(57) **CLAIM**

The ornamental design for a powered linear stage, as shown and described.

DESCRIPTION

FIG. 1 is a right side/rear/top isometric view of my new design, the view being broken to indicate that the design may be of any length;

FIG. 2 is a right side/front/top isometric view thereof, the view being broken to indicate that the design may be of any length;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a front elevational view thereof;

FIG. 5 is a top plan view thereof, the view being broken to indicate that the design may be of any length;

FIG. 6 is a bottom plan view thereof, the view being broken to indicate that the design may be of any length; and,

FIG. 7 is a left side elevational view thereof, the view being broken to indicate that the design may be of any length, the right side being identical to that shown except that the elements thereof are reversed.

The broken line showing of the threaded screw is included for the purposes of illustrating portions of the threaded screw and forts no part of the claimed design.
