(57) **CLAIM**

The ornamental design for frame component for a liquid crystal display, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a frame component for a liquid crystal display showing our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is an end elevational view thereof, with the opposite end elevational view being a mirror image; and,

FIG. 4 is a perspective view thereof illustrating an application thereof.

The broken line showing of a liquid crystal display is included for the purpose of illustrating environment and forms no part of the claimed design.
