(57) **CLAIM**

The ornamental design for a bracket for securing a single-lever-valve, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a bracket apparatus for securing a single-lever-valve (shown in broken lines) and associated water piping (shown in broken lines) to one side of a support board (shown in broken lines), wherein the broken lines indicate environmental matter that forms no part of the claimed design;

FIG. 2 is another perspective view thereof;

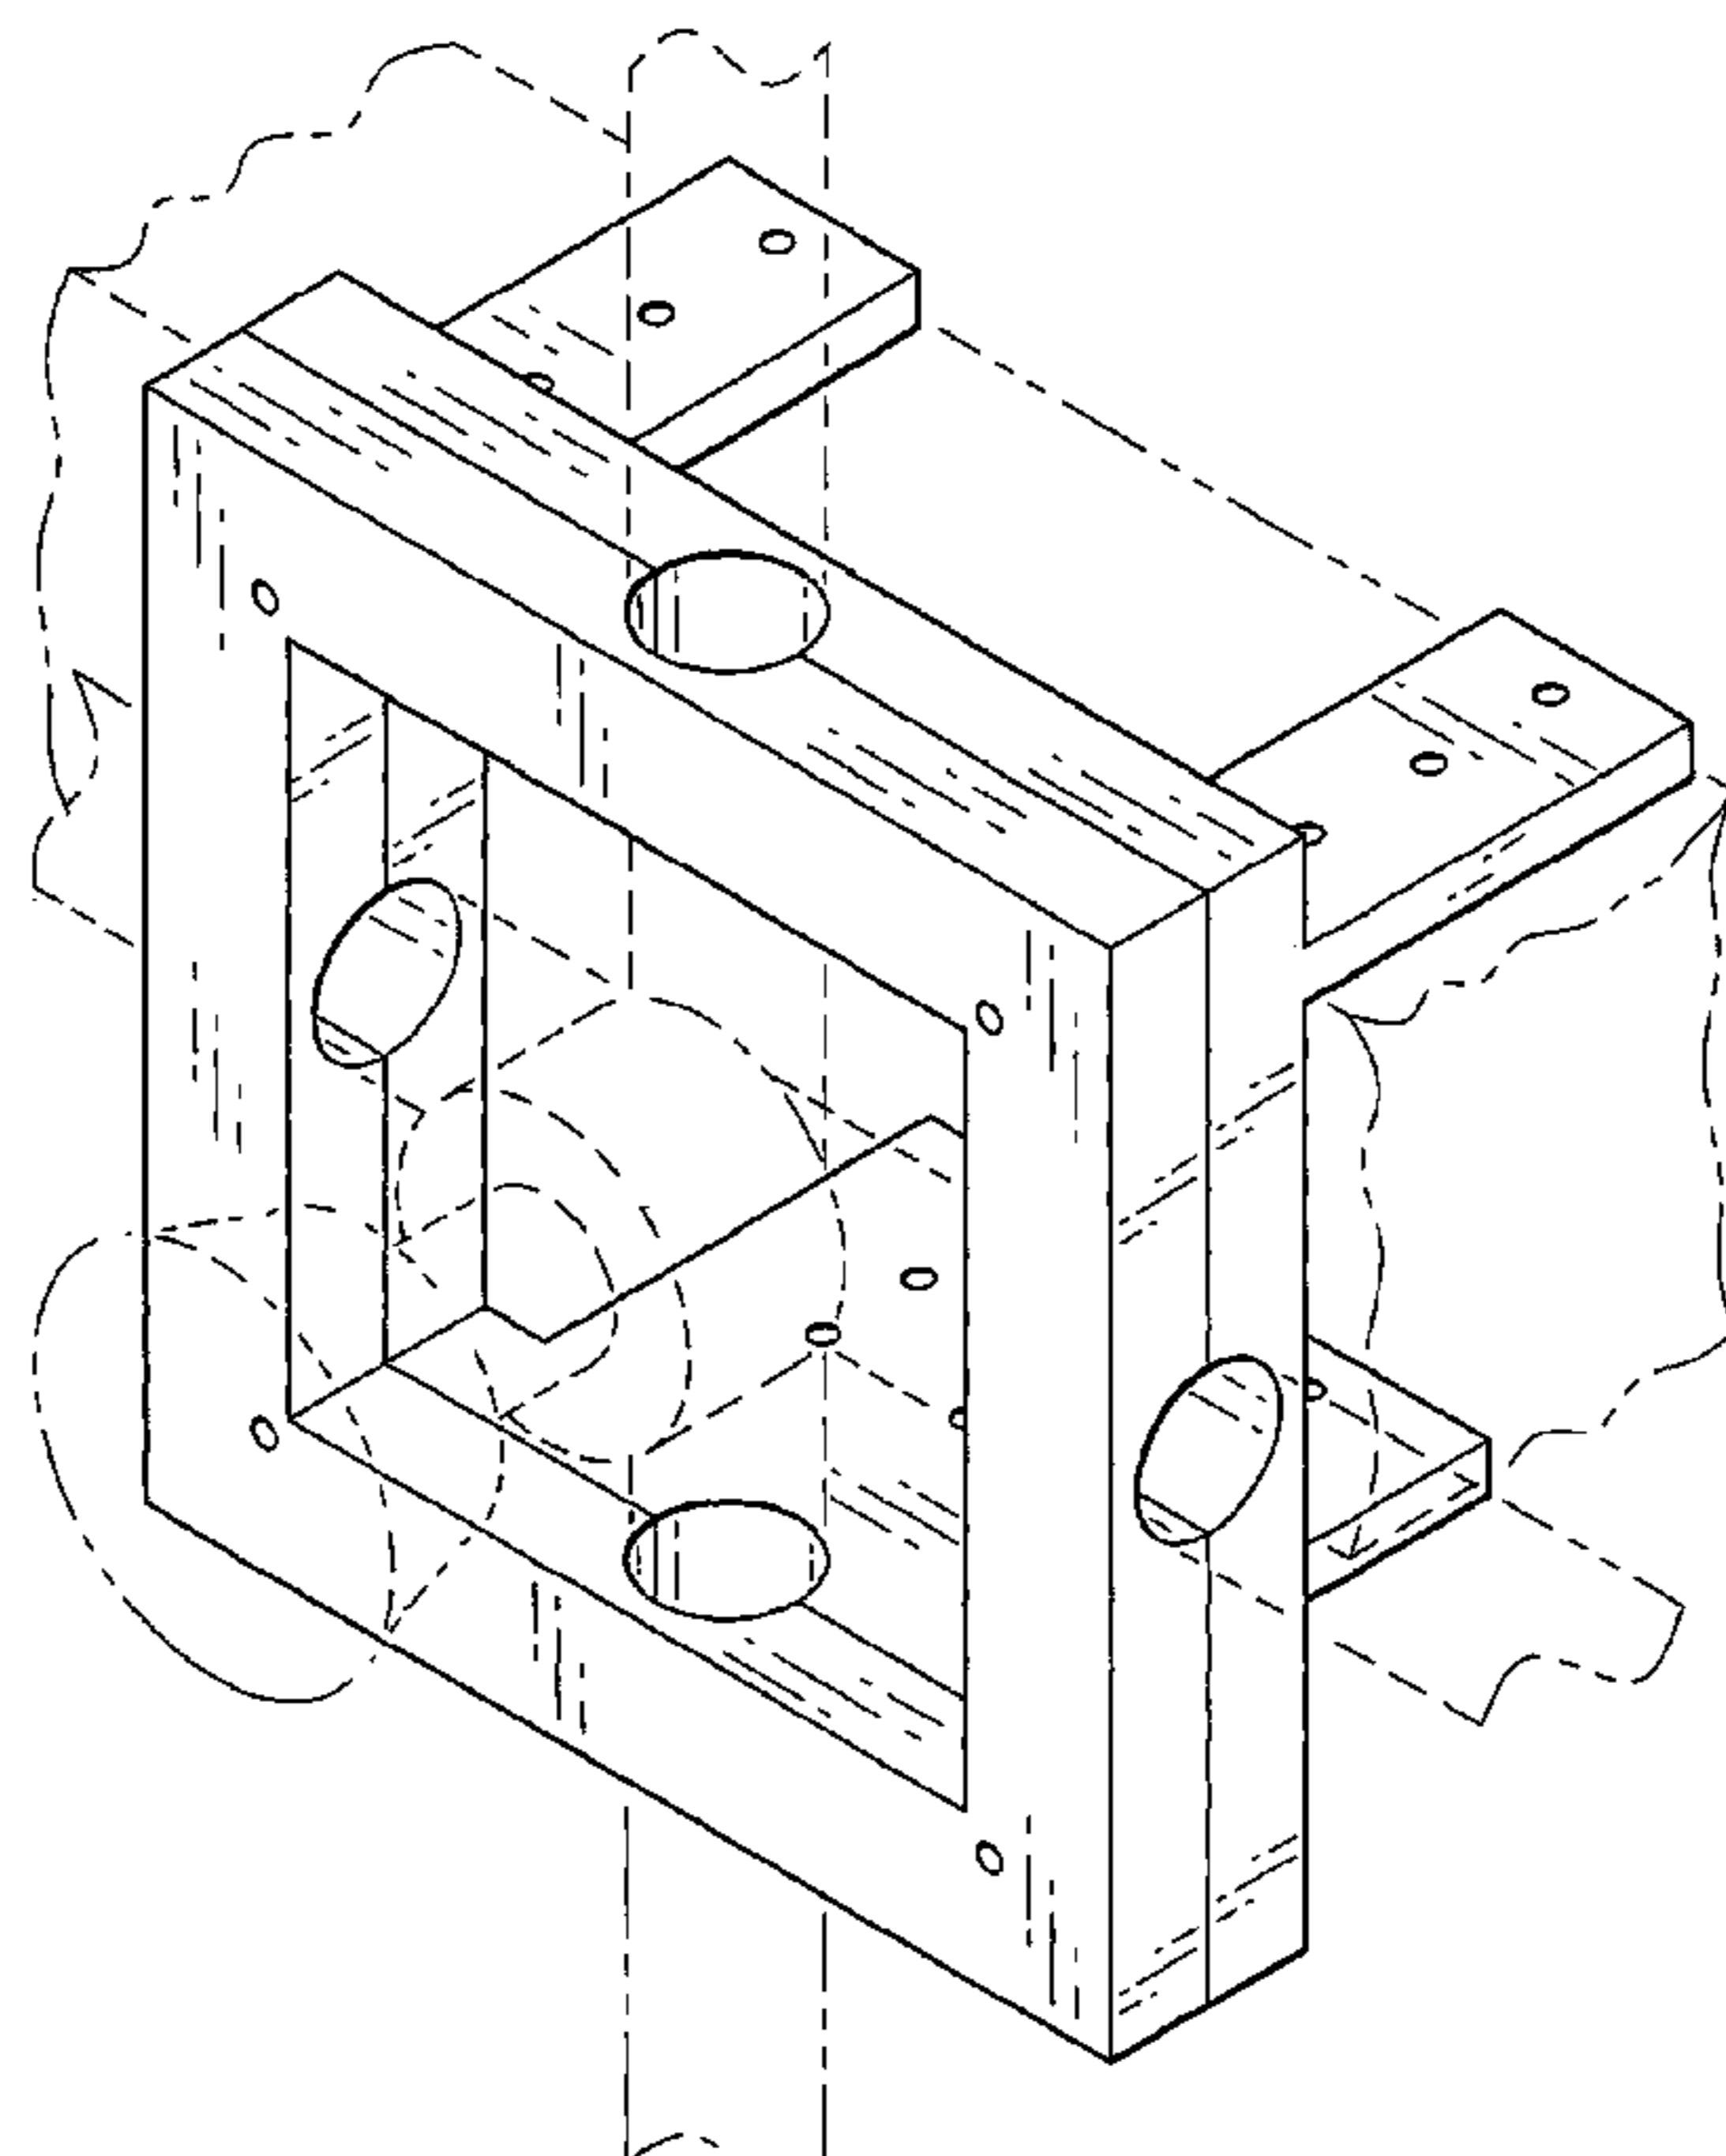

FIG. 3 is a front elevation view thereof;

FIG. 4 is a right-side view thereof, the left-side view being a mirror image of the right-side view;

FIG. 5 is a top plan view thereof; and,

FIG. 6 is a rear elevation view thereof.
