FIG. 1 is a front view perspective of the flexural mount of the invention in use about a tubular upright shown in dotted lines; FIG. 2 is a front view in perspective of the flexural mount of FIG. 1 in extended conformation;

FIG. 3 is a top plan view of the flexural mount of FIG. 2; FIG. 4 is a side view in elevation of the flexural mount as seen from the left hand side of FIG. 3, the left hand side and the right hand side being symmetrical to one another;

FIG. 5 is an end elevation view of the flexural mount as seen from the top end of FIG. 3;

FIG. 6 is an end elevation view of the flexural mount as seen from the bottom end of FIG. 3; and,

FIG. 7 is a bottom plan view of the flexural mount of FIG. 2. The broken lines are included for the purpose of illustrating environment and forms no part of the claimed design.
