(57) **CLAIM**

The ornamental design for a self-nailing barb, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a self-nailing barb according to the present invention shown in position of use on a fragmentary bracket having a second barb. The bracket and second barb are shown in broken lines and included for illustrative purposes only and form no part of the claimed design.

FIG. 2 is an enlarged, top plan view of the self-nailing barb;

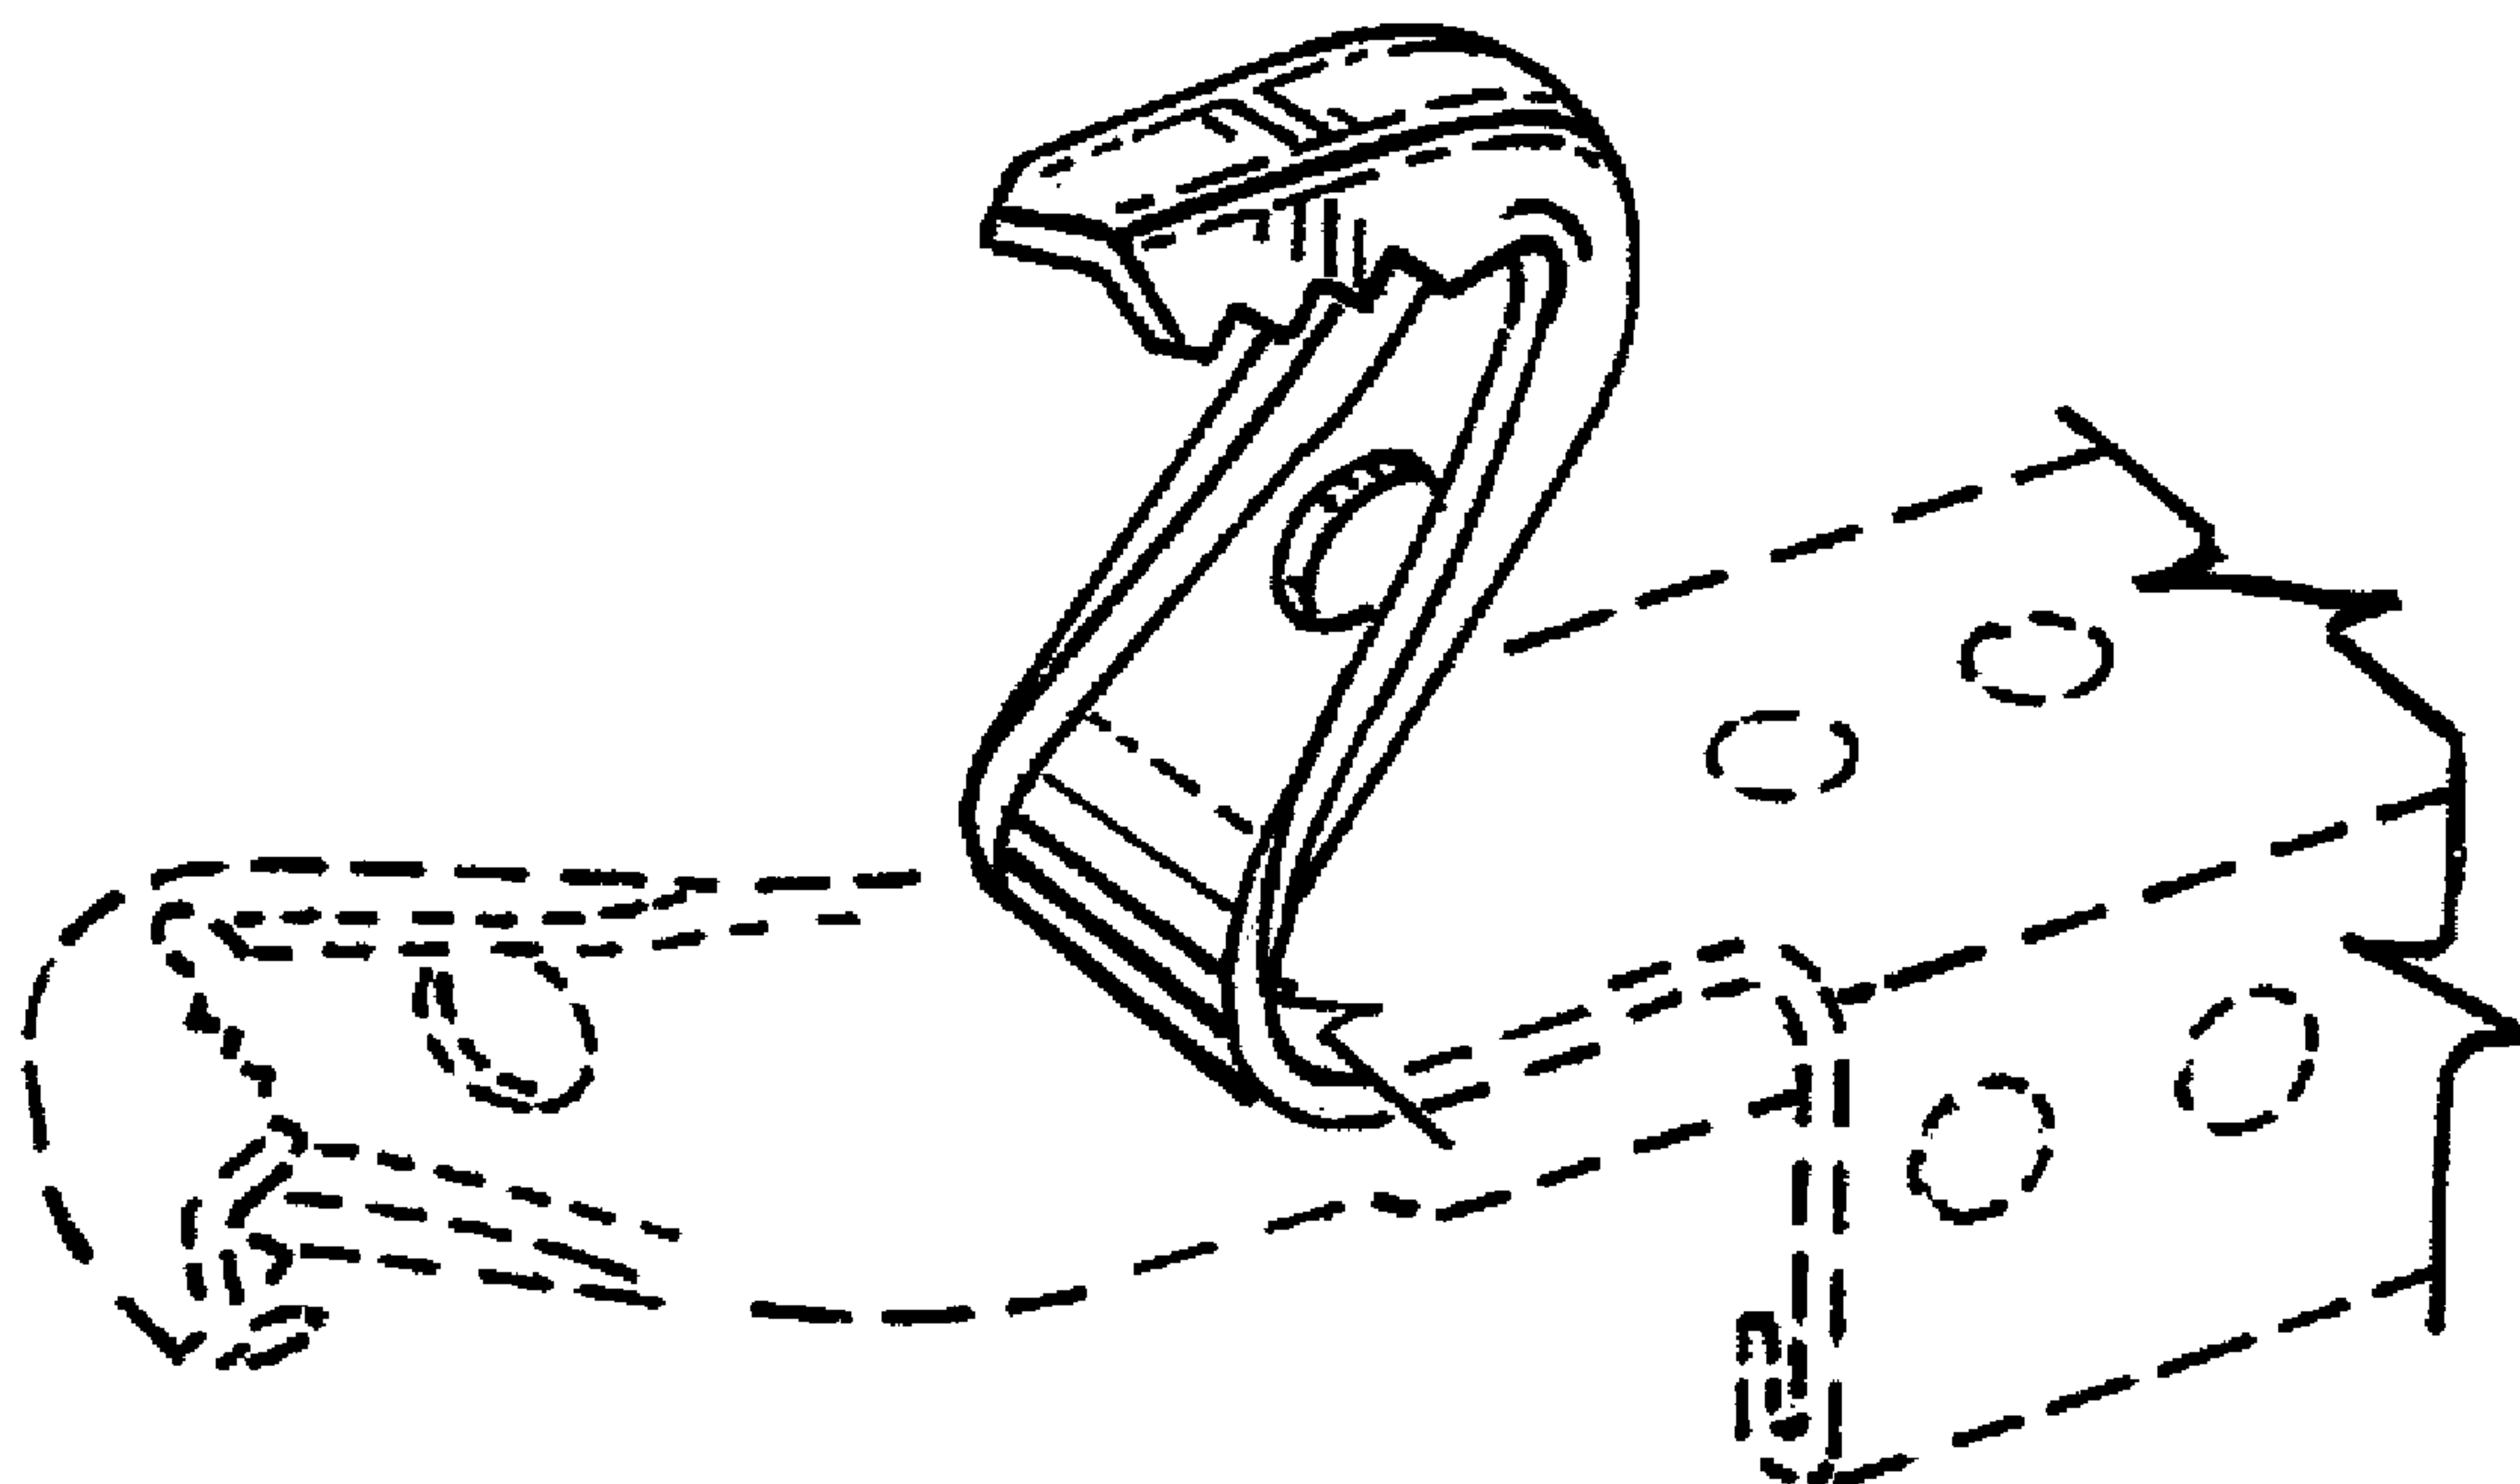

FIG. 3 is a right side elevational view of the self-nailing barb;

FIG. 4 is a bottom plan view of the self-nailing barb;

FIG. 5 is a front elevational view of the self-nailing barb, the rear elevational view being a mirror image of the front elevational view; and,

FIG. 6 is a left side elevational view of the self-nailing barb.
