(57) **CLAIM**

The ornamental design for a table, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a table showing my new design;

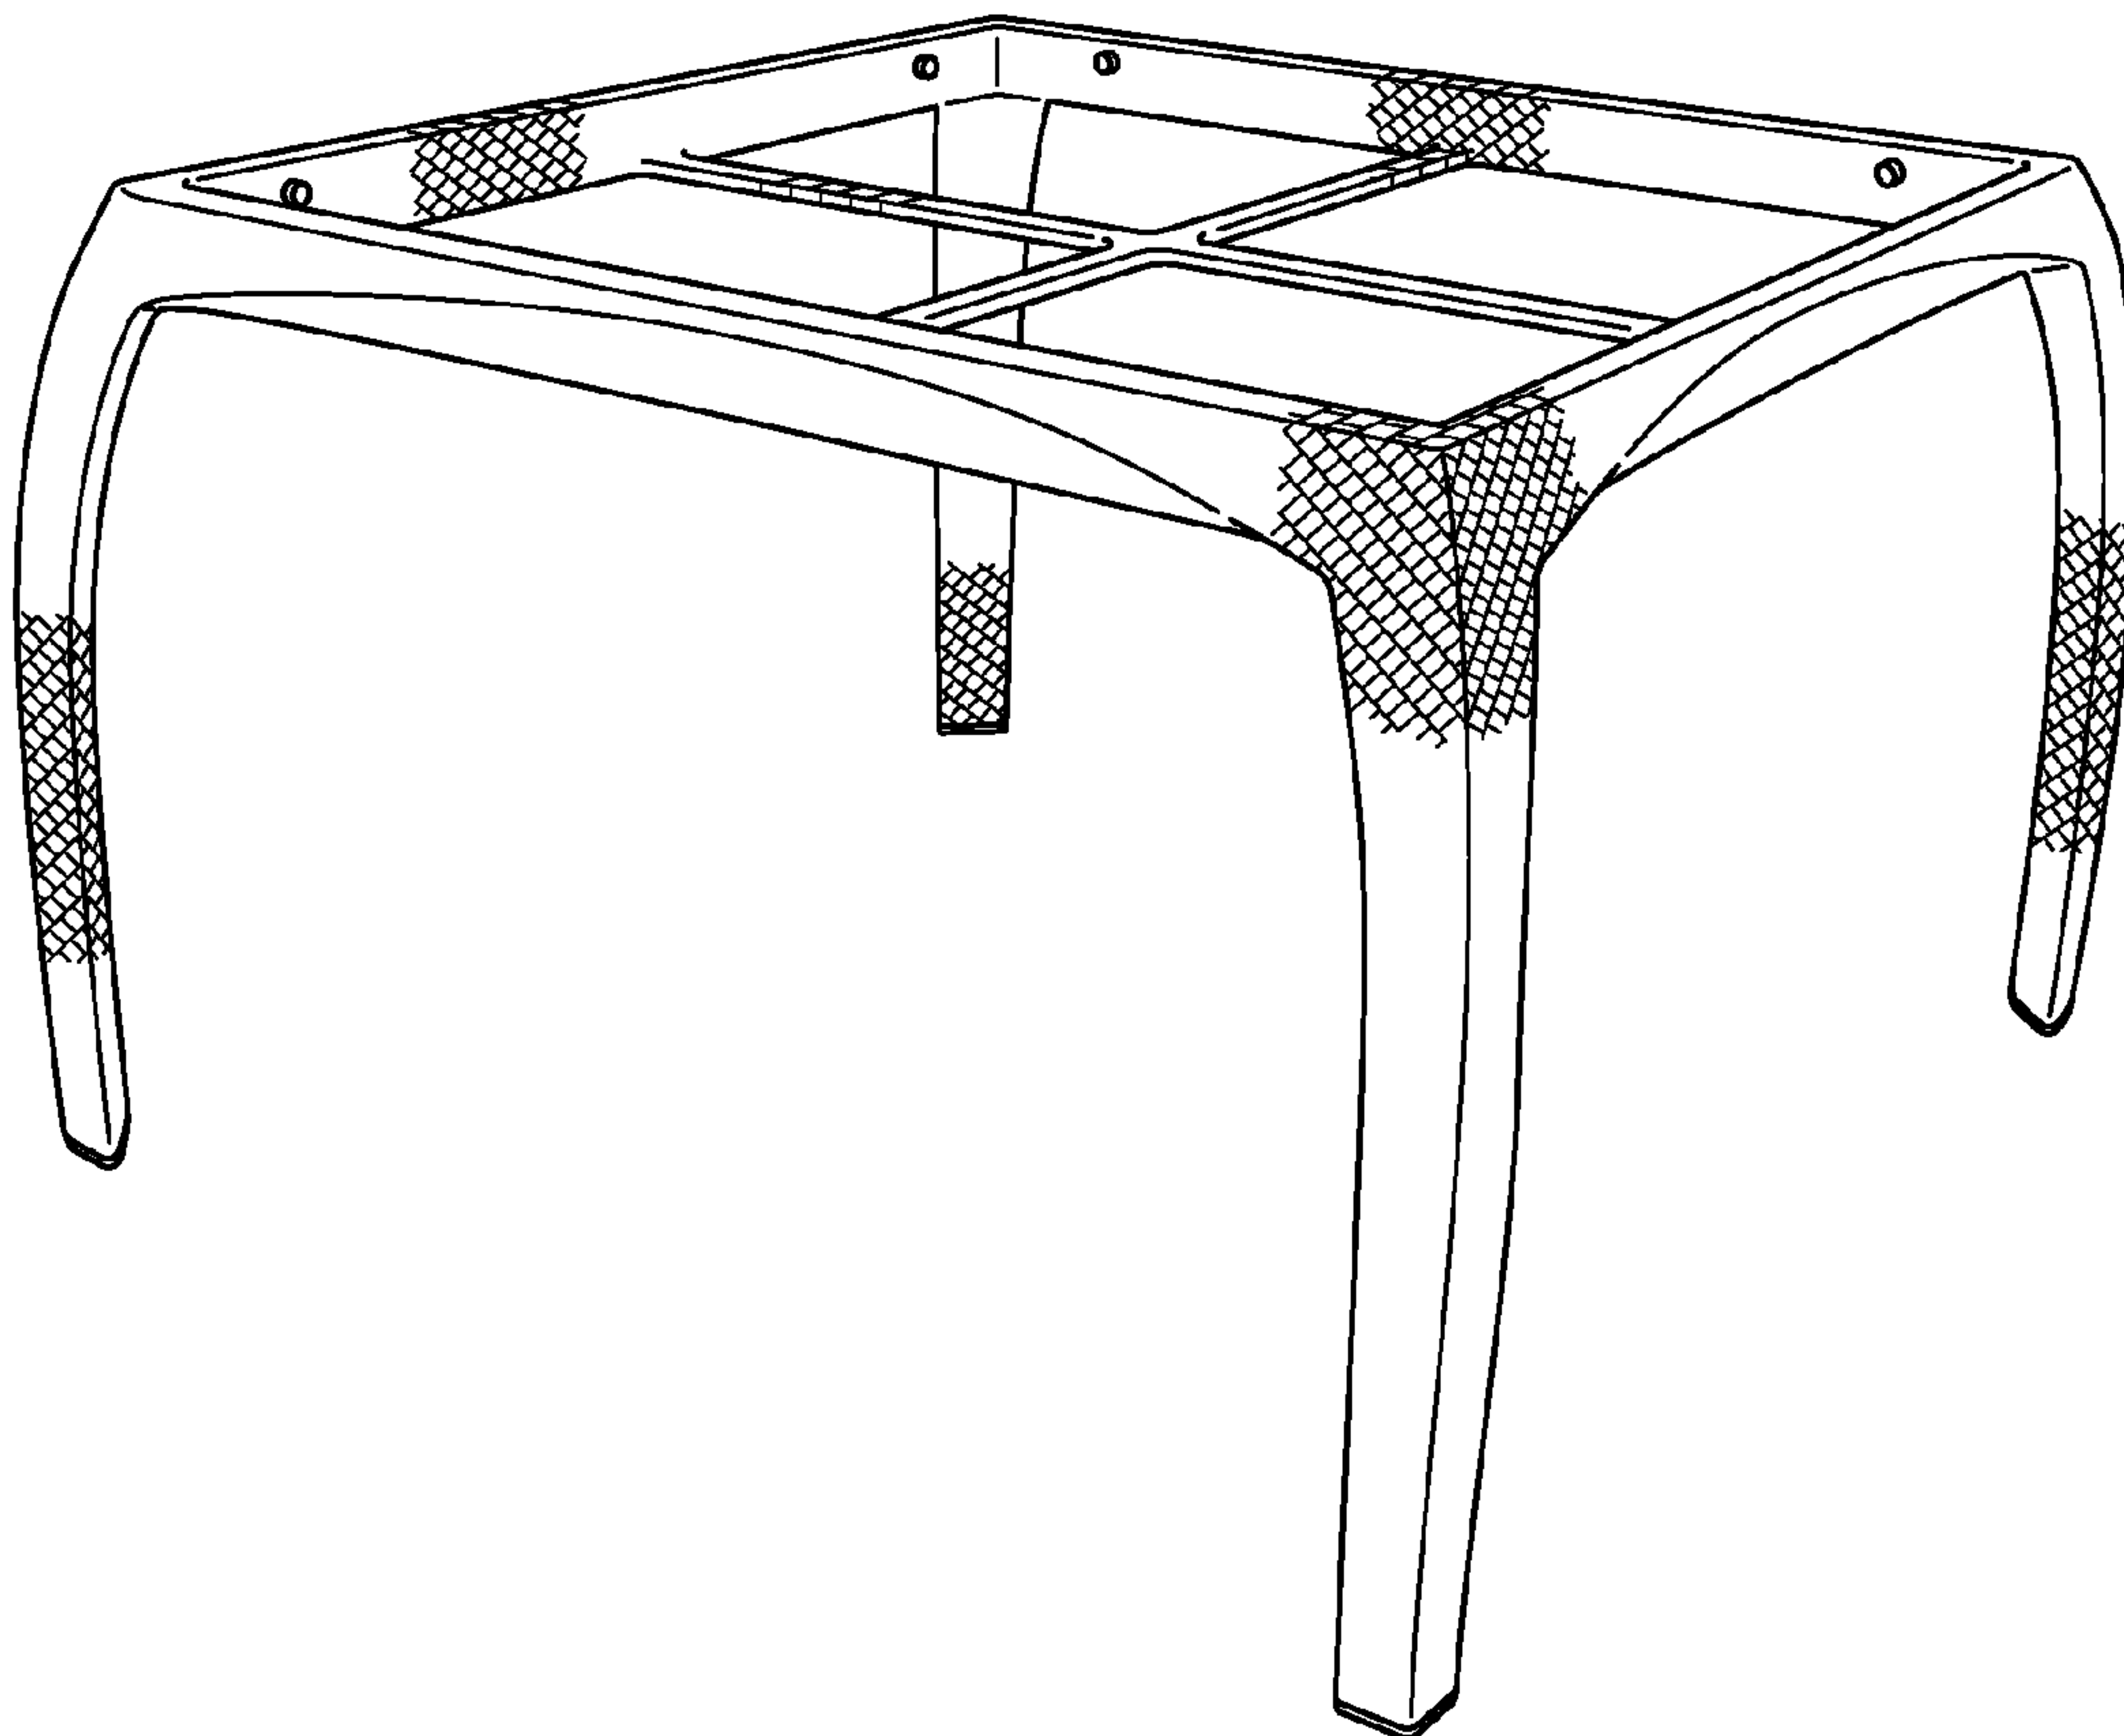

FIG. 2 is a side view thereof;

FIG. 3 is a top plan view thereof; and,

FIG. 4 is a bottom perspective view thereof.

The broken line showing of the oval in FIG. 2 is for environmental purposes only and forms no part of the claimed design. The cross-hatched pattern regions in the figures are representative of a woven appearance that extends through the table except for the foot members at the bottom of the legs and the cylindrical shaped hardware members. The woven appearance is depicted in a representative manner to avoid crowding of the drawings.
