(57) **CLAIM**

The ornamental design for a disposable urinary devise for standing females, as shown and described.

DESCRIPTION

FIG. 1 is a lateral elevation view of my new design for a disposable urinary devise for standing females; and,

FIG. 2 is a top plan view thereof.

My disposable urinary devise for standing females is curved and contoured against the female organ with an adapting flare that funnels out in a projection in a way that reminds of an elephant face with a short trunk.
