(57) **CLAIM**

The ornamental design for a vehicle side mirror, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a left vehicle side mirror as viewed from the front of the vehicle, showing our new design;

FIG. 2 is a right side elevational view thereof;

FIG. 3 is a left side elevational view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a rear elevational view thereof;

FIG. 7 is a front elevational view of a second embodiment showing a right vehicle side mirror as viewed from the front of the vehicle;

FIG. 8 is a right side elevational view thereof;

FIG. 9 is a left side elevational view thereof;

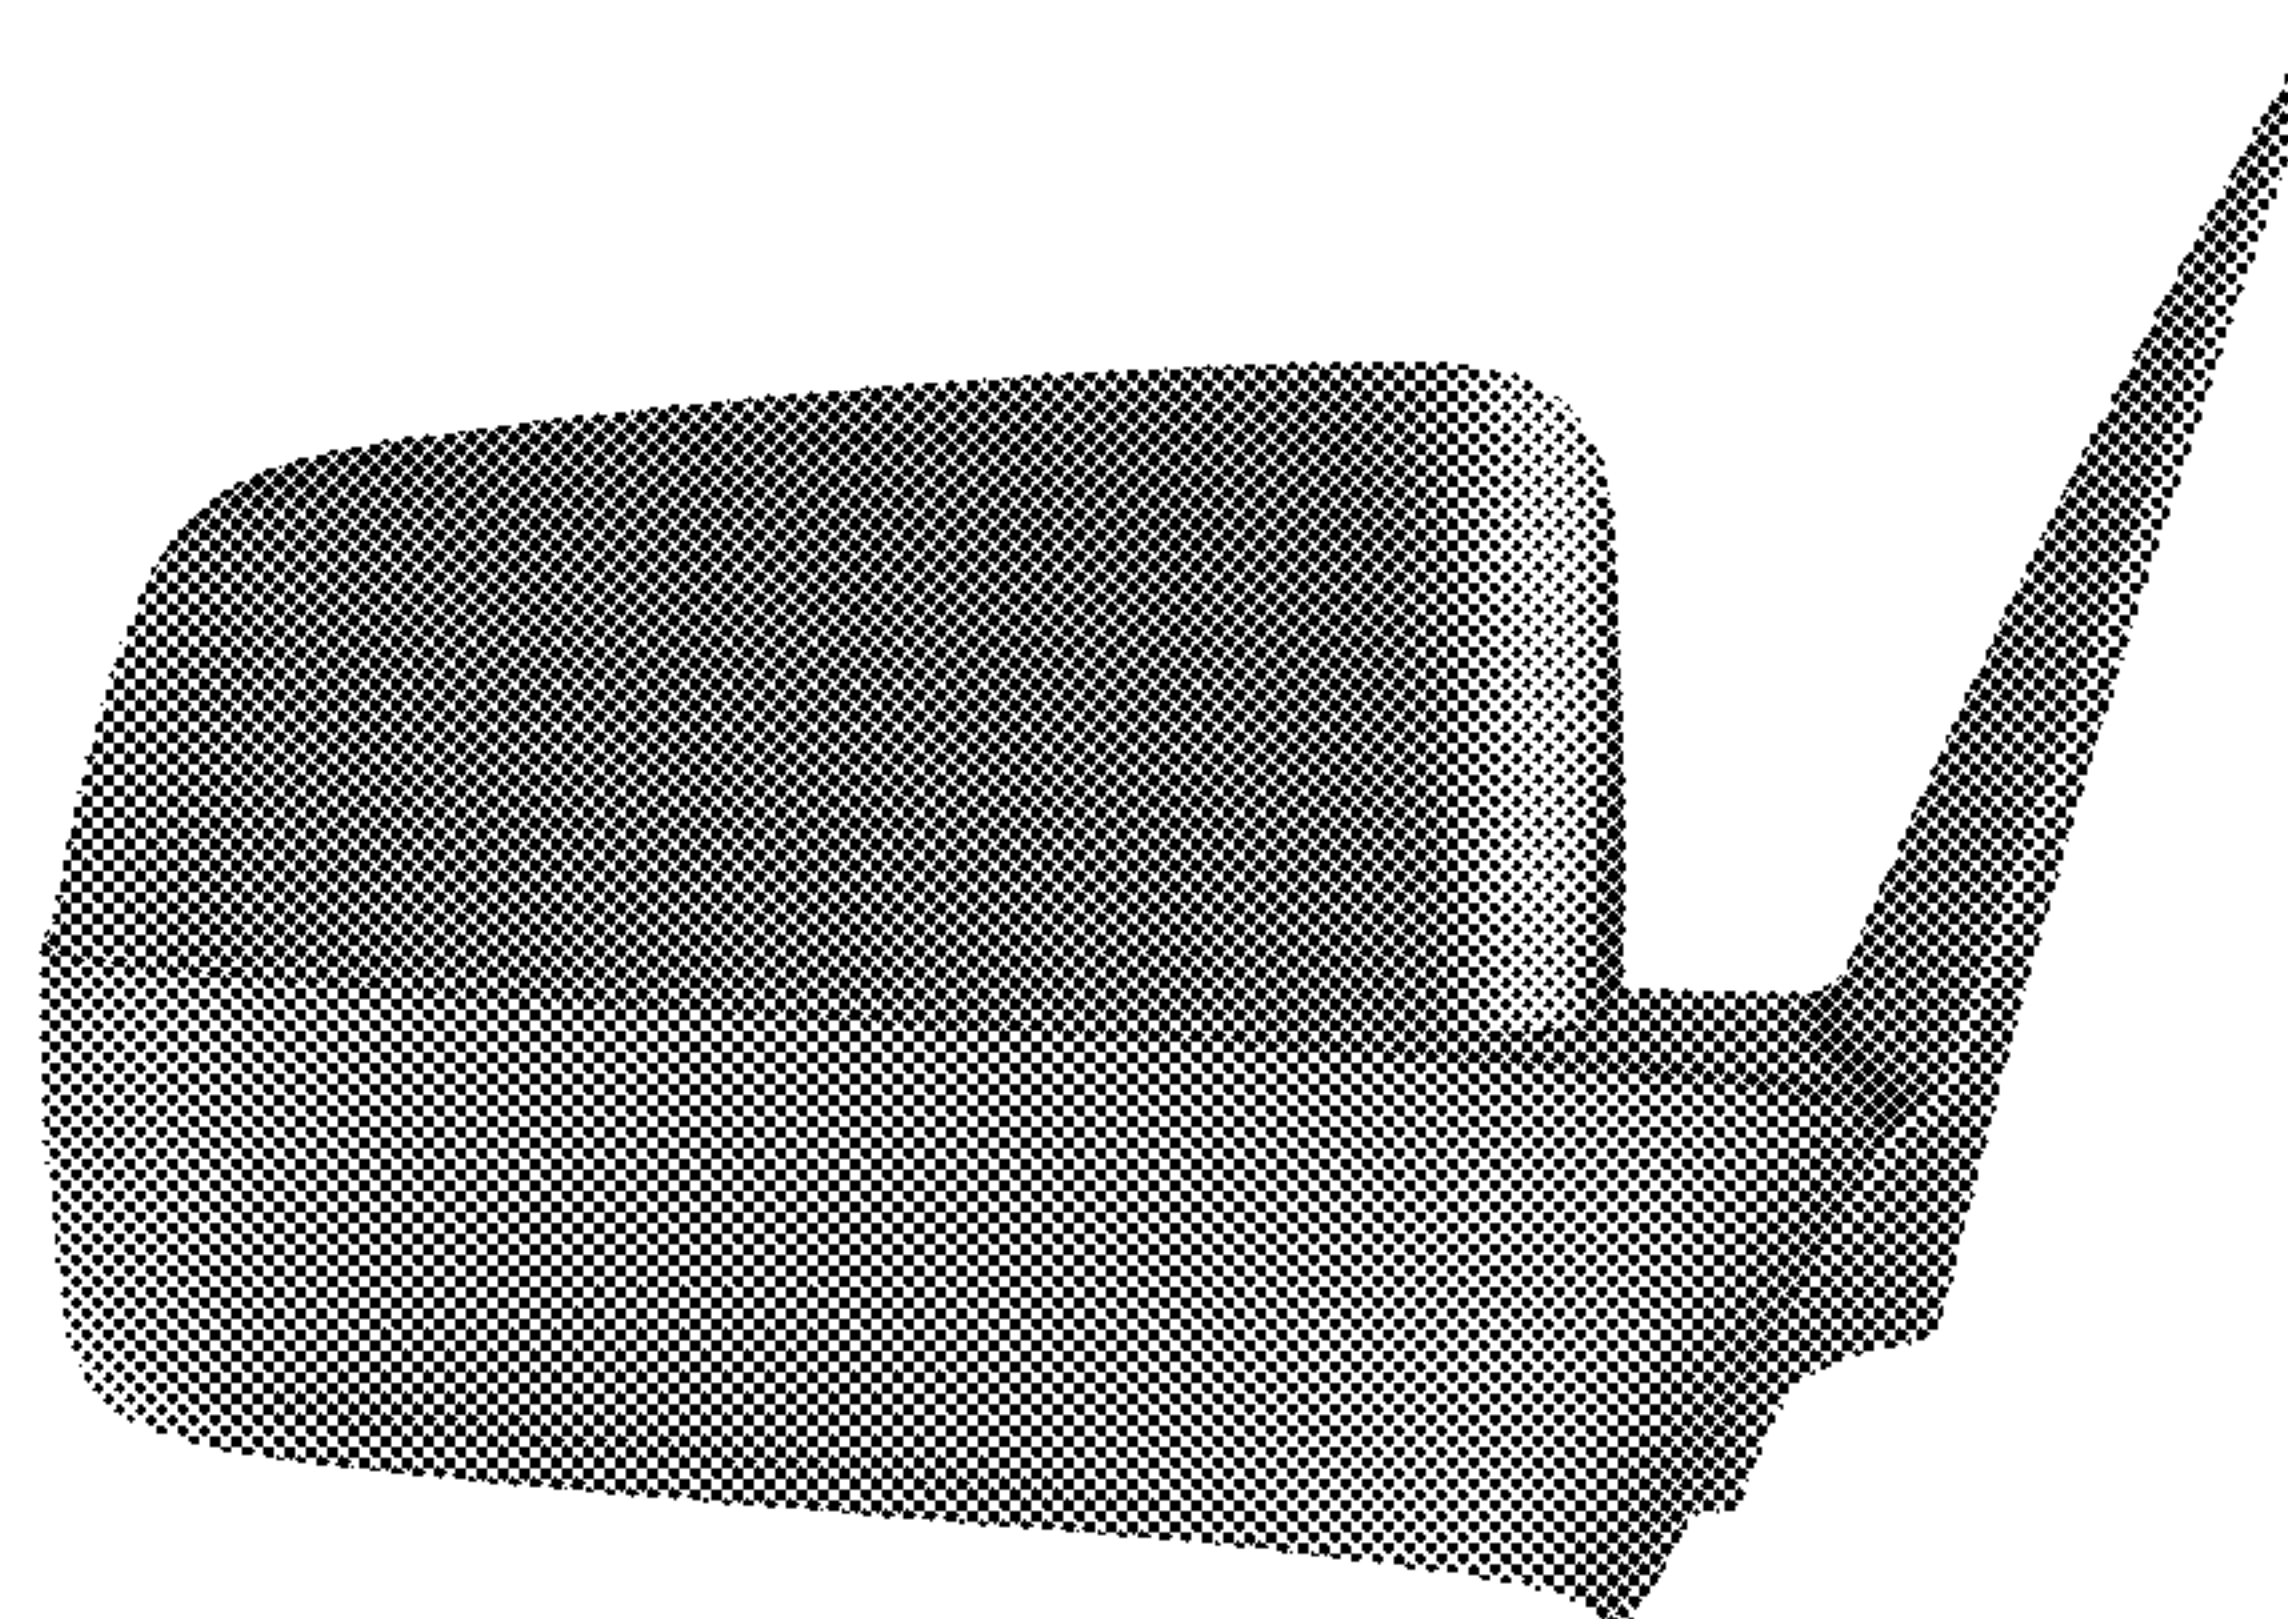

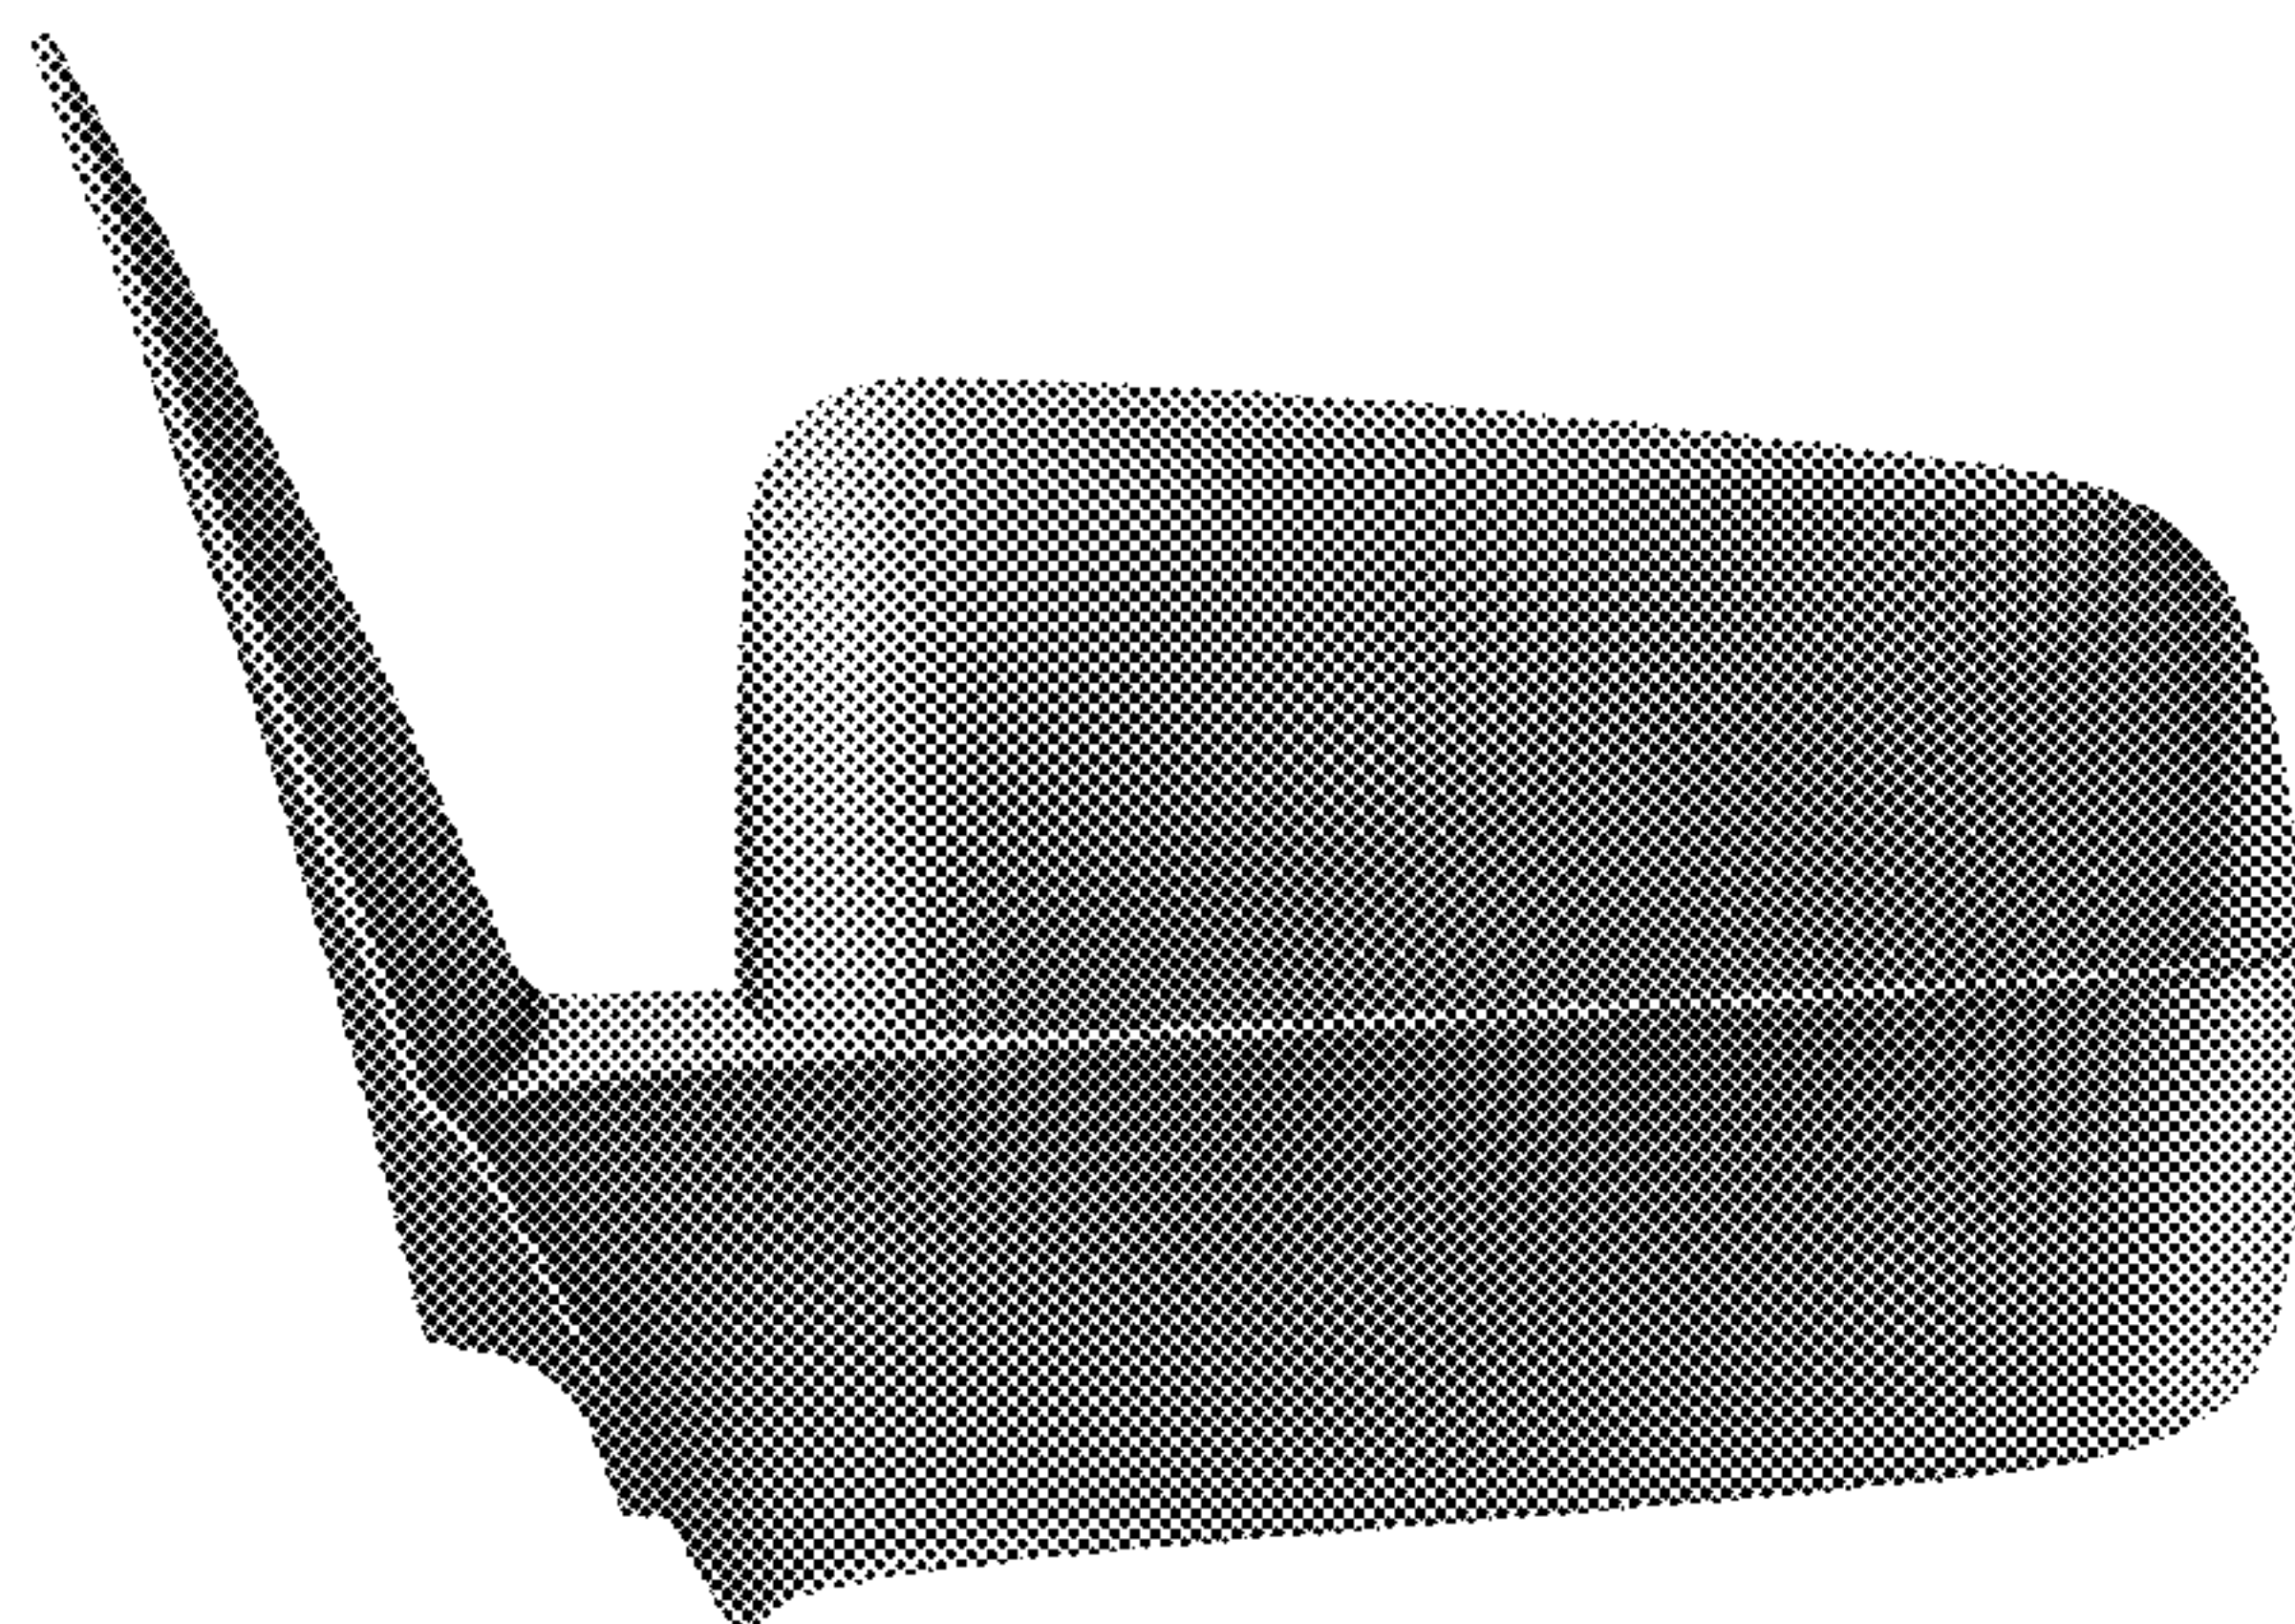

FIG. 10 is a top plan view thereof;

FIG. 11 is bottom plan view thereof; and,

FIG. 12 is a rear elevational view thereof.

The vehicle side mirror is styled independently of adjacent vehicle panels. To the extent that any feature lines are illustrated, they are intended to illustrate the crest and valley of the feature and are not necessarily sharp bends in the part. Shading is used to illustrate the curvature of the part and not color. Any functional features of the vehicle side mirror are not claimed. Views are orthogonal projections unless otherwise noted.
