(57) **CLAIM**

The ornamental design for a container for the transport and handling of goods, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of one flattened portion of a container for the transport and handling of goods prior to assembly showing one of the two portions forming the container for the transport and handling of goods when assembled.

FIG. 2 is a front elevational view of the portion of a container for the transport and handling of goods seen in FIG. 1.

FIG. 3 is a perspective view of a container for the transport and handling of goods in its assembled condition.

FIG. 4 is a side elevational view thereof.

FIG. 5 is a front elevational view thereof.

FIG. 6 is a bottom view thereof; and,

FIG. 7 is a top view thereof.
