(57) **CLAIM**

The ornamental design of the braille financial transaction card, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a braille financial transaction card of a first embodiment;

FIG. 2 is a back elevational view of a braille financial transaction card of the first embodiment;

FIG. 3 is a front perspective view of the braille financial transaction card of FIG. 1 of the first embodiment;

FIG. 4 is a back perspective view of the braille financial transaction card of FIG. 2 of the first embodiment;

FIG. 5 is a view of the left side of the braille financial transaction card of FIG. 1, where the back of the braille financial transaction card faces to the left of FIG. 5 and the front of the braille financial transaction card faces to the right of FIG. 5;

FIG. 6 is a view of the right side of the braille financial transaction card of FIG. 1, where the back of the braille financial transaction card faces to the right of FIG. 6 and the front of the braille financial transaction card faces to the left of FIG. 6;

FIG. 7 is a top view of the braille financial transaction card of FIG. 1, where the front of the braille financial transaction card faces the bottom of FIG. 7;

FIG. 8 is a bottom view of the braille financial transaction card of FIG. 1, where the front of the braille financial transaction card faces the top of FIG. 8;

FIG. 9 is a back perspective view of a braille financial transaction card of a second embodiment;

FIG. 10 is a back elevational view of the braille financial transaction card of the second embodiment;

FIG. 11 is a view of the left side of the braille financial transaction card of FIGS. 9-10, where the back of the braille financial transaction card faces to the left of FIG. 11 and the front of the braille financial transaction card faces to the right of FIG. 11;

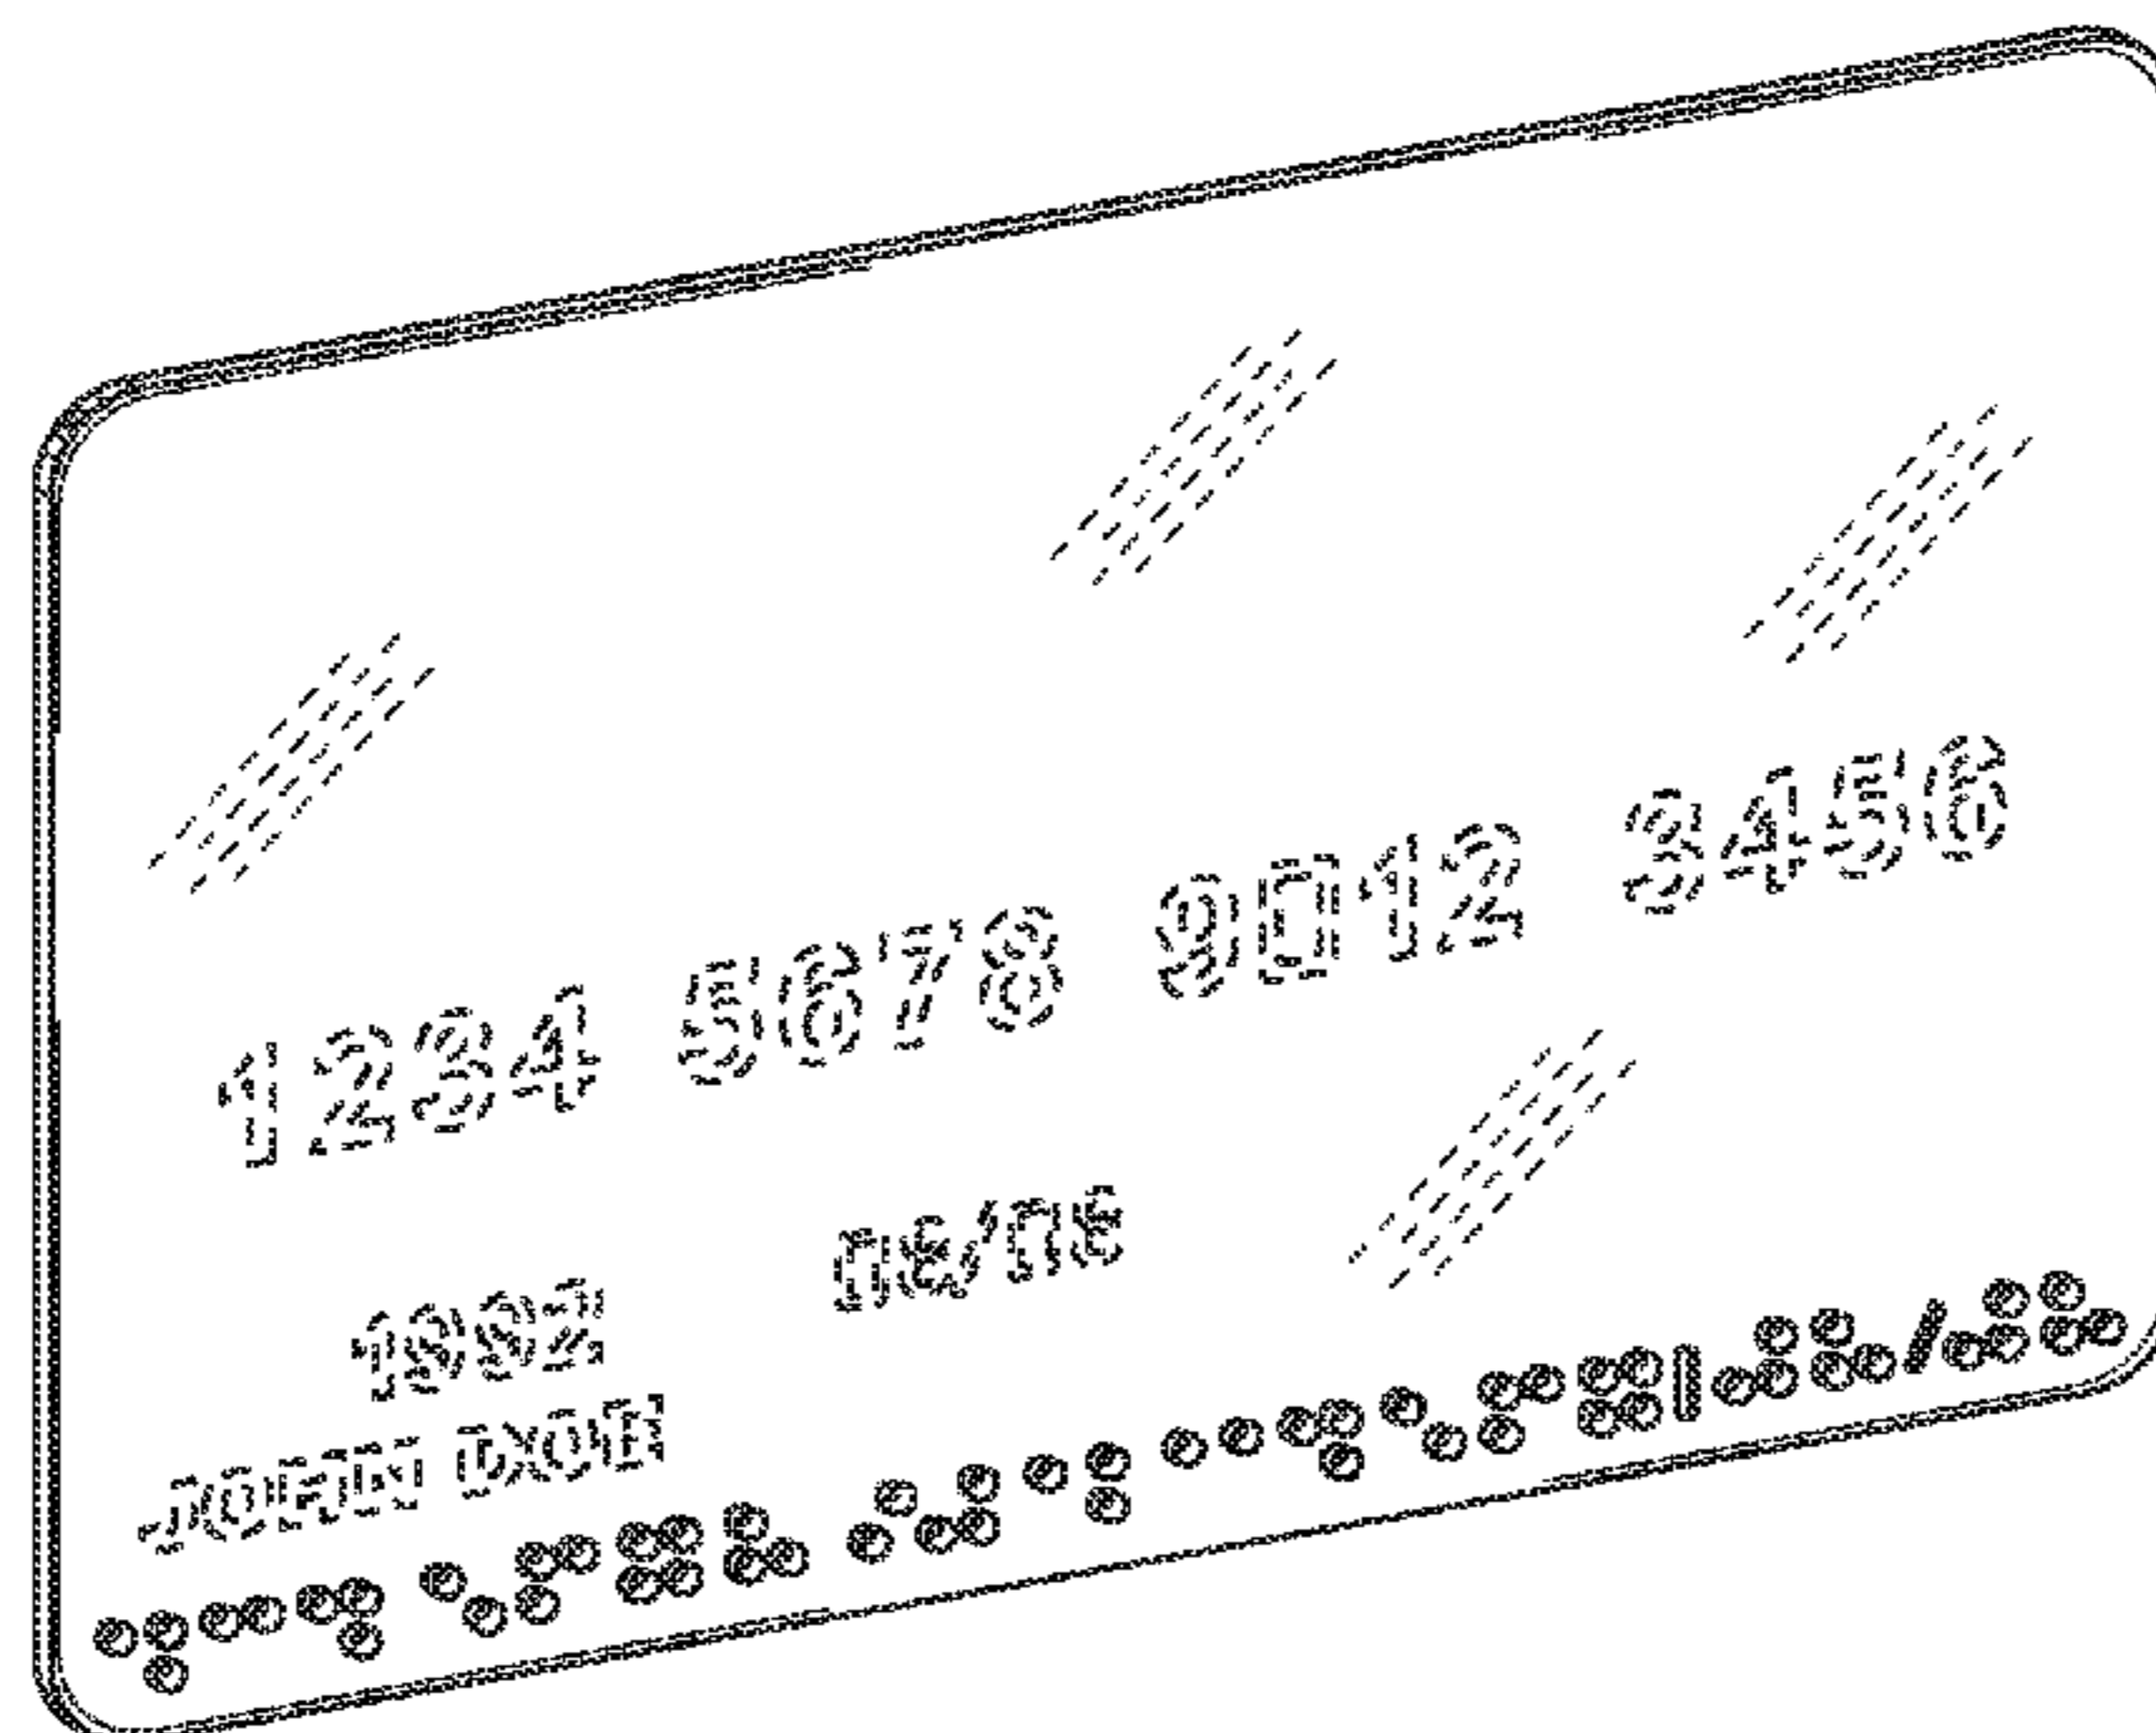

FIG. 12 is a view of the right side of the braille financial transaction card of FIGS. 9-10, where the back of the braille financial transaction card faces to the right of FIG. 12 and the front of the braille financial transaction card faces to the left of FIG. 12;

FIG. 13 is a top view of the braille financial transaction card of FIGS. 9-10, where the front of the braille financial transaction card faces the bottom of FIG. 13; and,

FIG. 14 is a bottom view of the braille financial transaction card of FIGS. 9-10, where the front of the braille financial transaction card faces the top of FIG. 14.

The broken line showing of parts of the drawings is included for the purpose of illustrating use and environment and forms no part of the claimed design.
