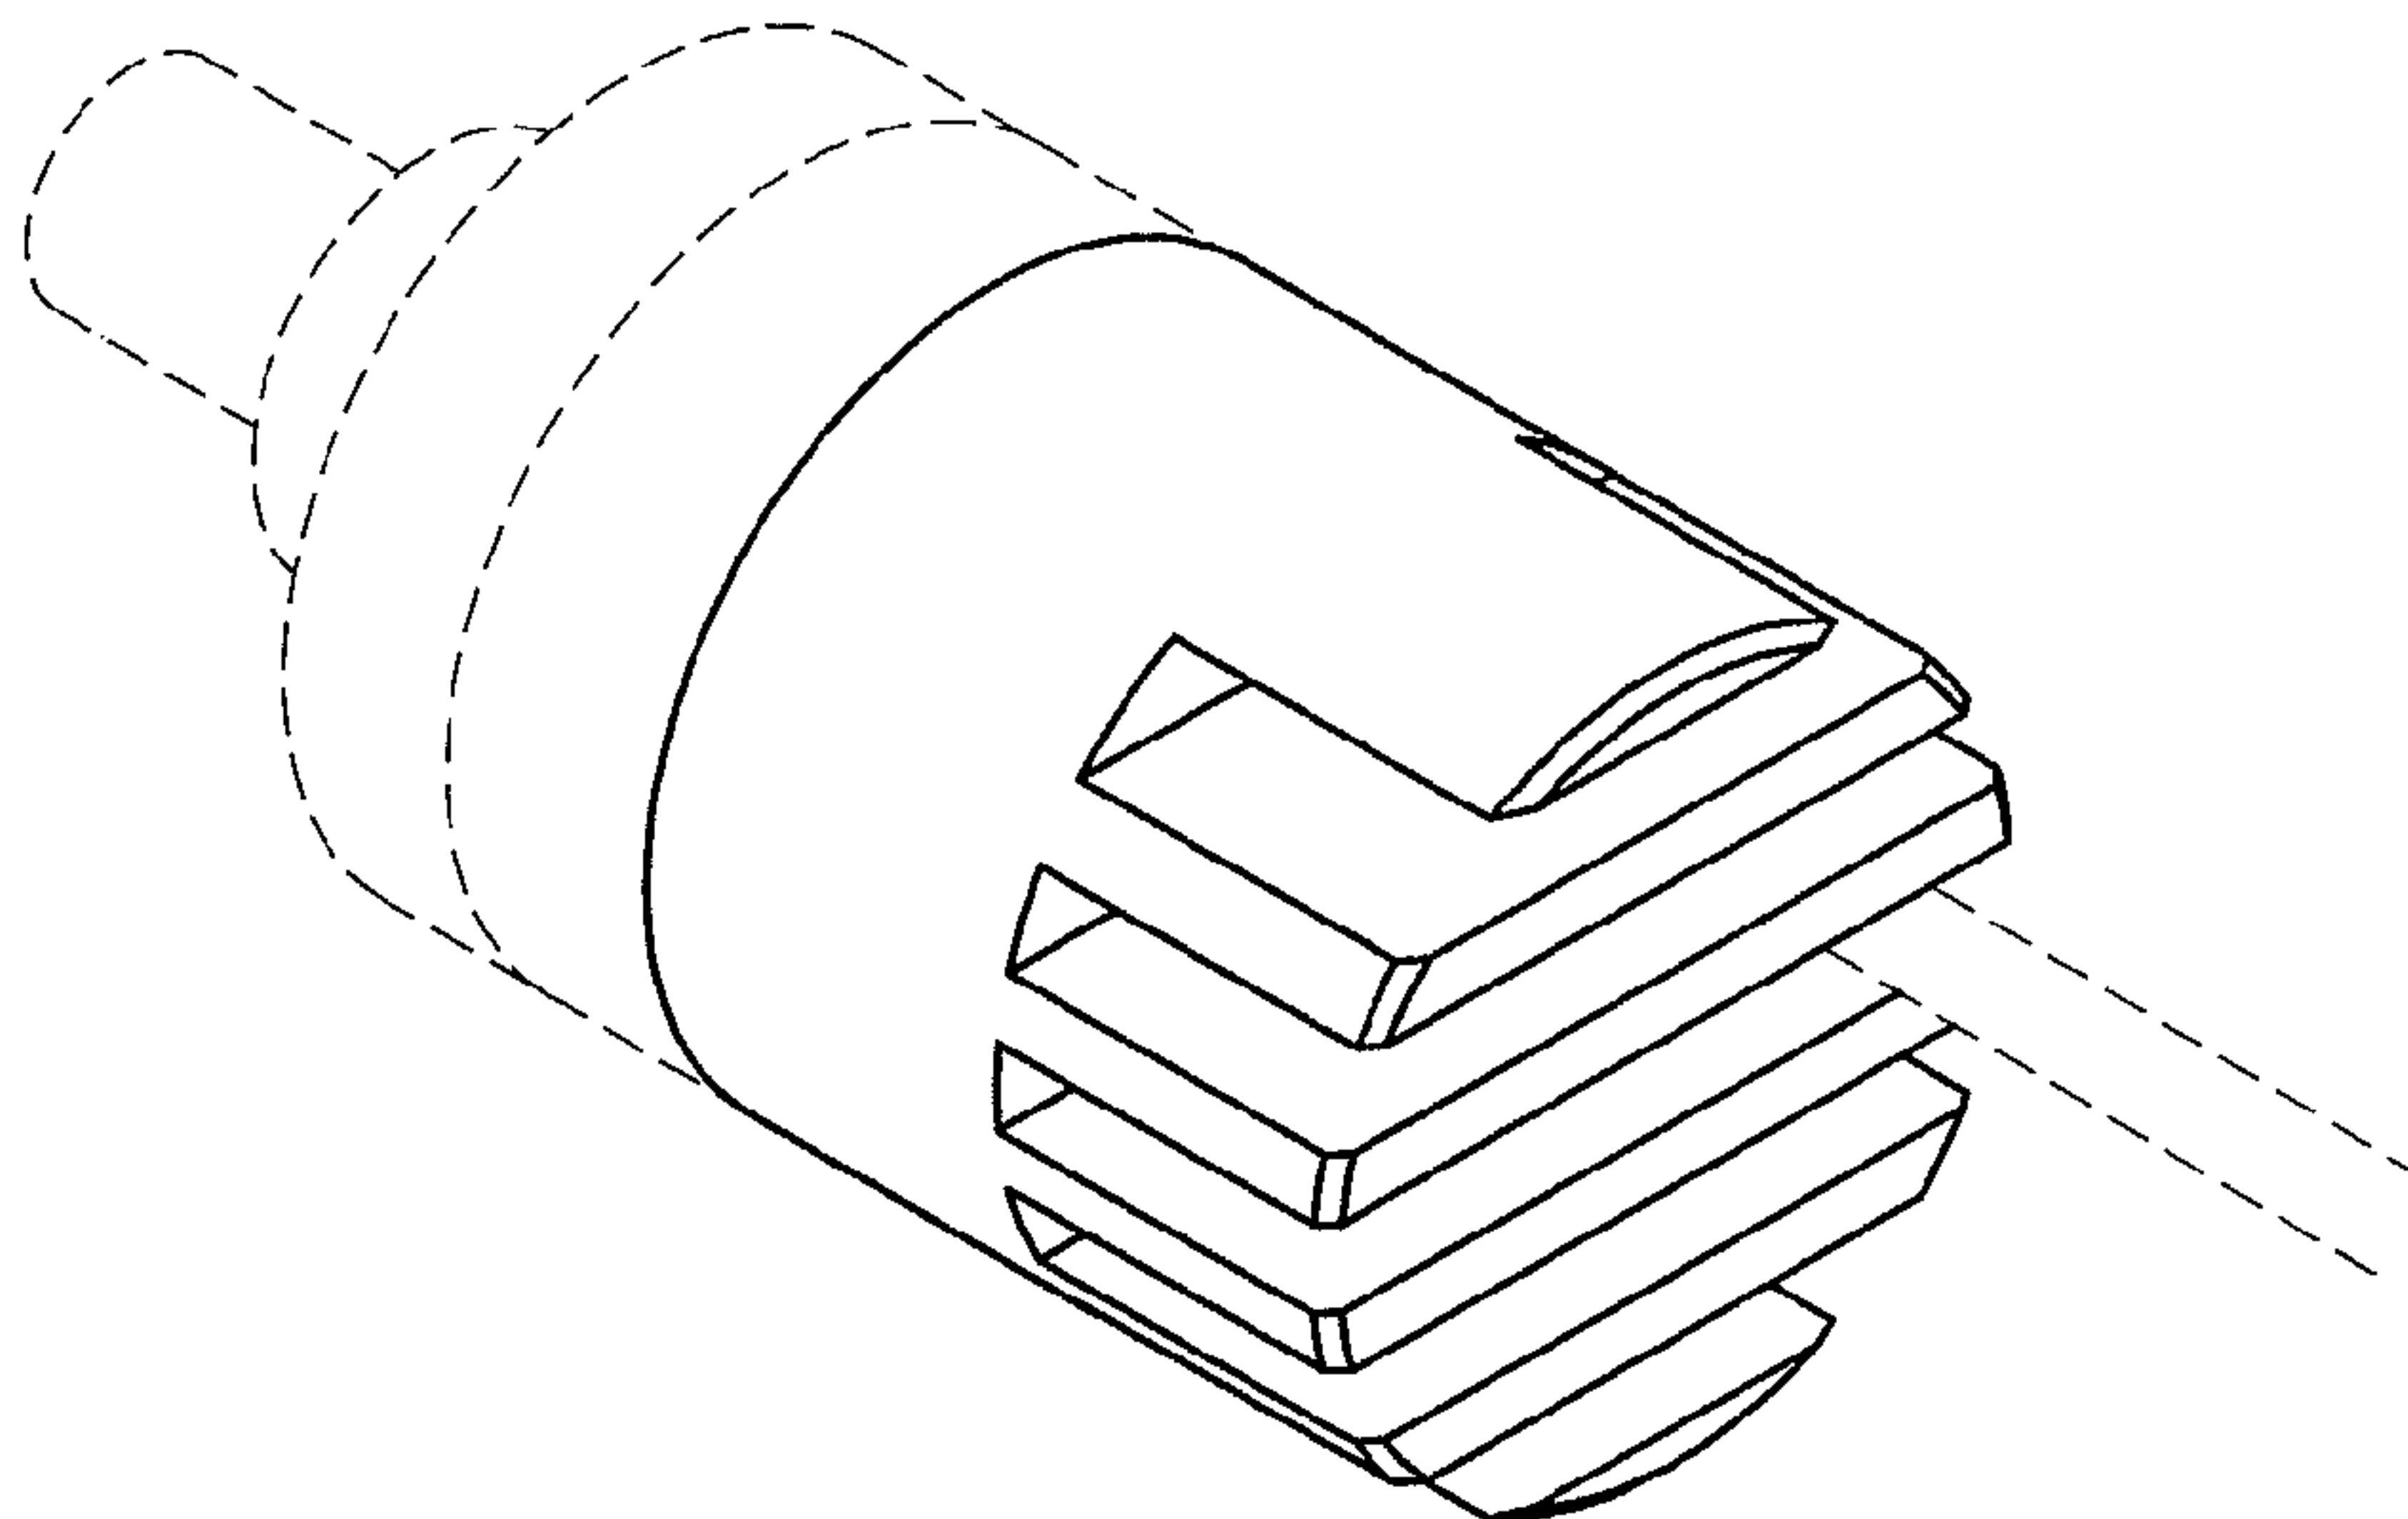

FIG. 5 is a bottom plan view of a spot light irradiator, showing my new design;

FIG. 6 is a cross sectional view of a spot light irradiator, taken along line 6—6 of FIG. 2, showing my new design; and,

FIG. 7 is a front perspective view of a spot light irradiator, showing my new design.

The broken line shown is included for the purpose of illustration only and forms no part of the claimed design.
