Applicant recognizes the inventive aspects exist in the GPS receiver as a whole, in individual portions and elements thereof, and in combinations of portions and elements thereof. Applicant reserves the right to amend this application and/or to file one or more continuation applications to specifically claim any such arrangements.

While the figures are currently photographs, applicant reserves the right to claim or disclaim the color contrasts in the present application and in continuation applications. Applicant reserves the right to claim the GPS receiver without various surface indicia thereon, including but not limited to, the letters and symbols shown in the figures, and to claim the GPS receiver, or a portion thereof, with a smooth uninterrupted continuing surface where the indicium is disposed. Applicant reserves the right to claim the GPS receiver without reflections and to submit photographs or drawings without such reflections in the present applicant and in any divisional application.
