**DESCRIPTION**

FIG. 1 is a top plan view of the medical pet shirt according to my new design, showing the attachment straps extending from the bottom panel in attached relation with the upper panel;

FIG. 2 is a top plan view similar to FIG. 1 with the attachment straps extending from the bottom panel in an unattached position and having their end portions turned upwardly for viewing of the attachment means;

FIG. 3 is a bottom plan view of the medical pet shirt according to my new design, illustrating the attachment straps in an unattached position;

FIG. 4 is a right-side view of the medical pet shirt according to my new design, positioned on a pet which is shown in broken lines for environmental purposes and is not obstructing any of the claimed design;

FIG. 5 is a top, left and rear side perspective view thereof; and,

FIG. 6 is a top, right and rear perspective view of the medical pet shirt according to my new design, shown with the attachment straps extending from the lower panel unexposed, by being tucked in and unattached to the upper panel.

The broken line showing of a dog and a cat in FIGS. 4–6 is illustrative of environment only for the purpose of showing how the shirt is used on an animal, and is not claimed.

Broken lines on the shirt itself represent stitching and are part of the claimed design.
