(57) **CLAIM**

The ornamental design for an interconnect enclosure for computer and audio visual equipment mountable under a table top, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an interconnect enclosure for computer and audio visual equipment mountable under a table top according to the first embodiment of this invention. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 2 is a front elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 3 is a right side elevational view thereof, wherein a left side elevational view is a mirror image of the right side elevational view. The broken lines are to illustrate an environment only and form no part of the claimed design.

The appearance of the bottom forms no part of the claimed design.

FIG. 4 is a perspective view of an interconnect enclosure for computer and audio visual equipment mountable under a table top according to the second embodiment of this invention. The broken lines are to illustrate an environment only and form no part of the claimed design.

FIG. 5 is a front elevational view thereof. The broken lines are to illustrate an environment only and form no part of the claimed design; and,

FIG. 6 is a right side elevational view thereof, wherein a left side elevational view is a mirror image of the right side elevational view. The broken lines are to illustrate an environment only and form no part of the claimed design.

The appearance of the bottom forms no part of the claimed design.

The surfaces or portions of the article not shown in the drawings or described in the specification form no part of the claimed design.
