(57) **CLAIM**

The ornamental design for a vehicle front bumper cover, as
shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a vehicle front bumper
cover;

FIG. 2 is a left side elevational view of the vehicle front
bumper cover;

FIG. 3 is a right side elevational view of the vehicle front
bumper cover;

FIG. 4 is a top plan view of the vehicle front bumper cover;

FIG. 5 is a bottom plan view of the vehicle front bumper
cover; and,

FIG. 6 is a rear elevational view of the vehicle front bumper
cover.

The Vehicle Front Bumper Cover is styled independently of
adjacent vehicle panels. To the extent that any feature lines are
illustrated, they are intended to illustrate the crest and valley
of the feature and are not necessarily sharp bends in the part.
Shading is used to illustrate the curvature of the part and not
color. Areas shown in or sounded by broken lines are not
claimed. Any functional features of the Vehicle Front Bumper
Cover are not claimed. Views are orthogonal projections
unless otherwise noted. The various views are not necessarily
to scale in order to better illustrate the design.
