(57) **CLAIM**

The ornamental design for an end/side region for an interlocking paver, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view from above showing my end/side region for a paver design as applied to an end of a somewhat rectangular-shaped paver, and includes a pair of horizontal break lines to indicate that my design is not limited to any particular dimension in the vertical direction;

FIG. 2 is a plan view of my end/side region for a paver design of FIG. 1;

FIG. 3 is a left end elevation view of my end/side region for a paver design of FIG. 1, and includes a horizontal break line again indicating that no particular vertical dimension is intended to be claimed for my design;

FIG. 4 is a perspective view from above showing my end/side region for a paver design as applied to a side of a somewhat rectangular-shaped paver, and includes a pair of horizontal break lines to indicate that my design is not limited to any particular dimension in the vertical direction;

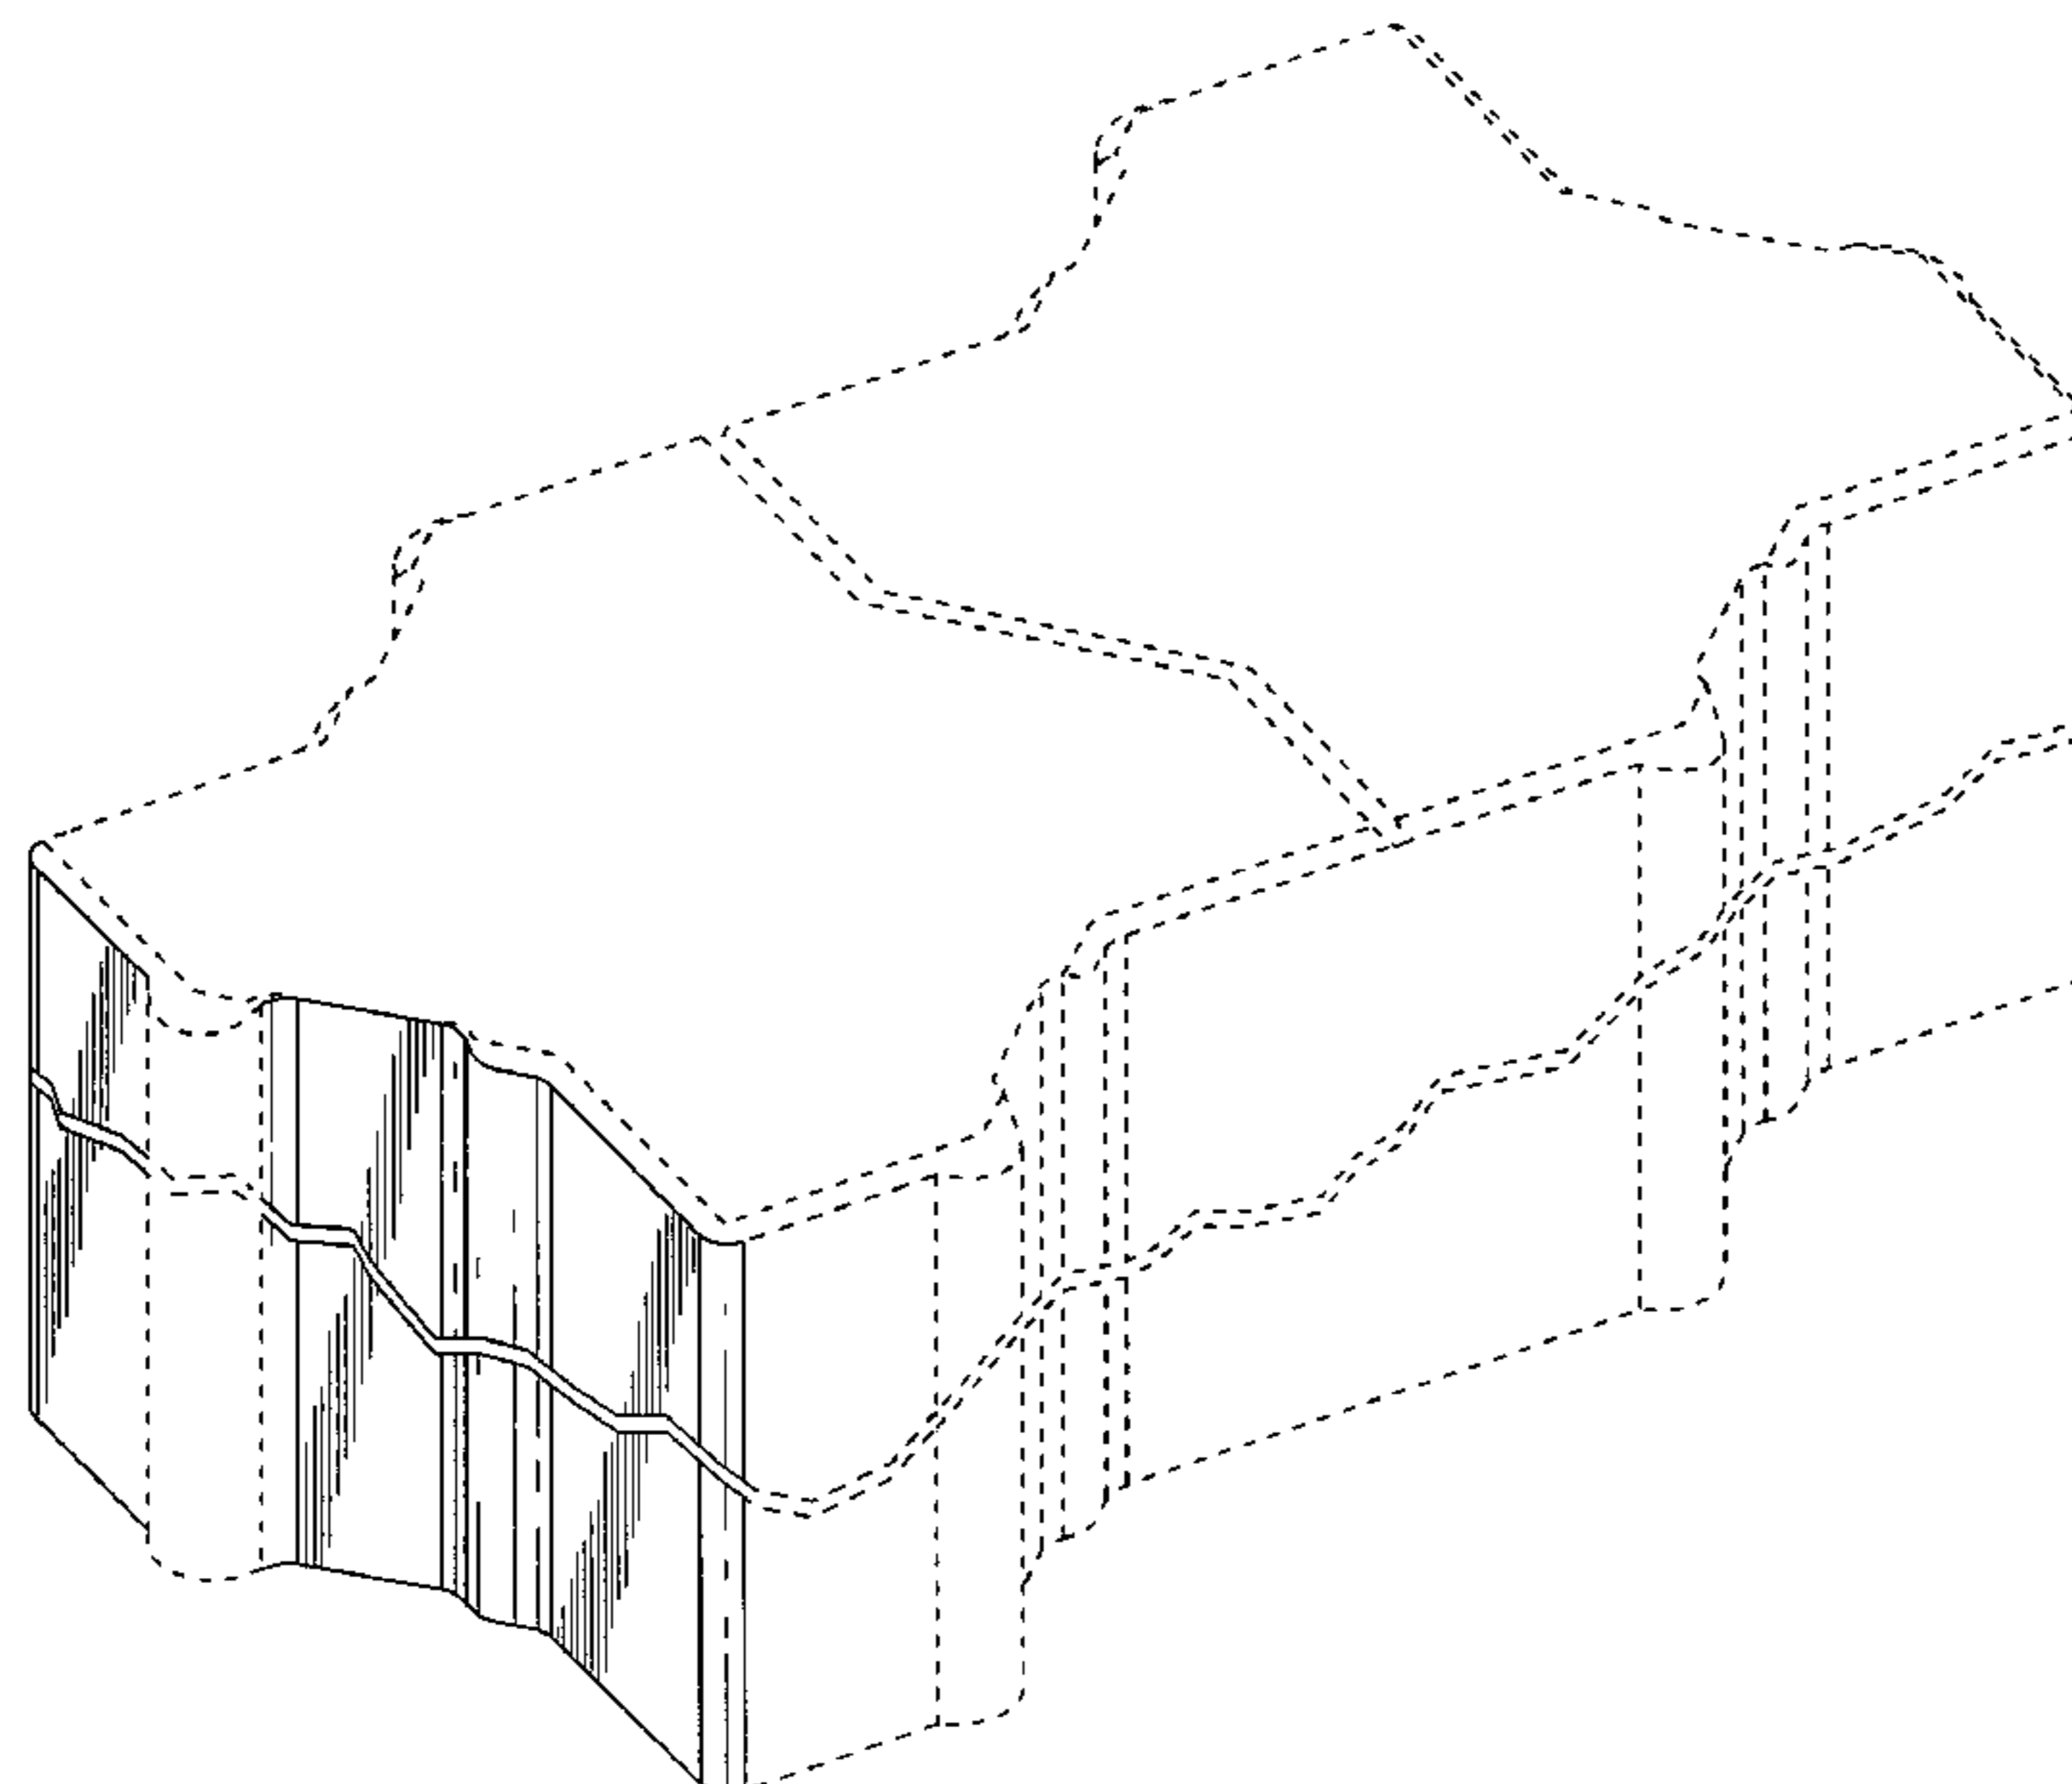

FIG. 5 is a plan view of my end/side region for a paver design of FIG. 1; and,

FIG. 6 is a side elevation view of my end/side region for a paver design of FIG. 4, and includes a horizontal break line again indicating that no particular vertical dimension is intended to be claimed from my design.

The broken lines adjacent to the shaded surfaces define the bounds of the claimed design, but form no part thereof.

The other broken lines depict environmental subject matter and form no part of the claimed design.
