(57) **CLAIM**

The ornamental design for a transitional user interface for a computer display, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a transitional user interface for a computer display showing our new design;

FIG. 2 is a front view of a second image thereof; and,

FIG. 3 is a front view of a third image thereof.

The appearance of the user interface sequentially transitions between the images shown in FIGS. 1–3. The process or period in which one image transitions to another forms no part of the claimed design.

The broken line showing of a portion of a computer display is included for the purpose of illustrating environmental structure and forms no part of the claimed design.

The broken line showing of unclaimed portions of the user interface for a computer display forms no part of the claimed design.
