(57) **CLAIM**

The ornamental design for a “water hose,” as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of the water hose in a coil and illustrating my new design. The broken lines in FIG. 1 illustrate a water faucet connected to one end of the water hose and water exiting an opposite end of the water hose. The water faucet and water are for illustrative purposes only and form no part of the invention.

FIG. 2 is an enlarged perspective view of the opposite ends of the water hose as shown in FIG. 1.

FIG. 3 is an enlarged front elevational view of the opposite ends of the water hose shown in FIG. 2.

FIG. 4 is an enlarged side elevational view of the male and female connectors of the water hose shown in FIG. 1 and connected together; and,

FIG. 5 is an enlarged side elevational view of the opposite ends of the connectors of the water hose shown in FIG. 1 and disposed next to each other. The side elevational view of the opposite ends of the connectors is identical therearound.

**1 Claim, 4 Drawing Sheets**

FIG. 1

FIG. 2

FIG. 3

FIG. 4
