(57) **CLAIM**

I claim the ornamental design for the pegboard receptacle, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a pegboard receptacle for mounting to a slatwall or pegboard in accordance with an embodiment of the present invention, in which the pegboard receptacle may be opaque and in which dash lines are used to demonstrate that such features as a plastic material gate or other such surface interruptions are optional and form no part of the claim design;

FIG. 2 is a right-side view of the receptacle shown in FIG. 1; FIG. 3 is a left-side view of the receptacle shown in FIG. 1;

FIG. 4 is a top view of the receptacle shown in FIG. 1;

FIG. 5 is a bottom view of the receptacle shown in FIG. 1;

FIG. 6 is a front view of the receptacle shown in FIG. 1;

FIG. 7 is a rear view of the receptacle shown in FIG. 1;

FIG. 8 is a perspective view of a pegboard receptacle for mounting to a slatwall or pegboard in accordance with an embodiment of the present invention, in which the pegboard receptacle may be translucent and in which dash lines are used to demonstrate that such features as a plastic material gate or other such surface interruptions are optional and form no part of the claim design;

FIG. 9 is a right-side view of the receptacle shown in FIG. 8;

FIG. 10 is a left-side of the receptacle shown in FIG. 8;

FIG. 11 is a top view of the receptacle shown in FIG. 8;

FIG. 12 is a bottom view of the receptacle shown in FIG. 8;

FIG. 13 is a front view of the receptacle shown in FIG. 8; and,

FIG. 14 is a rear view of the receptacle shown in FIG. 8.
