(57) **CLAIM**

The ornamental design for the sheet material with pattern, as shown and described.

**DESCRIPTION**

The sole FIGURE is a front view of a sheet material with pattern showing my new ornamental design.

The surfaces of the product that are not illustrated in the drawing or described herein do not form a part of the claimed design.

The broken lines around the design indicate that a specific length and width of the sheet material with pattern form no part of the claimed design, and that the surface pattern repeats uniformly throughout the length and width of the sheet material with pattern. The broken lines form no part of the claimed design.
